Dear Sir/Madam:

Enclosed is the "Application for a Permit to Use Ground Water" from Henry H. Pelfrey and Lynnia K. Woods. for Commercial Fish Propagation / Production and also for Irrigation/General Agricultural (from March 1st to October 31st of each year). Irrigation water will be used for lawns and landscaping. Their property is located on easterly side of Pelfrey Avenue located southerly of Fairview Lake in the City of Fairview.

Hatchery fish will housed in both above ground tanks and excavated ponds. Lawn/landscaping Irrigation water will be directly applied through a system of underground transmission and distribution pipelines with a combination of "Rainbird" and other rotating sprinklers. They will also use drip irrigation lines and "soaker" hoses when possible to conserve irrigation water. The fish ponds will be constructed as holding reservoirs "bulge-in-the-pipe" if the well(s) do not produce as much water as they asked for in the attached application.

Attached is the Ground Water Application with Application Map and also the Water Resources Department Form "I" for Irrigation, along with the two signed planning forms. Please contact Lynnia Woods at 503-669-8000, about their proposed fish ponds or irrigation system or if you have any questions about the property or for any other items.

NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdictions where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan.

Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan.

Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.
