I. Request for an Exception to the Willamette Basin Program by Greenberry Irrigation District (S-87035) pursuant to ORS 536.295.

Dwight French, Water Rights and Adjudication Division, Administrator, briefed the Commission on a request for an exception to the Willamette Basin Program by Greenberry Irrigation District (GID).

GID applied for a permit to divert 50 cubic feet per second for supplemental irrigation on 7,373 acres. The area to be irrigated is generally located on the south end of Corvallis near the airport.

Use of live flow from the Willamette River for irrigation or supplemental irrigation is not a classified use. When developing the Willamette Basin Plan, the Commission did not allow irrigation from live flow in this section of the Willamette River because stored water, in the name of Bureau of Reclamation (BOR), totaling more than one million acre-feet was available for contract for irrigation purposes. The stored water remains available in various Willamette Project reservoirs to meet irrigation needs. However, the BOR is not issuing long term contracts for the use of the stored water.

GID has two applications pending (Files S-84426 and S-87034) that propose to use stored water from Willamette Project reservoirs for irrigation of the same acreage as requested under the application. Permits to use stored water will be issued after an executed contract with the Bureau of Reclamation has been received by the Department. The use of stored water for irrigation is allowable under the Willamette Basin Program.

In February of 2003, the Commission approved an exception for GID that led to the Department's issuing a permit for live flow irrigation for up to seven years while the district pursued a contract for stored water. That permit, S-54059 will expire no later than April of 2011.

To grant an exception to a basin program under ORS 536.295, the Commission must find that the request meets at least one of the statutory criteria and that the proposed use is consistent with the general policies of the applicable basin program. GID has demonstrated that there will be extreme hardship. In addition, there will be some watershed improvement to naturally occurring water bodies within the district. Obtaining a backup water supply will allow GID to build the infrastructure for three separate projects that would provide additional watershed improvement. The request is consistent with the general policies of the Willamette Basin Program.

Ron Eggers, Bureau of Reclamation, spoke in support of the GID request.

Dan O'Brien, Greenberry Irrigation District, was available for questions from the Commission. Kimberley Priestley, WaterWatch of Oregon, expressed concerns with regards to going forward with an exception at this point in time.

13

Commissioner Smith moved to approve the request by Greenberry Irrigation District for a basin program exception due to extreme hardship and watershed improvement; recognizing that a permit, if ultimately issued, may be conditioned to address public interest concerns; seconded by Commissioner Barlow. Voting for the motion: Commissioners Smith, Thorndike, Jackson, Meloy, Barlow, and Rasmussen. Voting against the motion: None.

Mailing List for IR Copies

Application #S-87035

IR Date: May 16, 2008

Subject: RE: Initial Review, Greenberry Irrigation Dist. App: S-87035

I have made edits to the IR regarding the following:

1. I adjusted the basin plan exception language.
2. I removed the comment regarding the Long Tom River - On the application map it appears that one POD is on the Long Tom but the POD is actually located on a back channel of the Willamette River.
3. I removed the comment regarding an extra \$200 due because the applicant has put the check in the mail.

I'm ready for it to proceed as soon as the fees are received (they should come by tomorrow). I also think a separate cover letter might be a good idea since the map will address issues for two other applications that are pending. A cover letter could make this clear as well as ask for any additional information that might be needed regarding the other two applications. Maybe a status description is a good idea in the cover letter too.

I saved the edited document as:
