

# BEFORE THE STATE ENGINEER OF OREGON

Grant y      Count

In the Matter of the Determination of the Relative Rights  
to the Waters of JOHN DAY RIVER and its Tributaries,  
a Tributary of Columbia River.

STATEMENT AND PROOF OF CLAIM

#4.

(The claimant must submit separate proof as to each ditch through which a water right is claimed.)

I, the undersigned, of Burns, Oregon, being called as a witness  
in support of this statement of claim, and being first duly sworn, testify as follows:

1. Q.—What is claimant's name and postoffice address? If a corporation, give the place of  
incorporation and the authority by which you make this proof.

A.— O. M. Corwin, of Minneapolis, Minnesota.

(If this proof is made by you as agent, or attorney, the written

by C. B. McDonnell - Agt.

authorization therefor must be signed by the claimant upon the back hereof.)

2. Q.—Do you claim a right to the waters of the above named stream or a tributary thereof?  
If from a tributary, give its name.

A.— East fork of Canyon Creek, tributary of Canyon Creek, and Canyon Creek,  
tributary of John Day River.

3. Q.—What is the nature of the right or use on which this claim to the waters of said  
stream is based?

A.— Irrigation.

(Irrigation, power, mining, domestic, stock, etc.)

4. Q.—How was such right initiated, or upon what is it based?

A.— by appropriation, diversion and use and by sub-irrigation.

(Appropriation, diversion and use, etc.)

5. Q.—State the date of the initiation of such water right. A.— 1892

6. Q.—What steps were taken by this claimant or his predecessor in interest to initiate said  
right? Answer fully, attaching separate sheet if necessary.

A.— By fencing the land, pasturing the land, carring hay off the land,  
and by reaping the benefits from the naturally overflowed and sub-irrigated land,  
and by constructing dams and ditches and appropriating and using the water.

7. Q.—When was water first used for irrigation, or other beneficial purposes?

A.— 1892

8. Q.—State the means of utilizing such water, giving the name by which the ditch is most  
commonly known, if a ditch is used.

A.— by means of sub-irrigation, overflow, and by constructing dams and  
ditches known as the Dore ditches.

9. Q.—State the interest claimant has in such ditch, with the names of any other water users  
interested therein.

A.— owner

Sec. \_\_\_\_\_  
 Tp. \_\_\_\_\_  
 R. \_\_\_\_\_

19. Q.—State the character of the soil and kind of crops cultivated.

A. Alfalfa, grain, timothy, clover, garden crops, etc.

Sandy loam with gravelly subsoil.

20. Q.—When does the irrigating season begin and when does it end, and if water is used for other purposes, during what months is it used?

A. — March 1st to September 30th.

21. Q.—What amount of water do you estimate is necessary for the proper irrigation of the lands which you are irrigating or propose to irrigate, or for any other purpose for which a right is claimed?

A. — 4 acre feet per acre delivered on the land.

22. Q.—Do you accept the maps prepared by the State Engineer as showing correctly the location of said ditch and the lands irrigated therefrom?

NOTE—In case there is objection to the official plat or a part thereof the parties objecting must, when giving proof, file a written statement of the reasons therefor, and must, within thirty days, file with the State Engineer a map covering the part objected to, with affidavit of surveyor thereto giving date of survey. Such map should be on tracing linen preferably on a scale of four inches to the mile (20 chains to one inch), and should have marked thereon, within each 40-acre legal subdivision, the area of land which is irrigated. Such map should correspond in size to legal cap paper so as to be easily filed with the claim.

A. — Yes, except that all the irrigated land is now shown. See map attached.

23. Q.—If water is used for power, state the total fall utilized and the theoretical (not actual) horsepower developed.

NOTE—Theoretical horsepower equals total quantity claimed in cubic feet per second, times fall in feet, divided by 8.8 (one cubic foot per second falling 8.8 feet equals one theoretical horsepower).

A. —

24. Q.—Describe the nature of the works by which the power is developed, the place where located, and state whether the water is returned to the stream after use and at what point.

A. —

25. Q.—If for mining purposes, describe the location and character of the mines to be served and state whether after use the water is returned to the stream and at what point.

A. —

26. Q.—If water is used for mining or power purposes, state whether there are any diversions between the point of your diversion and the return of such water to the stream.

A. —

27. Q.—Give description of your land as it appears in your deed. (Attach separate sheet if necessary.)

A. — W $\frac{1}{2}$  NW $\frac{1}{4}$ , SE $\frac{1}{4}$  NW $\frac{1}{4}$ , and NE $\frac{1}{4}$  SW $\frac{1}{4}$  Sec. 29 T. 15 S. R. 32 E., and other land adjoining.

28. Q.—What interest have you in the lands irrigated or place where the water is used?

A. — owner

29. Q.—What additional evidence have you attached hereto or submitted herewith?

A. — map showing land irrigated.

(If the witness finds the space insufficient to properly answer any question, he should attach hereto said answer on a separate sheet or sheets. A corporation supplying water for irrigation to lands not its own should attach to its proof a complete list of the persons owning the lands so supplied with the correct description of the lands owned by each such person in each smallest legal subdivision. Certified copies of records and such evidence as the claimant may desire to submit should be attached to this proof and marked for identification as exhibit "A," "B," "C," etc.)

I hereby certify upon oath that the foregoing statement and answers are true as I verily believe.
