

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Clarifying the Description)	PROPOSED FINAL ORDER	
of the Place of Use for Certificate 13014,)		CLARIFYING THE PLACE OF USE
Umatilla County)		FOR WATER RIGHT CERTIFICATE
)		13014

Authority

ORS 540.560 establishes the process in which a water right description may be changed if the Water Resources Commission considers that a certificate of water right does not identify the lands to which the right is appurtenant with sufficient specificity for management, delivery or transfer of that right, the commission may issue an order clarifying and refining the description of the land to which the water right is appurtenant.

Findings of Fact

Background

1. On May 16, 1932, the Circuit Court of the State of Oregon for Umatilla County, Oregon completed the determination of the relative rights to the use of the waters of the Walla Walla River and its tributaries, a tributary of the Columbia River, in Umatilla County and issued the Walla Walla River Decree. The decree is entered in the order record of the Water Resources Department in Volume 12, Page 9.

2. The water right record reflects the following:

Certificate: 13014 in the name of WM. NICHOLS (confirmed by Walla Walla River decree)

Use: IRRIGATION of 16.28 ACRES

Priority Dates: 1868, 1898 and 1906

Rate: One and one-half miner's inches per acre

Source: WALLA WALLA RIVER, tributary to COLUMBIA RIVER

Authorized Point of Diversion:

Not listed on certificate

Copies of this order will be served upon the legal owner of the land to which the water right is appurtenant and on the occupant of the land by certified mail, return receipt requested. If the owner or occupant files a written request for a hearing within 30 days after service of the order, the commission shall conduct a hearing of the matter under ORS 183.413 to 183.484.

Authorized Place of Use:

IRRIGATION							
Twp	Rng	Mer	Sec	Q-Q	Tract #	Priority	Acres
5 N	35 E	WM	12	SW SE	1	1868	0.34
5 N	35 E	WM	12	SE SE	1	1868	3.10
5 N	35 E	WM	13	NE NE	1	1868	5.35
5 N	35 E	WM	13	NE NE	2	1898	2.49
5 N	35 E	WM	13	NE NE	3	1906	5.00
Total acres							16.28

3. The decree map depicting the place of use described by water right Certificate 13014 is of poor quality. Surveying and mapping done as a part of the Finis Decree, issued by the Circuit Court of Umatilla County in 1910, was used to resolve a dispute regarding the relative rights to use the Walla Walla and Little Walla Walla Rivers. The Finis Decree map was used in drafting the water right map for Certificate 13014 and described the place of use in relation to Township, Range, Section and Quarter-Quarter lines.
4. The lands with the water right confirmed by Certificate 13014 are now owned by several different persons and a question has arisen regarding the location of the acres and the priority dates associated with those acres.
5. The Walla Walla Irrigation District has ceased to use and maintain the Milton Ditch point of diversion and delivery system.
6. Substantial research of the decree records and ownership records has been completed by the Watermaster to determine conclusively the location of the acres, priority dates and ownership associated with the appurtenant water right.
7. The original survey used to locate the right evidenced by Certificate 13041 established the place of use. This information was verified by court decree.
8. A new map, drafted in 2004 by the Watermaster and Brent Stevenson, Manager of the Little Walla Walla Irrigation District, shows the right corresponded in shape and size to that of the previous surveys, but in slightly different locations than the authorized places of use. The actual location of the places of use as they are found on the ground remains the same. The only material difference is the manner in which they have been referenced to the public land survey. The total acreage remains the same.
9. Both the original survey and the 2004 mapping are true and accurate and both describe the water right evidenced by Certificate 13014.
10. On May 26, 2004, the owners of the lands or their representatives were given an opportunity to meet with the Watermaster in Milton-Freewater. Those in attendance were briefed regarding the information currently available. Those in attendance were asked to provide any information that may assist in clarifying the record. No information has been provided.
11. On December 20, 2004, a letter outlining the issue, a copy of Certificate 13014 and a water right map developed by the Watermaster and Brent Stevenson, Manager of the Little Walla

Walla Irrigation District, were sent to the owners of the affected properties. The land owners were asked to respond with any comments by January 14, 2005. To date, there have been no comments received.

12. On December 23, 2004, the Wastermaster met with James Goodenough, a new land owner since the May 2004 meeting, to answer his questions and explain the water right issues.
13. In accordance with ORS 540.560, the clarified location of the water right and associated priority dates are as follows:

Clarified Place of Use:

Conclusions of Law

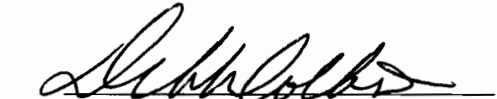

The clarification to the place of use of Certificate 13014 is consistent with ORS 540.560.

Now, therefore, it is ORDERED:

1. The clarification of the place of use of Certificate 13014, as listed in Finding of Fact #13 provides an accurate and clarified accounting of the place of use of the certificate.
2. This order shall become an addendum to and shall be filed with water right Certificate 13014.
3. This addendum shall constitute the description of the land to which the water right is appurtenant.

4. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 13014 and any related decree.
5. The issuance of this final order does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

Dated at Salem, Oregon this 20 day of December, 2007.

for Phillip C. Ward, Director

Owners or occupants may file a written request for a hearing within 30 days after the service of the proposed order. Written requests should be addressed to the attention of Field Services Division, Water Resources Department, 725 Summer St. NE, Suite A, Salem, OR 97301-1266.
