RE: Application for Extension of Time for Water Right Permit G-9972, Avion Water Company, Inc.

Dear Mr. Pierceall:

Avion Water Company, Inc. (Avion) is requesting an extension of time for Permit G-9972. Avion is requesting that the time in which to complete construction and apply water to full beneficial use under the permit be extended from October 1, 2024 to October 1, 2036.

Enclosed is an Application for Extension of Time for a Water Right Permit and the accompanying processing fee of $1,170.

Please contact me if you have any questions or concerns. My phone number is 971-200-8545.

Criteria for a Permit Extension of Time

The Department can accept requests for an extension of time on permits to (1) complete construction, and/or to (2) apply water to beneficial use.

In order to approve a permit extension request the Department must be able to find:

1) **Construction has begun:**

   A. **For Groundwater Permits**
   Construction of the well(s), *authorized by the permit*, began within 5 years of the date the permit was issued or by the actual construction date specified in the permit.

   B. **For Surface Water or Reservoir Permits**
   Construction of the water system began within 5 years of the date the permit was issued or by the actual construction date specified in the permit.

The Department will also confirm that:

2) If required, a fish screen, fish passage or fish by-pass device was installed before or prior to diversion of any water. An exception to the need to confirm installation prior to diversion of any water would be a waiver submitted to the Department from ODFW stating that a fish screen, fish passage or fish by-pass device was not required, provided your permit allows for a waiver.

If you have questions, please call the Department at (503)-986-0900 and ask to speak with a permit extension specialist.

As shown in Charts B, C, and D above, Avion has developed the infrastructure capacity to serve the Wild River development. Permit G-9972 originally authorized service to 188 tax lots (or "families"). 13 tax lots were consolidated with other lots, leaving 175 lots to be developed. Avion can serve and meter water to all these tax lots, but only 130 lots have been developed. Thus, there are 45 remaining lots that Avion stands ready to serve by 2036 (see Attachment D for a list and map of developed/undeveloped lots). Avion also plans to upgrade the well pumps and other infrastructure to withdraw the full rate authorized under Permit G-9972. Finally, Avion will submit a permit amendment application to include the replacement Well 1 as an authorized point of appropriation authorized under Permit G-9972. The cost for the pump and related infrastructure upgrades as well as the permit amendment application is estimated to cost $85,000 in total, as shown in Chart E.**

13. Justify the time requested to complete the project and/or apply the water to full beneficial use. *(Include any other information or evidence to establish that the requested amount of time is sufficient and that you will be able to complete the project within the amount of time requested.)*

Avion is requesting an extension until 2036 to allow time to apply fully develop the permit – apply water to 175 of the "families" (buildable lots) as authorized under the permit. This effort will require beneficially using water at the 45 undeveloped lots for Group Domestic Use. The full buildout of the Wild River development has slowed and is out of the control of Avion, as described below. Additionally, Avion is requesting the extension to upgrade the aging well pumps and add the replacement Well 1 as a point of appropriation authorized under Permit

G-9972 to appropriate the full permitted rate of 0.57 cfs. The full authorized rate is necessary for Avion to serve the residents of the Wild River development.

[OAR 690-315--0020(3)(l)

14a. Will a denial of the extension result in undue hardship? *(Describe the hardship and the effects.)* Yes, the denial of the extension will result in undue hardship. Without the extension, Avion is unable to fully develop/perfect Permit G-9972 by the current "C date" of October 1, 2024. Avion is the sole water provider for the Wild River development and has invested considerable capital in acquiring and improving the potable water system for residents of Wild River.

14b. Are there any other reasonable alternatives that exist for meeting your water use needs? *(Explain in detail, consider other potential sources of water, and describe their feasibility)* No.

[OAR 690-315-0020(3)(h)

15. Was the delay in the timely completion of this water development project and/or timely application of water to full beneficial use caused by any additional government requirements, other than the conditions contained within the permit, which significantly delayed the completion and perfection of this right? *(Explain in detail, including how much time did this delay the project; list dates.)* No.

[OAR 690-315-0020(3)(h)

16. Describe any unforeseen events which contributed to the delay of completion of this project that you had no control over. *(Explain in detail what the unforeseen events were (i.e. health issues, natural disaster) and how much time was spent addressing the unforeseen events. Delays caused by business decisions are not considered unforeseen events)* Construction of houses within the Wild River development has slowed considerably over the past 40-plus years since the formation of the housing development and water system. The pace of development in the Wild River subdivision has been slower than anticipated since the previous extension was approved in 2009 due to the lingering effects of the housing recession on construction labor, costs, and development timelines.

[OAR 690-315-0020(3)(h)]

17. Describe an additional reasons why the construction was not completed, and/or water was not beneficially used within permit time limits. *(Provide supporting information for the reason(s) that best fits your circumstances.)*

As described above, Avion has been planning and constructing improvements to the water system within Wild River. Unfortunately, the development of the final 45 lots in the authorized place of use is not under Avion's control. Additionally, Avion intends to upgrade the well pumps to use the full rate authorized under Permit G-9972. Finally, Avion will file a permit amendment application to include the Well #1 replacement as an authorized point of appropriation. To complete development of the permit, Avion requires additional time to install upgrades and beneficially use water authorized under Permit G-9972 at all 175 domestic lots within the place of use.

18. Provide any other information you wish OWRD to consider while evaluating your Application for Extension of Time.
N/A

[OAR 690-315-0040(2)(f)]

19. Will the income or use of the water project provide a fair and reasonable return on your investment? *(Explain in detail)* Yes. Avion is a fully rate-regulated utility. Water rates are set by the Oregon Public Utility Commission to allow Avion to recover its operating costs and an opportunity to earn a rate of return on its net invested capital. Avion uses revenue from utility bills to continue to develop and improve its water systems throughout Central Oregon.

[OAR 690-315-0040(4)(d)]

20. Describe in detail if there are other economic interest, beyond those of the permit holder, which are dependent upon the completion of this project. *(Who will be affected and how?)* The owners of the 45 undeveloped tax lots have an economic interest in being included in the authorized place of use of Permit G-9972. Residents with undeveloped lots would be required to construct their own wells under exempt use provisions at great expense, rather than simply connecting to Avion's existing water system. This will devalue existing undeveloped lots not able to be included in a Claim of Beneficial Use. Likewise, such users will not be customers of Avion's water system, so the annual cost of system operation and maintenance will be spread over a small customer base, proportionally increasing costs for all users currently served by the system.
