**RE: APPLICATION FOR A PERMIT TO USE GROUND WATER; GARY YOUNG,
BLUE MOUNTAIN RANCH, CROOK COUNTY, OREGON.**

Dear Water Rights Specialist,

Attached to this letter is an application for a permit to use ground water submitted by Gary Young, owner of Blue Mountain Ranch. Mr. Young is applying for a permit to use up to 6.25 cfs (2,805 gpm) from 2 wells. In addition to the complete application, you will find enclosed the following documents:

- A check for \$1500 for application fees;
- A completed Ground Water Permit Application;
- A permit application map;
- Attachment 1, Well Development Notes;
- Attachment 2, Remarks for Question 7 on Application;
- Well Logs for Area Wells;
- A completed Form I for irrigation use;
- A signed Land Use Information Form from Crook County; and
- A legal description of all property involved with this application.

In addition, the application includes supplemental hydrogeologic information as described below.

Hydrogeologic Conditions at the Proposed Point of Appropriation

Hydrogeologic conditions for the proposed point of appropriation (POA) and surrounding area were investigated by researching well logs within 2 miles of the POA, the USGS Water-Resources Investigations Report 84-4095, the Oregon Department of Geology and Mineral Industries website of Oregon Geologic Data Compilation, and the USGS Rabbit Valley, Paulina, and Maupin Butte topographic maps. The following information is from these sources.

1. The two nearest surface water bodies that are perennial, or containing water throughout the year, are Beaver and Paulina Creeks. The distances from the creeks to the proposed

points of appropriation are as follows: Paulina Cr. ~ 2.75 miles NE of Well 1; Beaver Cr. > 2.75 miles SE of Well 1; Paulina Cr. > 3.75 miles NE of Well 2; and Beaver Cr. > 2 miles SE of Well 2. (USGS Paulina topographic map)

2. Intermittent tributaries and drainage pathways that contain water for only part of the year are within ½ mile of the proposed points of appropriation. These tributaries lead to Merwin Reservoir No. 3, located more than 3 miles to the northwest and Watson Creek over 3 ½ miles to the northwest. A large area surrounding Merwin Reservoir is also shown as intermittent. (USGS Rabbit Valley topographic map)
3. The elevation of Paulina Creek at the closest point to the proposed points of appropriation is 3740 feet above sea level and the elevation of Beaver Creek at the closest point is 3660 feet above sea level. The elevation of the proposed points of appropriation are 3820 feet for Well 1 and 3860 feet for Well 2. (USGS Rabbit Valley, Paulina and Maupin Butte topographic maps)
4. The ground water source is within basalt. Elevation of ground water in basalts for this area ranges from approximately 3700 to 3800 feet above sea level or 100 to 200 feet below the surface. This static water level is based on well logs for the area, including logs for wells serving as points of appropriation for other ground water permits. The logs also indicate water bearing strata from 120 to 250 feet below ground surface.
5. Geology in the vicinity of the proposed well includes Neogene volcanic rocks, a narrow, north-south trending volcanic field, and Columbia River Basalts. The proposed wells are located in the area mapped as Columbia River Basalts and supported by well logs in the area.
6. The probable ground water source is from basalt aquifers as supported by information from well logs in the area and from the USGS Water-Resources Investigations Report 84-4095 indicating that the site area is underlain by a basalt aquifer system.

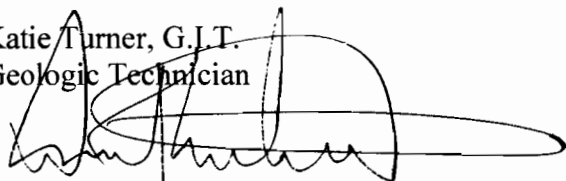

Please do not hesitate to contact us should you have any questions concerning this application at either (541) 504-9960 ext. 210 or kturner@newtonconsultants.com for Katie Turner or (541) 504-9960 ext. 211 or at dnewton@newtonconsultants.com for David J. Newton.

Sincerely,

NEWTON CONSULTANTS, INC.

Application for a Permit to Use Ground Water

Please type or print in dark ink. If your application is found to be incomplete or inaccurate, we will return it to you. If any requested information does not apply to your application, insert "n/a." Please read and refer to the instructions when completing your application. A summary of review criteria and procedures that are generally applicable to these applications is available at www.wrd.state.or.us/OWRD/PUBS/forms.shtml.

1. APPLICANT INFORMATION

A. Individuals

Applicant: Gary Young
First Last

Mailing address: Blue Mountain Ranch - P.O. Box 14
 Paulina Oregon 97751
City State Zip

Phone: 541-477-3144
Home Work Other

*Fax: 541-447-3848 *E-Mail address: gyoung@bluemtnranch.com

B. Organizations

(Corporations, associations, firms, partnerships, joint stock companies, cooperatives, public and municipal corporations)

Name of organization: Blue Mountain Ranch

Name and title of person applying: Gary Young

Mailing address of organization: _____

2. PROPERTY OWNERSHIP

Do you own all the land where you propose to divert, transport, and use water?

Yes (Please check appropriate box below then skip to section 3 ("Ground water Development"))

There are no encumbrances

This land is encumbered by easements, rights of way, roads or other encumbrances (please provide a copy of the recorded deed(s))

No (Please check the appropriate box below.)

I have a recorded easement or written authorization permitting access.

I do not currently have written authorization or easement permitting access.

Written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigated and/or domestic use only (ORS 274.040).

You must provide the legal description of: (1) the property from which the water is to be diverted, (2) any property crossed by the proposed ditch, canal or other work, and (3) any property on which the water is to be used as depicted on the map.

List the names and mailing addresses of all affected landowners.

N/A

3. GROUND WATER DEVELOPMENT

A. Well Information

Number of well(s): Two

Name of nearest surface water body: Beaver Creek to SE and Paulina Creek to NE

Distance from well(s) to nearest stream or lake: 1) Paulina Cr. ~2.75 miles NE of Well 1

2) Beaver Cr. >2.75 miles SE of Well 1 3) Paulina Cr. >3.75 miles NE of Well 2 4) Beaver Cr. >2 miles SE of Well 2

If distance from surface water is less than one mile, indicate elevation difference between nearest surface water and well head. 1) N/A

2) _____ 3) _____ 4) _____

B. Well Characteristics

Wells must be constructed according to standards set by the Department for the construction and maintenance of water wells. If the well is already constructed, please enclose a copy of the well constructor's log and the well ID number, if available, for each well with this application. Identify each well with a number corresponding to the wells designated on the map and proceed to section 4 of the form. If the well has not been constructed, or if you do not have a well log, please complete the following:

Well(s) will be constructed by: To be determined

Address: To be determined

RECEIVED

JUN 12 2008

Completion date: To be determined

Please provide a description of your well development. *(Attach additional sheets if needed.)*

Well No.	Diameter	Type and size of casing	No. of feet of casing	Intervals casing is perforated (in feet)	Seal depth	Est. depth to water	Est. depth to water bearing stratum	Type of access port or measuring device	Total well depth
1	20-22"	18" Casing, Steel	18-40'	40-60'	~20'	100-200'	150-250'	1.5" Capped Pipe	275-350'
2	20-22"	18" Casing, Steel	18-40'	40-60'	~20'	100-200'	150-250'	1.5" Capped Pipe	275-350'
			*1	*2	*3	*4	*5	*6	
	See Attachment 1, Well Development Notes								

Note: Well numbers in this listing must correspond to well locations(s) shown on accompanying map.

If well log is not available, or well is not yet constructed, you must provide: proposed total depth, depth of casing and seal, and the anticipated perforation and open intervals.

C. Artesian Flows

If your water well is flowing artesian, describe your water control and conservation works:

None anticipated based on well log reviews.

4. WATER USE

Please read the instruction booklet for more details on "type of use" definitions, how to express how much water you need and how to identify the water source you propose to use. You must fill out a supplemental form for some uses as they require specific information for that type of use.

A. Type(s) of Use(s)

See list of beneficial uses provided in the instructions.

- If your proposed use is **domestic**, indicate the number of households to be supplied with water: _____
- If your proposed use is **irrigation**, please attach **Form I**
- If your proposed use is **mining**, attach **Form R**
- If your proposed use is **municipal or quasi-municipal**, attach **Form M**
- If your proposed use is **commercial/industrial**, attach **Form Q**

RECEIVED

JUN 12 2008

WATER RESOURCES DEPT
SALEM, OREGON

B. Amount of Water

Provide the production rate in gallons per minute (gpm) and the total annual amount of water you need from each well, from each source or aquifer, for each use. You do not need to provide source information if you are submitting a well log with your application.

Well No.	Source or aquifer	Type of use	Total rate of water requested (in gpm)	Total annual quantity (in gallons)	Production rate of well (in gpm)
1	Basalt Aquifer	Irrigation	2,805	488,743,200*	1,402
2	Basalt Aquifer	Irrigation	2,805	488,743,200*	1,402
* Based on 3 ac-ft per acre.					

C. Maximum Rate of Use Requested

What is the maximum, instantaneous rate of water that will be used? 2,805 gpm (6.25 cfs)
(The fees for your application will be based on this amount.)

D. Period of Use

Indicate the time of year you propose to use the water: Apr. 1 - Sept. 30
(For seasonal uses like irrigation give dates when water use would begin and end, e.g. March 1–October 31.)

E. Acreage

If you will be applying water to land, please give the total number of acres where water will be applied or used: 500 Acres total
(This number should be consistent with your application map.)

5. WATER MANAGEMENT

A. Diversion

What equipment will you use to pump water from your well(s)?

- Pump (give horsepower and pump type): Estimated to be 150 hp each well; turbine pumps
- Other means (describe): _____

B. Transport

How will you transport water to your place of use?

- Ditch or canal (give average width and depth):
 Width _____ Depth _____
 Is the ditch or canal to be lined? Yes No
- Pipe (give diameter and total length):
 Diameter _____ Length _____
- Other (describe) The wells will be at the center of each pivot.

RECEIVED

JUN 12 2008

Ground Water/4

C. Application/Distribution Method

What equipment will you use to apply water to your place of use? The wells will be positioned at center of each pivot irrigation system. The power lines will be buried to supply the pump motors.

Irrigation or land application method (check all that apply):

- Flood
- High-pressure sprinkler
- Low pressure sprinkler
- Drip
- Water cannons
- Center pivot system
- Hand lines
- Wheel lines
- Siphon tubes or gated pipe with furrows
- Other, describe _____

Distribution method

- Direct pipe from source
- In-line storage (tank or pond)
- Open canal

D. Conservation

What methods will you use to conserve water? Why did you choose this distribution or application method? For example, if you are using sprinkler irrigation rather than drip irrigation, explain. If you need additional space, attach a separate sheet.

Sprinkler irrigation with low-flow nozzles and a pressurized system chosen for appropriateness for growing hay crops. The pivot is designed to minimize evaporative and wind losses.

6. PROJECT SCHEDULE

Indicate the anticipated dates that the following construction tasks should begin. If construction has already begun, or is completed, please indicate that date.

Proposed date construction will begin: May 2009

Proposed date construction will be completed: March 2010

Proposed date beneficial water use will begin: April 2010

7. REMARKS

If you would like to clarify any information you have provided in the application, please do so here and reference the specific application question you are addressing.

See Attachment 2, Remarks for Question 7 on Application

RECEIVED

JUN 12 2008

8. MAP REQUIREMENTS

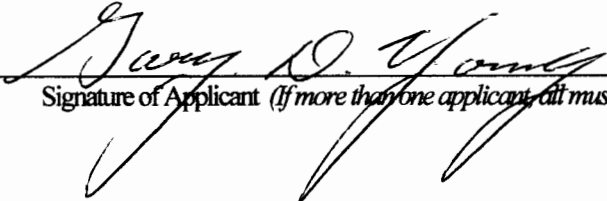

The Department cannot process your application without accurate information showing the source of water and location of water use. You must include a map with this application form that clearly indicates the township, range, section, and quarter/quarter section of the proposed well location and place of use. The map must provide tax lot numbers. See the map guidelines sheet for detailed map specifications.

9. SIGNATURE

By my signature below I confirm that I understand:

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application packet.
- I cannot legally use water until the Water Resources Department issues a permit to me.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be canceled.
- The water use must be compatible with local comprehensive land use plans.
- Even if the Department issues a permit to me, I may have to stop using water to allow senior water right holders to get water they are entitled to, and

I swear that all information provided in this application is true and correct to the best of my knowledge:

6/10/08

Signature of Applicant (If more than one applicant, all must sign.) Date

Before you submit your application be sure you have:

- Answered each question completely.
- Attached a legible map which includes township, range, section, quarter/quarter and tax lot number.
- Included a Land Use Information Form or receipt stub signed by a local official.
- Included the legal description of all the property involved with this application. You may supply a copy of the deed, land sales contract, or title insurance policy, to meet this requirement.
- Included a check payable to the Oregon Water Resources Department for the appropriate amount. The Department's fee schedule can be found at www.wrd.state.or.us or call (503) 986-0900.

FORM I FOR IRRIGATION WATER USE

1. Please indicate whether you are requesting a primary or supplemental irrigation water right.

Primary **Supplemental**

If supplemental, please indicate the number of acres that will be irrigated for each type of use.

Primary: 500 Acres

Secondary: _____ Acres

List the permit or certificate number of the primary water right: No. _____

2. Please list the anticipated crops you will grow and whether you will be irrigating them for a full or partial season:

- | | | |
|---------------------------------|---|--|
| 1. <u>Grass and alfalfa hay</u> | <input checked="" type="checkbox"/> Full season | <input type="checkbox"/> Partial season (from: _____ to _____) |
| 2. _____ | <input type="checkbox"/> Full season | <input type="checkbox"/> Partial season (from: _____ to _____) |
| 3. _____ | <input type="checkbox"/> Full season | <input type="checkbox"/> Partial season (from: _____ to _____) |
| 4. _____ | <input type="checkbox"/> Full season | <input type="checkbox"/> Partial season (from: _____ to _____) |

3. Indicate the maximum total number of acre-feet you expect to use in an irrigation season:

_____ 1500 _____ acre-feet

(1 acre-foot equals 12 inches of water spread over 1 acre, or 43,560 cubic feet, or 325,851 gallons.)

4. How will you schedule your applications of water? Will you be applying water in the evenings, twice a week, daily?

- | | |
|--|---|
| <input type="checkbox"/> Daily during daytime hours | <input type="checkbox"/> Daily during nighttime hours |
| <input checked="" type="checkbox"/> Two or three times weekly during daytime | <input type="checkbox"/> Two or three times weekly during nighttime |
| <input type="checkbox"/> Weekly, during daytime hours | <input type="checkbox"/> Weekly, during nighttime hours |
| <input type="checkbox"/> Other, explain: _____ | |

Remarks for Question 7 on Application

4. WATER USE, B. AMOUNT OF WATER

Information detailing well construction is based on well logs for wells within 2 miles of the proposed location. The well logs are attached for reference.

According to USGS Water-Resources Investigations Report 84-4095, aquifer units in the vicinity of the site are of 3 types: basin-fill alluvial, volcanic and sedimentary, and basalt. The basalt aquifer is mapped in the location of the proposed well location. Basalts are also indicated on the attached well logs, including logs for wells serving as points of appropriation under other ground water rights on nearby, neighboring properties, and supported by information obtained from the Oregon Department of Geology and Mineral Industries website of Oregon Geologic Data Compilation. According to the well logs, the water-bearing basalt strata is approximately 150 to 250 feet below ground surface.

Oregon Water Resources Department Land Use Information Form

THIS FORM IS NOT REQUIRED IF: 1) water is to be diverted, conveyed, and/or used only on federal lands; or 2) the application is for a water-right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and all of the following apply: a) only the place of use is proposed for change, b) there are no structural changes, c) the use of water is for irrigation, and d) the use is located in an irrigation district or exclusive farm-use zone.

Applicant Name: Gary Young, Blue Mountain Ranch
Mailing Address: P.O. Box 14
City: Paulina State: OR Zip: 97751 Day Phone: 541-447-3144

This application is related to a Measure 37 claim. Yes No

A. Land and Location

Please include the following information for all tax lots where water will be diverted (taken from its source), conveyed (transported), or used. Applicants for municipal use, or irrigation uses within irrigation districts may substitute existing and proposed service-area boundaries for the tax-lot information requested below.

Township	Range	Section	¼ ¼	Tax Lot #	Plan Designation (e.g. Rural Residential/RR-5)	Water to be:	Proposed Land Use:
See Attached Table						<input type="checkbox"/> Diverted <input type="checkbox"/> Conveyed <input type="checkbox"/> Used	
						<input type="checkbox"/> Diverted <input type="checkbox"/> Conveyed <input type="checkbox"/> Used	
						<input type="checkbox"/> Diverted <input type="checkbox"/> Conveyed <input type="checkbox"/> Used	
						<input type="checkbox"/> Diverted <input type="checkbox"/> Conveyed <input type="checkbox"/> Used	

List all counties and cities where water is proposed to be diverted, conveyed, or used. Crook County

B. Description of Proposed Use

Type of application to be filed with the Water Resources Department:

- Permit to Use or Store Water
- Allocation of Conserved Water
- Permit Amendment or Ground Water Registration Modification
- Water-Right Transfer
- Limited Water Use License
- Exchange of Water

Source of water: Reservoir/Pond Ground Water Surface Water (name) _____

Estimated quantity of water needed: 6.25 cubic feet per second gallons per minute acre-feet

Intended use of water: Irrigation Commercial Industrial Domestic for _____ household(s)
 Municipal Quasi-municipal Instream Other _____

Briefly describe: Constructing two wells to be used for irrigating 500 acres to grow grass and hay. See attached map for locations of irrigated areas and wells.

Note to applicant: If the Land Use Information Form cannot be completed while you wait, please have a local government representative sign the receipt below and include it with the application filed with the Water Resources Department.

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form.

This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

Land uses to be served by proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): CCC 18.16.010

Land uses to be served by proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.)

If approvals have been obtained but all appeal periods have not ended, check "Being pursued".

Type of Land-Use Approval Needed (e.g. plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:	
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being pursued <input type="checkbox"/> Not being pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being pursued <input type="checkbox"/> Not being pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being pursued <input type="checkbox"/> Not being pursued
