Water Rights Division

Water Rights Application  
Number 2270

**Final Order**  
**Extension of Time for Permit Number 1149**

*Application History*

On December 10, 1998, City of Reedsport submitted an application to the Department for an extension of time for permit number 1149. The Department issued Permit number 1149 on May 21, 1912. The permit called for completion of construction of the water development project by May 21, 1915 and complete application of water to the full beneficial use by May 21, 1917. In accordance with OAR 690-320-0010(8), on March 16, 1999, the Department issued a Proposed Final Order proposing to extend the time to complete development of the water development project to October 1, 2008, and the time to fully apply water to beneficial use to October 1, 2008. The protest period closed April 30, 1999. No protest was filed.

At time of issuance of the PFO the Department concluded that, based on the factors demonstrated by the applicant, the permit may be extended subject to the following conditions:

The permittee must submit a written progress report to the Department by October 1, 2003. The report must be received by the Department not sooner than 90 days prior to the due date. The permittee's report must describe in detail the work done each year since the last extension was granted or the last progress report submitted. The report shall include:

- a) The amount of construction completed;
- b) The amount of beneficial use of water being made, including the total volume of water used, water used relative to the specific authorizations (types of use, acres irrigated, etc.) contained in the permit, and the percent of the total allowable water use that this represents;
- c) A review of the permittee's compliance with terms and conditions of the permit and/or previous extension; and
- d) Financial investments made toward developing the beneficial water use.

The Department will review the progress report to determine whether the permittee is exercising diligence towards completion of the project and complying with the terms and conditions of the permit and extension.

Failure to submit a progress report by the due date above will result in cancellation of the undeveloped portion of the permit by the Department pursuant to ORS 537.260 or 537.410 to 537.450. Within one year after cancellation, the permittee must submit a final proof survey pursuant to ORS 537.230 and 537.250.

If the Department finds that diligence is questionable, the Department may:

- a) request the permittee to submit additional information with which to evaluate diligence;
- b) apply additional conditions and performance criteria for perfection of the right; or
- c) cancel the undeveloped portion of the permit pursuant to ORS 537.260 or 537.410 to 537.450. The Department will grant the permittee a hearing on the cancellation, if one is requested.

In determining whether the permittee has been diligent, the Department will consider information submitted to the Department by the permittee and any information submitted during the 30-day public comment period following public notice of submittal of the progress report.

If information is received through the public notice process indicating that the applicant has not been diligent toward completing the project, and if the director determines there are significant disputes related to the use of water, the Department will conduct a hearing.

The factors shown by the applicant, together with the conditions imposed by the Department and incorporated herein, establish good cause for the permit extension.

#### Order

The extension of time for Application 2270, Permit Number 1149, therefore, is approved. The extension is issued as limited by the conditions set forth in the permit and the conditions incorporated herein. The deadline for completing construction is extended to October 1, 2008. The deadline for applying water to full beneficial use is extended to October 1, 2008.

DATED May 18, 1999

  
Martha D. Pagel, Director
