**Re: Bend Metro Park and Recreation District
Groundwater Permit Application – Riverbend Park
WHP File No.: 35626.1200**

Gentlemen/Ladies:

On behalf of the Bend Metro Park and Recreation District (BMPRD), we are applying for a permit to use groundwater for the purpose of irrigating 8.0 acres of park land at the proposed Riverbend Park in Bend. Your review and approval are respectfully requested.

Riverbend Park is a high profile project along the Deschutes River near the Old Mill District. The Bend community river park development will include improvements to the Deschutes River Trail and is proposed as the site of the Community Recreation Center and District administrative offices. It is connected to Farewell Bend Park across the river by the trail and footbridge. The combination of the Riverbend and Farewell Bend properties provide a new, 39-acre park complex significantly expanding the District's river park inventory to meet the needs of rapid community growth.

BMPRD has a reputation for efficient use of water on existing park lands. BMPRD proposes a fully automated underground irrigation system for Riverbend Park to continue their efficient water management.

The proposed well data in the application is based on existing well logs in the area which show some variation in the depth to the regional aquifer. Our understanding of the Deschutes Basin aquifer in this area is that the river is perched high above the regional aquifer, which is 200 to 500+ feet below the existing ground surface. The intent is to seal the well from the perched river aquifer and extract water from the deep regional aquifer. Additionally, we have used standard modern rates and duties (1/80cfs/ac and 3.0ac-ft/ac) in our application. BMPRD is eager to work with the Department and invites comments regarding well construction, rate, duty and the application as a whole that will make this project successful.

We are applying for a maximum instantaneous pumping rate of 130gpm. This is due to the requirement that the entire park be watered during the time the public is not using the park. This restricts irrigation to 5-6 hours during the night. The landscape irrigation designer has determined that we need 130gpm to water the entire site within this restrictive time frame. The proposed irrigation system is automated, metered and will operate in zones designed to use irrigation water in the most efficient, water conserving and cost effective manner possible. When the use is averaged through a 24-hour day, the standard rate of use of 1/80cfs/ac will not be exceeded. Likewise, the amount of water used to irrigate the site will not exceed the duty requested.

We understand that groundwater withdrawal mitigation credits will be required to use groundwater. WHPacific and BMPRD have met with Swalley Irrigation District regarding this project. Swalley Irrigation District has indicated that they have available surface irrigation rights that are available to

Page 2

mitigate for this project. Other Central Oregon irrigation districts may also provide mitigation for our proposed permit. A check in the amount of \$820 is attached for Department fees. By implementing the Deschutes Basin groundwater mitigation program, this project will benefit the middle reaches of the Deschutes River by permanently dedicating mitigation water to in stream flows.

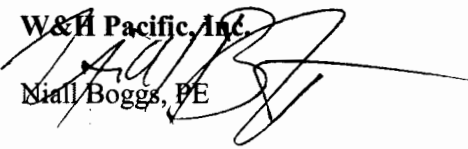

The fees were calculated from the OWRD fee schedule as follows:

	\$500	Base: minimum fee to appropriate Groundwater
0.1cfs x\$200=	\$20	1 st cubic foot per second or fraction thereof
1x\$300=	<u>\$300</u>	Permit recording fee
Total=	\$820.00	

BMPRD is fully committed to providing a valuable recreational and aesthetic asset to Bend with the construction of Riverbend Park while continuing to use water efficiently, without waste. Please consider the enclosed documents and our request for a permit to use groundwater. We appreciate your assistance and look forward to your review and response.

Very truly yours,

W&H Pacific, Inc.

SALEM, OREGON

2. PROPERTY OWNERSHIP

Do you own all the land where you propose to divert, transport, and use water?

Yes (Please check appropriate box below then skip to section 3 ("Ground water Development"))

There are no encumbrances

This land is encumbered by easements, rights of way, roads or other encumbrances (please provide a copy of the recorded deed(s))

No (Please check the appropriate box below.)

I have a recorded easement or written authorization permitting access.

I do not currently have written authorization or easement permitting access.

Written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigated and/or domestic use only (ORS 274.040).

You must provide the legal description of: (1) the property from which the water is to be diverted, (2) any property crossed by the proposed ditch, canal or other work, and (3) any property on which the water is to be used as depicted on the map.

List the names and mailing addresses of all affected landowners.

3. GROUND WATER DEVELOPMENT

A. Well Information

Number of well(s): one

Name of nearest surface water body: Deschutes River

Distance from well(s) to nearest stream or lake: 1) 450' (approximate)

2) _____ 3) _____ 4) _____

If distance from surface water is less than one mile, indicate elevation difference between nearest surface water and well head. 1) 16' (approximate)

2) _____ 3) _____ 4) _____

B. Well Characteristics

Wells must be constructed according to standards set by the Department for the construction and maintenance of water wells. If the well is already constructed, please enclose a copy of the well constructor's log and the well ID number, if available, for each well with this application. Identify each well with a number corresponding to the wells designated on the map and proceed to section 4 of the form. If the well has not been constructed, or if you do not have a well log, please complete the following:

Well(s) will be constructed by: to be determined - A licensed well driller

Address: N/A

RECEIVED

JUL 09 2008

Completion date: _____

Please provide a description of your well development. *(Attach additional sheets if needed.)*

Well No.	Diameter	Type and size of casing	No. of feet of casing	Intervals casing is perforated (in feet)	Seal depth	Est. depth to water	Est. depth to water bearing stratum	Type of access port or measuring device	Total well depth
1		To be determined	400	290'-390'	280'	280'	290'	Air tube	400'

Note: Well numbers in this listing must correspond to well locations(s) shown on accompanying map.

If well log is not available, or well is not yet constructed, you must provide: proposed total depth, depth of casing and seal, and the anticipated perforation and open intervals.

C. Artesian Flows

If your water well is flowing artesian, describe your water control and conservation works:

Based upon numerous existing well logs in the vicinity, artesian flow is not expected.

4. WATER USE

Please read the instruction booklet for more details on "type of use" definitions, how to express how much water you need and how to identify the water source you propose to use. You must fill out a supplemental form for some uses as they require specific information for that type of use.

A. Type(s) of Use(s)

See list of beneficial uses provided in the instructions.

- If your proposed use is **domestic**, indicate the number of households to be supplied with water: _____
- If your proposed use is **irrigation**, please attach **Form I**
- If your proposed use is **mining**, attach **Form R**
- If your proposed use is **municipal or quasi-municipal**, attach **Form M**
- If your proposed use is **commercial/industrial**, attach **Form Q**

RECEIVED

JUL 09 2008

B. Amount of Water

Provide the production rate in gallons per minute (gpm) and the total annual amount of water you need from each well, from each source or aquifer, for each use. You do not need to provide source information if you are submitting a well log with your application.

Well No.	Source or aquifer	Type of use	Total rate of water requested (in gpm)	Total annual quantity (in gallons)	Production rate of well (in gpm)
1	Deschutes Aquifer	Irrigation	44.88	7,820,434	130 gpm

C. Maximum Rate of Use Requested

What is the maximum, instantaneous rate of water that will be used? 130 gpm
(The fees for your application will be based on this amount.)

D. Period of Use

Indicate the time of year you propose to use the water: March 15th through October 15th
(For seasonal uses like irrigation give dates when water use would begin and end, e.g. March 1–October 31.)

E. Acreage

If you will be applying water to land, please give the total number of acres where water will be applied or used: 8.0 acres
(This number should be consistent with your application map.)

5. WATER MANAGEMENT

A. Diversion

What equipment will you use to pump water from your well(s)?

- Pump (give horsepower and pump type): Vertical Turbine or Submersible Well Pump - 25 HP
- Other means (describe): _____

B. Transport

How will you transport water to your place of use?

- Ditch or canal (give average width and depth):
Width _____ Depth _____
Is the ditch or canal to be lined? Yes No
- Pipe (give diameter and total length):
Diameter 4" or 6" from well to surface Length 600'
- Other (describe) _____

Ground Water/4

RECEIVED

JUL 09 2008

C. Application/Distribution Method

What equipment will you use to apply water to your place of use? Pressurized permanent underground irrigation pipe & sprinklers

Irrigation or land application method (check all that apply):

- Flood
- Drip
- Hand lines
- Siphon tubes or gated pipe with furrows
- Other, describe _____
- High-pressure sprinkler
- Water cannons
- Wheel lines
- Low pressure sprinkler
- Center pivot system

Distribution method

- Direct pipe from source
- In-line storage (tank or pond)
- Open canal

D. Conservation

What methods will you use to conserve water? Why did you choose this distribution or application method? For example, if you are using sprinkler irrigation rather than drip irrigation, explain. If you need additional space, attach a separate sheet.

Metered use, fully automatic electronic control with weather inputs.

6. PROJECT SCHEDULE

Indicate the anticipated dates that the following construction tasks should begin. If construction has already begun, or is completed, please indicate that date.

Proposed date construction will begin: September 2008

Proposed date construction will be completed: November 2009

Proposed date beneficial water use will begin: April 2009

7. REMARKS

If you would like to clarify any information you have provided in the application, please do so here and reference the specific application question you are addressing.

RECEIVED

JUL 09 2008

8. MAP REQUIREMENTS

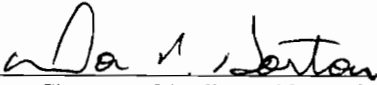

The Department cannot process your application without accurate information showing the source of water and location of water use. You must include a map with this application form that clearly indicates the township, range, section, and quarter/quarter section of the proposed well location and place of use. The map must provide tax lot numbers. See the map guidelines sheet for detailed map specifications.

9. SIGNATURE

By my signature below I confirm that I understand:

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application packet.
- I cannot legally use water until the Water Resources Department issues a permit to me.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be canceled.
- The water use must be compatible with local comprehensive land use plans.
- Even if the Department issues a permit to me, I may have to stop using water to allow senior water right holders to get water they are entitled to, and

I swear that all information provided in this application is true and correct to the best of my knowledge:

Signature of Applicant *(If more than one applicant, all must sign.)*

7-7-8

Date

Before you submit your application be sure you have:

- Answered each question completely.
- Attached a legible map which includes township, range, section, quarter/quarter and tax lot number.
- Included a Land Use Information Form or receipt stub signed by a local official.
- Included the legal description of all the property involved with this application. You may supply a copy of the deed, land sales contract, or title insurance policy, to meet this requirement.
- Included a check payable to the Oregon Water Resources Department for the appropriate amount. The Department's fee schedule can be found at www.wrd.state.or.us or call (503) 986-0900.

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form.

This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

Land uses to be served by proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): PZ 08-04
City approval for park

Land uses to be served by proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.)
If approvals have been obtained but all appeal periods have not ended, check "Being pursued".

Type of Land-Use Approval Needed (e.g. plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:	
<u>Site Plan Approved</u>	<u>PZ 08-04</u>	<input checked="" type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being pursued <input type="checkbox"/> Not being pursued

3. GETTING YOUR SHIPMENT TO UPS

Customers without a Daily Pickup

- Schedule a same day or future day Pickup to have a UPS driver pickup all of your Internet Shipping packages.
- Hand the package to any UPS driver in your area.
- Take your package to any location of The UPS Store®, UPS Drop Box, UPS Customer Center, UPS Alliances (Office Depot® or Staples®) or Authorized Shipping Outlet near you. Items sent via UPS Return ServicesSM (including via Ground) are accepted at Drop Boxes.
- To find the location nearest you, please visit the 'Find Locations' Quick link at ups.com.

Customers with a Daily Pickup

- Your driver will pickup your shipment(s) as usual.
