C. Application/Distribution Method

What equipment will you use to apply water to your place of use? see below

Irrigation or land application method (check all that apply):

- Flood
- High-pressure sprinkler
- Low pressure sprinkler
- Drip
- Water cannons
- Center pivot system
- Hand lines
- Wheel lines
- Siphon tubes or gated pipe with furrows
- Other, describe _____

Distribution method

- Direct pipe from source
- In-line storage (tank or pond)
- Open canal

D. Conservation

What methods will you use to conserve water? Why did you choose this distribution or application method? For example, if you are using sprinkler irrigation rather than drip irrigation, explain. If you need additional space, attach a separate sheet.

I will use a low pressure center pivot on 24 acres primary irrigation. The center pivot will have drop tubes to save on evaporation. The balance of acreage proposed will be irrigated by using the existing ditch thru the property and taking advantage of subirrigation.

6. PROJECT SCHEDULE

Indicate the anticipated dates that the following construction tasks should begin. If construction has already begun, or is completed, please indicate that date.

Proposed date construction will begin: 3/1/08

Proposed date construction will be completed: 5/1/08

Proposed date beneficial water use will begin: 5/1/08

7. REMARKS

If you would like to clarify any information you have provided in the application, please do so here and reference the specific application question you are addressing.

This application for water rights is a follow through for a water right application G-6178 dated December 27, 1974 by Erving T. Stanbro, the prior owner of this property. He had these wells drilled and cased and we later found out that the permit was completed, but the money to accompany this permit was not sent in to complete the process, therefore Mr. Stanbro's permit was cancelled. The well logs were completed at this time. Included in our permit filing, we are filing for the supplemental rights that Mr. Stanbro had filed for and we are also filing for primary rights on additional property that we have since purchased. This property is adjacent to where the existing rights are located. We have now drilled a 3rd well to add to this application.
