By my signature below, I confirm that I understand:

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application.
- I cannot legally use water until the Water Resources Department issues a permit.
- The Department encourages all applicants to wait for a permit to be issued before beginning construction. Acceptance of this application does not guarantee a permit will be issued.
- If I begin construction prior to the issuance of a permit, I assume all risks associated with my actions.
- If I receive a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be cancelled.
- The water use must be compatible with local comprehensive land use plans.
- Even if the Department issues a permit, I may have to stop using water to allow senior water right holders to receive water to which they are entitled.

I (we) affirm that the information contained in this application is true and accurate.

Applicant Signature	Print Name and Title (if Organization)	Date
Craig O Storm	Craig Storm - Parks Director	9-15-26

SECTION 2: PROPERTY OWNERSHIP AND SIGNATORY AUTHORITY

A. Property Ownership

Please indicate if you own all the lands associated with the project from which the water is to be diverted, conveyed and used.

- ☐ YES, there are no encumbrances.
- ☐ YES, the land is encumbered by easements, rights of way, roads or other encumbrances.

- ☐ NO, I have a recorded easement or written authorization permitting access.
- ☐ NO, I do not currently have written authorization or easement permitting access.
- ☐ NO, written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submerged and/or submersible lands, and this application is for irrigation and/or domestic use only (ORS 274.040).
- ☒ NO, because water is to be diverted, conveyed and used only on federal lands.
- ☐ NO, written authorization or an easement is not necessary, because the application is made by or on behalf of a public corporation. ORS 537.211(7). Public corporation is defined in ORS 536.007(7).

B. Affected Landowners

List the names, mailing addresses, and, if available, email addresses of all owners of any lands that are not owned by the applicant and that are crossed by the proposed ditch, canal or other work, or any lands not owned by the applicant within the proposed place of use, even if the applicant has obtained written authorization or an easement from the owner. *(Attach additional sheets if necessary.)*

Bureau of Land Management - Coos Bay District
1300 Airport Ln
North Bend, OR 97459

Received
OCT 05 2026
OWRD

C. Legal Description

You must provide legal descriptions for all of the following: *(Attach copies)*

1. The property from which the water is to be diverted,
2. Any property crossed by the proposed ditch, canal or other work, and
3. Any property on which the water is to be used as depicted on the map.

Received
SEP 21 2026
OWRD

D. Evidence of Signatory Authority

If the applicant is a public agency, corporation or business, trust, or other organization, you must provide the title or authority of the person signing the application on behalf of the entity in **Section 1**, and you must attach evidence of signatory authority or a signed statement that such authority exists. *(Attach copies)*

SECTION 3: SOURCE OF WATER

A. Proposed Source of Water

Provide the name of the water body from which water will be diverted ("unnamed", if appropriate) and the name of the stream or lake it flows into.

	SOURCE NAME	TRIBUTARY TO
Source 1:	North Fork Coquille River	Coquille River
Source 2:		
Source 3:		

B. Applications to Use Stored Water

Are any of the sources listed above stored water that is authorized under a water right permit, certificate, or decree?

☐ Yes – Please attach a copy of the permit, certificate, or decree or list the document number (for decrees, list the volume, page and/or decree name):

☒ No – Continue with Section 4 below.

For applications to use stored water, do you own the reservoir(s) described in Section 3A above?

☐ Yes

☐ No – Please enclose a copy of your written notification to the operator of the reservoir of your intent to file this application, which should have been mailed or delivered to the operator.

If *all* sources listed in Section 3A are stored water, the Department will review your application using the expedited process provided in ORS 537.147, unless you check the box below. Please see the *Surface Water Guidebook* (www.oregon.gov/owrd/WRDFormsPDF/surfacewaterbook.pdf) for more information.

☐ By checking this box, you are requesting that the Department process your application under the standard process outlined in ORS 537.150 and 537.153, rather than the expedited process provided by ORS 537.147. To file an application under the standard process, you must enclose the following:

- A copy of a signed non-expired contract or other agreement with the owner of the reservoir (if not you) to impound the volume of water you propose to use in this application.
- A copy of your written agreement with the party (if any) delivering the water from the reservoir to you.

SECTION 4: SENSITIVE, THREATENED OR ENDANGERED FISH SPECIES PUBLIC INTEREST INFORMATION

This information must be provided for your application to be accepted as complete. The Water Resources Department will determine whether the proposed use will impair or be detrimental to the public interest with regard to sensitive, threatened or endangered fish species.

To answer the following questions, use the map provided on the last page of this application or the link below to determine whether the proposed point of diversion (POD) is located in an area where the Upper Columbia, the Lower Columbia, and/or the Statewide public interest rules apply.

For more detailed information, click on the following link and enter the T,R,S,QQ or the Lat/Long of a POD and click on "Submit" to retrieve a report that will show which section, if any, of the rules apply:
https://apps.wrd.state.or.us/apps/misc/lkp_trsqq_features/

If you need additional help, please call the customer service desk at (503) 986-0900.

Upper Columbia - OAR 690-033-0115 through -0130

Is the POD located in an area where the Upper Columbia Rules apply?

☐ Yes ☒ No

If yes, you are notified that the Water Resources Department will consult with numerous federal, state, local and tribal governmental entities so it may determine whether the proposed use is consistent with the "Columbia River Basin Fish and Wildlife Program" adopted by the Northwest Power Planning Council in 1994 for the protection and recovery of listed fish species. The application may be denied, heavily conditioned, or if appropriate, mitigation for impacts may be needed to obtain approval for the proposed use.

If yes,

- I understand that the permit, if issued, will not allow use during the time period of April 15 to September 30, except as provided in OAR 690-033-0140.
- I understand that I will install, operate and maintain a fish screen and fish passage as listed in ORS 498.301 through 498.346, and 509.580 through 509.910, to the specifications and extent required by Oregon Department of Fish and Wildlife, prior to diversion of water under any permit issued pursuant to this application.
- I understand that the Oregon Department of Environmental Quality will review my application to determine if the proposed use complies with existing state and federal water quality standards.
- I understand that I will install and maintain water use measurement and recording devices as required by the Water Resources Department and comply with recording and reporting permit condition requirements.

Lower Columbia - OAR 690-033-0220 through -0230

Received Received
OCT 05 2026 SEP 21 2026
OWRD OWRD

Is the POD located in an area where the Lower Columbia rules apply?

☐ Yes ☒ No

If yes, you are notified that that the Water Resources Department will determine, by reviewing recovery plans, the Columbia River Basin Fish and Wildlife Program, and regional restoration programs applicable to threatened or endangered fish species, in coordination with state and federal agencies, as appropriate, whether the proposed use is detrimental to the protection or recovery of a threatened or endangered fish species and whether the use can be conditioned or mitigated to avoid the detriment.

If a permit is issued, it will likely contain conditions to ensure the water use complies with existing state and federal water quality standards; and water use measurement, recording and reporting required by the Water Resources Department. The application may be denied, or if appropriate, mitigation for impacts may be needed to obtain approval of the proposed use.

If yes, you will be required to provide the following information, if applicable.

Is the proposed use for more than **one** cubic foot per second (448.8 gpm) and not subject to the requirements of OAR 690, Division 86 (Water Management and Conservation Plans)?

☐ Yes ☒ No

If yes, please provide a description of the measures to be taken to assure reasonably efficient water use:

Statewide - OAR 690-033-0330 through -0340

Is the POD located in an area where the Statewide rules apply?

☒ Yes ☐ No

If yes, the Water Resources Department will determine whether the proposed use will occur in an area where endangered, threatened or sensitive fish species are located. If so, the Water Resources Department, Department of Fish and Wildlife, Department of Environmental Quality, and the Department of Agriculture will recommend conditions required to achieve "no loss of essential habitat of threatened and endangered (T&E) fish species," or "no net loss of essential habitat of sensitive (S) fish species." If conditions cannot be identified that meet the standards of no loss of essential T & E fish habitat or no net loss of essential S fish habitat, the agencies will recommend denial of the application unless they conclude that the proposed use would not harm the species.

SECTION 5: WATER USE

Identify each proposed use of water under this application, including the source, the requested period of use (e.g., year-round, Mar 1 – Oct 31, etc.), and the amount in cubic feet per second (CFS) or gallons per minute (GPM). If the proposed use is from storage, provide the amount in acre-feet (AF).
(1 CFS equals 448.8 GPM. 1 acre-foot equals 325,851 gallons or 43,560 cubic feet)

SOURCE	USE	PERIOD OF USE	AMOUNT
North Fork Coquille River	Human Consumption	year-round	0.1 ☒ CFS ☐ GPM ☐ AF
North Fork Coquille River	Human Consumption	May 1 - Sept 30	0.2 ☐ CFS ☐ GPM ☐ AF
			☐ CFS ☐ GPM ☐ AF
			☐ CFS ☐ GPM ☐ AF

- If the use is **irrigation or nursery use**, please indicate the number of acres for primary irrigation, supplemental irrigation and/or nursery use. *(Please check that this matches the application map.)*
  - Primary Irrigation: _____ acres
  - Supplemental Irrigation: _____ acres
  - Nursery Use: _____ acres
  - Total number of acre-feet you are requesting to use annually for the above uses: _____ acre-feet
  - If supplemental irrigation acres are listed, provide the permit or certificate number of the underlying primary water right(s): _____
- If the use is **municipal or quasi-municipal**, you are required to attach a completed **Form M:** https://www.oregon.gov/owrd/WRDFormsPDF/muniform.pdf
- If the use is **domestic**, indicate the number of households: 107 campsites households
- If the use is **mining**, describe what is being mined and the method(s) of extraction (*attach additional sheets if necessary*):

SECTION 6: WATER MANAGEMENT

A. Diversion and Conveyance

What equipment will you use to pump water from your source?

☒ Pump (provide horsepower and type):

5 HP centrifugal at each POD

☐ Other means (describe):

Provide a description of the proposed means of diversion, construction, and operation of the diversion works and conveyance of water.

POD #1 (Year round) will divert water with a 5hp centrifugal pump, through a water treatment system, then to 4, 4,500 gallon tanks, the operational buldge to meet peak water demand. 46 full hook up sites and 30 tent sites
POD #2 (seasonal) uses an identical system to POD#1, but with one 2500 gal buldge w/ 10 full / 22 tent sites

A. Application Method

What equipment and method of application will be used? (e.g., drip, wheel line, high-pressure sprinkler) (*Attach additional sheets if necessary.*)

subgrade PVC mainline delivers water from POD#1(Year round) to each of the 43 year round RV sites and the 4 spigots service the 32 year round tent sites
subgrade PVC mainline delivers water from POD#2(seasonal) to each 10 seasonal RV sites and 2 spigots service the 22 seasonal tent sites.

B. Conservation

Please describe why the amount of water requested is needed and measures you propose to: (1) prevent waste, (2) measure the amount of water diverted, (3) prevent damage to aquatic life and riparian habitat, (4) prevent the discharge of contaminated water to a surface stream, and (5) prevent adverse impact to public uses of affected surface waters. *(Attach additional sheets if necessary.)*

1) Water treatment system is automated no water is wasted
2) Totalizing flow meters are installed at POD #1&2
3-5) See section 7 resource protection
-Estimated peak flow for each POD is 0.1 CFS.

SECTION 7: RESOURCE PROTECTION

In granting permission to use water from a stream or lake, the state encourages, and in some instances requires, careful control of activities that may affect the waterway or streamside area. See instruction guide for a list of possible permit requirements from other agencies. Please indicate any of the practices you plan to undertake to protect water resources:

☒ Diversion will be screened per ODFW specifications in ORS 498.301 through 498.346 to prevent uptake of fish and other aquatic life. Describe planned actions:

ODFW has approved fish screens.

Received
OCT 05 2026
OWRD

Received
SEP 21 2026
OWRD

☒ Excavation or clearing of banks will be kept to a minimum to protect riparian or streamside areas.
Note: If disturbed area is more than one acre, applicant should contact the Department of Environmental Quality to determine if a 1200C permit is required.
Describe planned actions and additional permits required for project implementation:

Existing system, no construction in riparian or streamside areas

Received
SEP 21 2026
OWRD

☒ Operating equipment in a water body will be managed and timed to prevent damage to aquatic life.
Describe planned actions and additional permits required for project implementation:

No equipment will be required to develop this permit

Received
OCT 05 2026
OWRD

☒ Water quality will be protected by preventing erosion and run-off of waste or chemical products.
Describe planned actions:

Existing system, no construction or potential waste run-off will be required to complete permit development.

☒ Other state and federal permits or contracts required and to be obtained, if a water right permit is granted.
List:

NA

SECTION 8: PROJECT SCHEDULE

a) Date construction will begin: 1/2027

b) Date construction will be completed: 12/2027

c) Date beneficial water use will begin: 5/2027

Please note, the above items (a)-(c) must be provided for an application to be accepted. It is understood that these proposed dates may be approximate (i.e., month-year).

SECTION 9: WITHIN A DISTRICT

☐ Check here if the point of diversion or place of use are located within or are served by an irrigation or other water district.

Irrigation District Name		Mailing Address
City	State	Zip

SECTION 10: REMARKS

Use this space to clarify any information you have provided in the application. (*attach additional sheets if necessary)*

This application is for Coos County Parks Lavern County Park. Lavern County Park consists of the main park "Lavern Park" and "West Lavern Park". The drinking water system of Lavarn Park is operated year-round while West Lavern Park's system is operated May 1st - September 30th.

A. Land and Location

Please include the following information for all tax lots where water will be diverted (taken from its source), conveyed (transported), and/or used or developed. Applicants for municipal use, or irrigation uses within irrigation districts, may substitute existing and proposed service-area boundaries for the tax-lot information requested below.

Township	Range	Section	¼ ¼	Tax Lot #	Plan Designation (e.g., Rural Residential/RR-5)	Water to be:	Proposed Land Use:
27S	11W	5		100	REC	☒ Diverted ☒ Conveyed ☒ Used	Campground
27S	11W	5		101	REC	☐ Diverted ☒ Conveyed ☒ Used	Campground
27S	11W	4		401	REC	☒ Diverted ☒ Conveyed ☐ Used	Campground
						☐ Diverted ☐ Conveyed ☐ Used	
						☐ Diverted ☐ Conveyed ☐ Used	
						☐ Diverted ☐ Conveyed ☐ Used	

List all counties and cities where water is proposed to be diverted, conveyed, and/or used or developed:

Coos County

NOTE: A separate Land Use Information Form must be completed and submitted for each county and city, as applicable.

B. Description of Proposed Use

Type of application to be filed with the Oregon Water Resources Department:

☒ Permit to Use or Store Water ☐ Water Right Transfer ☐ Permit Amendment or Ground Water Registration Modification
☐ Limited Water Use License ☐ Exchange of Water ☐ Allocation of Conserved Water

Source of water: ☐ Reservoir/Pond ☐ Ground Water ☒ Surface Water (name) North Fork Coquille River

Estimated quantity of water needed: 0.02 ☒ cubic feet per second ☐ gallons per minute ☐ acre-feet

Intended use of water: ☐ Irrigation ☐ Commercial ☐ Industrial ☐ Domestic for _____ household(s)
☐ Municipal ☐ Quasi-Municipal ☐ Instream ☒ Other Campground

Briefly describe:

Water right application for domestic water supply for Lavern County Campground

See Page 4 →

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

☒ Land uses to be served by the proposed water use(s), including proposed construction, are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): 5.6.100

☐ Land uses to be served by the proposed water use(s), including proposed construction, involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being Pursued."**

Type of Land-Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:
This approval of the campgound is considered non conforming and this use is permitted outright.	SECTION 5.6.100	☒ Obtained ☐ Being Pursued ☐ Denied ☐ Not Being Pursued
		☐ Obtained ☐ Being Pursued ☐ Denied ☐ Not Being Pursued
		☐ Obtained ☐ Being Pursued ☐ Denied ☐ Not Being Pursued
		☐ Obtained ☐ Being Pursued ☐ Denied ☐ Not Being Pursued

Local governments are invited to express special land use concerns or make recommendations to the Oregon Water Resources Department regarding this proposed use of water in the box below or on a separate sheet.

this is permitted outright and does not requre further land use applications or review.

General Information on Processing of Water-Use Permit Applications

Before Applying: If you are considering applying for a *Permit to Use Surface Water*, it is recommended that you review the *Surface Water Guidebook* (www.oregon.gov/owrd/WRDFormsPDF/surfacewaterbook.pdf) and *Water Rights in Oregon* (www.oregon.gov/owrd/WRDPublications1/aquabook.pdf). Please also review the list of restricted sources available on the Department's website (www.oregon.gov/owrd/programs/WaterRights/Permits/Pages/Obtain.aspx). If the Department receives an application for a restricted source identified on this list, the application will be returned along with all or a portion of the fees that were submitted. Please contact the Customer Service Group at 503-986-0900 or wrd_dl_customerservice@water.oregon.gov with any questions.

Application Submission: Applications must be submitted using the currently available application forms, which can be found here: www.oregon.gov/owrd/programs/WaterRights/Permits/Pages/Obtain.aspx. These forms contain a checklist of required items that must be submitted for an application to be considered complete. Effective April 1, 2026, a portion of the application exam fee is required to be paid when the application is submitted. The remaining portion of the exam fee and the permit recording fee must be paid after the applicant receives the Initial Review (below) if the applicant would like the Department to continue processing the application. Please use the Department's Fee Calculators to determine the fees required for an application (apps.wrd.state.or.us/apps/misc/wrd_fee_calculator/).

Applications submitted to the Department will be screened to identify if the proposed use is restricted under ORS 536.415. A list of sources subject to these restrictions is available online, as described in the "Before Applying" section above. For applications received on or after April 1, 2026, the Department will return the application, and all or a portion of the fees, if the source of water is subject to listed restrictions. If the Department finds the application to be complete and not subject to restricted sources, the application will receive a tentative priority date, an application number, and a Water Rights Caseworker will be assigned.

Initial Review: The Department reviews the application to determine whether water is available during the period of use requested, whether the proposed use is restricted or limited by rule or statute, and whether other issues may preclude approval of or restrict the proposed use. An Initial Review (IR) containing the Department's preliminary determinations is sent to the applicant electronically by email unless requested otherwise or an applicant email address is not available. Following issuance of the IR, the applicant has 90 days to notify the Department if they would like to continue processing the application and to pay any remaining fees due. If written notification to continue processing and payment of any remaining fees is not received by the due date described in the Initial Review, the Department will close the application file and take no further action on the application.

Public Notice and Comment Period: If the applicant notifies the Department to continue processing the application and any remaining fees due are received, the application will be put on the Department's weekly public notice. This opens a 30-day public comment period. If the IR determined the application will have an impact on surface water flows where sensitive, threatened, or endangered (STE) fish species may be present, the application will be reviewed by the Oregon Department of Fish and Wildlife and the Oregon Department of Environmental Quality.

Proposed Final Order: The Department will review any comments received, including comments from other state agencies, and issue a Proposed Final Order (PFO) explaining the proposed decision to deny or approve the application. A PFO proposing approval of an application will include a draft permit. The PFO will be put on the Department's weekly public notice, and a 45-day period within which any protests of the PFO must be received by the Department will begin. Information describing protest requirements and fees is provided within the PFO.

Decision Becomes Final: Unless a timely protest is received or the PFO is withdrawn for further consideration by the Department, the PFO shall become a final order on the date that is 33 days after the close of the time period for submitting a protest with no further action required by the Department. If the application is approved, a permit will be issued. The permit will specify the details of the authorized use and any terms, limitations, or conditions that the Department deems appropriate.

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

☒ Land uses to be served by the proposed water use(s), including proposed construction, are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): 5.6.100

☐ Land uses to be served by the proposed water use(s), including proposed construction, involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being Pursued."**

Type of Land-Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:
This approval of the campgound is considered non conforming and this use is permitted outright.	SECTION 5.6.100	☒ Obtained ☐ Being Pursued ☐ Denied ☐ Not Being Pursued
		☐ Obtained ☐ Being Pursued ☐ Denied ☐ Not Being Pursued
		☐ Obtained ☐ Being Pursued ☐ Denied ☐ Not Being Pursued
		☐ Obtained ☐ Being Pursued ☐ Denied ☐ Not Being Pursued

Local governments are invited to express special land use concerns or make recommendations to the Oregon Water Resources Department regarding this proposed use of water in the box below or on a separate sheet.

this is permitted outright and does not requre further land use applications or review.

OREGON WATER RESOURCES DEPARTMENT

Application #: _____

Application Supplement for Human Consumption & Livestock Uses

For water use permit applications within or above scenic waterways, or from streams for which water is not available due to required instream flows, the Department may issue limited permits for human consumption and livestock uses. Human consumption use is limited to 500 gallons per day for indoor use only for drinking, cooking, and sanitation, and does not include other uses such as lawn or garden watering or other related water uses.

In order to issue a permit to you for human consumption or livestock use, the Department must find that you cannot reasonably obtain water from any other source. For human consumption, an additional finding must be made that denial of the water right would result in loss of reasonable expectations for use of your property. For livestock use, additional findings must be made that issuance of a permit is necessary to prevent the livestock from watering in or along the stream bed and that you have excluded livestock from the stream and the adjacent riparian zone.

Please answer the following questions, and sign and return this form to Oregon Water Resources Department, 725 Summer St NE Ste A, Salem OR 97301-1266. You may also email the signed form to your caseworker.

1. Can you reasonably obtain water from any other source? YES ☐ NO ■

If not, please describe why each of the following options are not reasonable:

a. Groundwater, such as a well on yours or a neighbor=s property. (If expense is the reason groundwater is not reasonable, please provide two estimates of the cost.)

Local groundwater supply makes groundwater an unfeasible supply.

b. Securing stored water from upstream reservoirs.

No reservoirs up stream.

c. Trucking water. (If expense is the reason this option is not reasonable, please provide a copy of an estimate of the cost of trucking water.)

Please see water trucking cost estimate after this form

d. Community or municipal water suppliers.

No community or municipal water supplies in the vicinity

e. Tying in to a neighboring property's spring.

Most neighbors use the North Fork Coquille River as their supply.

g. Transferring existing water rights to your proposed use(s).

No existing water rights in the area are available for transfer.

Please identify any other alternate water sources you have considered, and why they are not feasible:

No other alternate water sources have been found to be feasible

2. If you are seeking a permit for **human consumption use**, would denial of your application result in loss of reasonable expectations for use of your property?
YES ■ NO ☐ NOT APPLICABLE ☐

If so, please describe how:

A water supply is critical to a campground.

3. If you are seeking a permit for **livestock use**, is the proposed use necessary to prevent the livestock from watering in or along the stream bed?
YES ☐ NO ☐ NOT APPLICABLE ■

4. If you are seeking a permit for **livestock use**, have you excluded livestock from the stream and the adjacent riparian zone?
YES ☐ NO ☐ NOT APPLICABLE ■

Subject: Water Delivery Price

This Message originated outside your organization.

In response to your inquiry of 6/25/26 our current estimate for a 1500 gallon water delivery to 61217 Fairview Road, Coquille would be $237.00. Prices are subject to change.

Thanks for your interest.

Application for a Permit to Use

Surface Water

Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, Oregon 97301-1266
503-986-0900
www.oregon.gov/OWRD

IMPORTANT NOTICES: Before you prepare your application, please read the below notices. Please also refer to the Surface Water Guidebook (www.oregon.gov/owrd/WRDFormsPDF/surfacewaterbook.pdf).

Application Form Updates:

Chapters 282 and 575, Oregon Laws 2025, amended statutes governing water right permit application processing. In addition, the Water Resources Commission adopted amended rules on March 19, 2026. As a result, this application form has been updated and is required to be used for any application received on or after April 1, 2026. Please note, modification of this form is not permitted. If a section does not contain the necessary space or response options for your situation, please provide your information in "Section 10: Remarks" or on additional pages.

Applications Restricted under ORS 536.415 will be Returned:

For applications received on or after April 1, 2026, the Department will return the application, and all or a portion of the fees, if the source of water is withdrawn from appropriation under ORS 538 or by rule or order of the Water Resources Commission under ORS 536.410.

The Department will conduct this review at intake and based upon the information provided when the application is received. **IMPORTANT:** The Department has published a list of sources subject to the above restrictions. You are strongly encouraged to review this list carefully before submitting your application. The list can be found here: www.oregon.gov/owrd/programs/WaterRights/Permits/Pages/Obtain.aspx

Fee Submission Updates:

For applications received on or after April 1, 2026, partial payment (equaling 60 percent of the examination fee) is due at application submission, and the remaining portion (equaling 40 percent of the examination fee and the permit recording fee) is due following issuance of the Initial Review if the applicant notifies the Department to continue processing the application (see below). Please use the Department's online Fee Calculator (apps.wrd.state.or.us/apps/misc/wrd_fee_calculator/) to determine the fees for your application.

Processing Updates:

Response required following Initial Review—Following issuance of the Initial Review (IR), if an applicant would like the Department to continue processing the application to reach a final decision, the applicant must notify the Department in writing within 90 days of IR issuance AND pay any remaining fees due.

Proposed Final Order will become a Final Order under certain circumstances—If the Department does not receive a timely protest of a Proposed Final Order (PFO) and does not withdraw the PFO, the PFO will become a Final Order 33 days after the close of the period of time in which to file a protest.

Electronic Forms of Documents:

Beginning on April 1, 2026, and unless requested otherwise by the applicant, the Department will send documents and notifications associated with processing of applications in electronic form (i.e., by email). These emails may come from an automated system (wrd_automated_email@water.oregon.gov). Consider adding this email address to your safe sender list. The Department will send Proposed Final Orders by certified mail and any permit that may be issued by standard mail.
