The Department has reviewed the status of your pump test and any requests for extension(s) or exemption(s) for the following permitted well(s). The results are summarized in the table below:

Application	Water Right	Permitted Well	Pumped Well	Test Date	Request Status	Problems	Exemption	Well Name
G 12290	Permit: G 11295 *	CURR0000976	CURR0001159	06/04/2026	APPROVED	0	Multiple Well	
G 12290	Permit: G 11295 *	CURR0000978	CURR0001159	06/04/2026	APPROVED	0	Multiple Well	OLD 8" WELL
G 12290	Permit: G 11295 *	CURR0000987	CURR0001159	06/04/2026	APPROVED	0	Multiple Well	WELL 1

A pump test was conducted in CURR 1159 which produces from the same aquifer as CURR 976, CURR 978 and CURR 987. All four wells are owned by the same landowner and are within 5 miles of each other.

Therefore the requirements of OAR 690-217-0020 are met, and the multiple well exemption requests are approved.

Approved pump test letters will be digitally posted to the water right in WRIS; all other pump test letters will be mailed to permit holder.

Please contact me if you have any questions.

Sincerely,

James Hootsmans
