Reference: Pre-Application Consultation

Mike:

A client of mine, Mr. Rocky Webb, would like to drill a well and file for a water right to irrigate about 30 acres. We are asking for input from Water Resources Department as to whether there will be any concerns about issuing a Water Right Permit. I have included for your use:

1. Tax Assessor's Map showing the parcel (Wasco County, T2N, R13E, Section 20).
2. A portion of The Dalles North USGS Quad.
3. Copy of aerial photo showing the parcel (Note: Gooseberry Creek is shown a little south of actual channel).

Each of the above attachments show the location of the proposed well site. The proposed well is estimated to be 250 feet deep. It is hoped that the well would produce 150 to 200 gallons per minute. I have also included some well logs with location maps of other wells in Section 20.

You can answer this request via email. The address is ltoll@tennesoneng.com. Also, if you have any questions please contact me via email.

Sincerely yours,

Larry M. Toll, C.W.R.E.

2. PROPERTY OWNERSHIP

Ⓒ Yes (Please check appropriate box below then skip to section 3 'Ground Water Development')

- There are no encumbrances
- This land is encumbered by easements, rights of way, roads or other encumbrances
(please provide a copy of the recorded deed(s))

Ⓒ No (Please check the appropriate box below)

- I have a recorded easement or written authorization permitting access.
- I do not currently have written authorization or easement permitting access.
Written authorization or an easement is not necessary, because the only affected
- lands I do not own are state-owned submersible lands, and this application is for irrigated and/or domestic use only (ORS 274.040).

You must provide the legal description of: (1) the property from which the water is to be diverted, (2) any property crossed by the proposed ditch, canal or other work, and (3) any property on which the water is to be used as depicted on the map.

List the names and mailing addresses of all affected landowners.

3. GROUND WATER DEVELOPMENT

A. Well Information

Number of well(s): a well _____

Name of nearest surface water body: Gooseberry Creek

Distance from well(s) to nearest stream or lake:

1) 430' 2) _____ 3) _____ 4) _____

If distance from surface water is less than one mile, indicate elevation difference between nearest surface water and well head:

1) 20' 2) _____ 3) _____ 4) _____

B. Well Characteristics

Wells must be constructed according to standards set by the Department for the construction and maintenance of water wells. If the well is already constructed, please enclose a copy of the well constructor's log and the well ID number, if available, for each well with this application. Identify each well with a number corresponding to the wells designated on the map and proceed to section 4 of the form. If the well has not been constructed, or if you do not have a well log, please complete the following:

Well(s) will be constructed by:

Charlie Austin

RECEIVED

AUG 08 2000

Mailing Address: 3393 Sandlin Road

The Dalles OR 97058
City State Zip

Completion Date: 02/25/2008

Please provide a description of your well development. *(Attach additional sheets if needed.)*

Well No.	Diameter	Type and size of casing	No. of feet of casing	Intervals casing is perforated (in feet)	Seal depth	Est. depth to water	Est. depth to water bearing stratum	Type of access port or measuring device	Total well depth
1	See	WASC	51632						

Note: Well numbers in this listing must correspond to well locations(s) shown on accompanying map.

If well log is not available, or well is not yet constructed, you must provide: proposed total depth, depth of casing and seal, and the anticipated perforation and open intervals.

C. Artesian Flows

If your water well is flowing artesian, describe your water control and conservation works:

No

4. WATER USE

Please read the instruction booklet for more details on "type of use" definitions, how to express how much water you need and how to identify the water source you propose to use. You must fill out a supplemental form for some uses as they require specific information for that type of use.

A. Type(s) of Use(s)

See list of beneficial uses provided in the instructions.

- If your proposed use is **domestic**, indicate the number of households to be supplied with water: _____
- If your proposed use is **irrigation**, please attach **Form I**
- If your proposed use is **mining**, attach **Form R**
- If your proposed use is **municipal or quasi-municipal**, attach **Form M**
- If your proposed use is **commercial/industrial**, attach **Form Q**

B. Amount of Water

Provide the production rate in gallons per minute (gpm) and the total annual amount of water you need from each well, from each source or aquifer, for each use. You do not need to provide source information if you are submitting a well log with your application.

Well No.	Source or aquifer	Type of use	Total rate of water requested (in gpm)	Total annual quantity (in gallons)	Production rate of well (in gpm)
1	Basalt	Irrigation	155	26,980,380	200
1	Basalt	Supplemental Irrigation	53	9,286,725	200
1	Basalt	Storage in Reservoir*	1 Ac-Ft	325850	200
1	Basalt	Maintaining Reservoir	10	977,550	200

C. Maximum Rate of Use Requested

What is the maximum, instantaneous rate of water that will be used? 200 gpm plus 1 Ac-ft
 (The fees for your application will be based on this amount.)

D. Period of Use

Indicate the time of year you propose to use the water: Irr - Mar 1 to Oct 31, Res - Year Around
 (For seasonal uses like irrigation give dates when water use would begin and end, e.g. March 1-October 31.)

E. Acreage

If you will be applying water to land, indicate the total number of acres where water will be applied or used: 37.1
 (This number should be consistent with your application map.)

5. WATER MANAGEMENT

A. Diversion

What method will you use to divert water from the source?

- Pump (give horsepower and pump type): 20 to 25 hp in well with 10 hp on pond
- other means (describe): _____

B. Transport

How will you transport water to your place of use?

- Ditch or canal (give average width and depth):

Width _____ Depth _____

Is the ditch or canal to be lined? Yes No

- Pipe (give diameter and total length):

Diameter 4" from well to pond Length 600"

- other, describe: 2800' 4" aluminum mainline and lateral pipe

RECEIVED
 AUG 11 2008
 WATER RESOURCES DEPT.
 SALEM, OREGON

C. Application/Distribution Method

What equipment will you use to apply water to your place of use?

Irrigation or land application method (check all that apply):

- Flood
- Drip
- Hand Lines
- Siphon tubes or gated pipe with furrows
- other, describe: _____
- High pressure sprinkler
- Water Cannons
- Wheel Lines
- Low pressure sprinkler
- Center pivot system

Distribution method

- Direct pipe from source
- In-line storage (tank or pond)
- Open Canal

E. Conservation

What methods will you use to conserve water? Why did you choose this distribution or application method? Have you considered other methods to transport, apply, distribute or use water? For example, if you are using sprinkler irrigation rather than drip irrigation, explain. If you need additional space, attach a separate sheet.

flow meter,

6. PROJECT SCHEDULE

Indicate the anticipated dates that the following construction tasks should begin. If construction has already begun, or is completed, please indicate that date.

Proposed date construction will begin: Started

Proposed date construction will be completed: 10/1/2010

Proposed date beneficial water use will begin: 10/1/2011

7. REMARKS

If you would like to clarify any information you have provided in the application, please do so here and reference the specific application question you are addressing.

*The pond will store ground water as a multi purpose structure and will also be used a a bulge in the line for irrigation. This system will operate by pumping the well water into an existing pond for storage and maintaining the pond, During the irrigation season water from the well and the spring will go into the pond and be pumped out for irrigation.

WATER RESOURCES DEPT.
SALMON, OREGON

8. MAP REQUIREMENTS

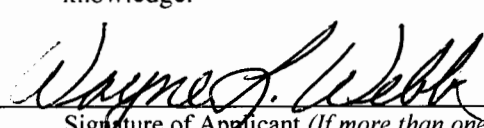

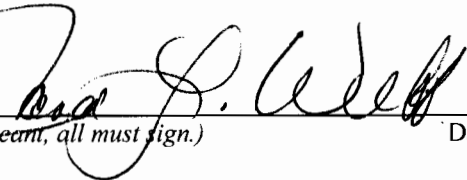

The Department cannot process your application without accurate information showing the source of water and location of water use. You must include a map with this application form that clearly indicates the township, range, section, and quarter/quarter section of the proposed well location and place of use. The map must provide tax lot numbers. See the map guidelines sheet for detailed map specifications.

9. SIGNATURE

By my signature below I confirm that I understand:

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application packet.
- I cannot legally use water until the Water Resources Department issues a permit to me.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be canceled.
- The water use must be compatible with local comprehensive land use plans.
- Even if the Department issues a permit, I may have to stop using water to allow senior water right holders to get water to which they are entitled.

I swear that all information provided in this application is true and correct to the best of my knowledge:

  8/6/08
Signature of Applicant (If more than one applicant, all must sign.) Date

Before you submit your application be sure you have:

- Answered each question completely.
- Attached a legible map which includes township, range, section, quarter/quarter and tax lot number.
- Included a Land Use Information Form or receipt stub signed by a local official.
- Included the legal description of all the property involved with this application. You may supply a copy of the deed, land sales contract, or title insurance policy, to meet this requirement.
- Included a check payable to the Oregon Water Resources Department for the appropriate amount. The Department's fee schedule can be found at www.wrd.state.or.us or call (503) 986-0900.

SALMON OREGON

Oregon Water Resources Department Land Use Information Form

THIS FORM IS NOT REQUIRED IF: 1) water is to be diverted, conveyed, and/or used only on federal lands; or 2) the application is for a water-right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and all of the following apply: a) only the place of use is proposed for change, b) there are no structural changes, c) the use of water is for irrigation, and d) the use is located in an irrigation district or exclusive farm-use zone.

Applicant Name: Wayne "Rocky" and Jana Webb
Mailing Address: PO Box 1550
City: The Dalles State: OR Zip: 97058 Day Phone: 541-296-1012 (wk)

This application is related to a Measure 37 claim. Yes No

A. Land and Location

Please include the following information for all tax lots where water will be diverted (taken from its source), conveyed (transported), or used. Applicants for municipal use, or irrigation uses within irrigation districts may substitute existing and proposed service-area boundaries for the tax-lot information requested below.

Township	Range	Section	¼ ¼	Tax Lot #	Plan Designation (e.g. Rural Residential/RR-5)	Water to be:			Proposed Land Use:

						<input type="checkbox"/> Diverted	<input type="checkbox"/> Conveyed	<input type="checkbox"/> Used	

List all counties and cities where water is proposed to be diverted, conveyed, or used. Wasco County

B. Description of Proposed Use

Type of application to be filed with the Water Resources Department:

- Permit to Use or Store Water Water-Right Transfer Exchange of Water
 Allocation of Conserved Water Limited Water Use License
 Permit Amendment or Ground Water Registration Modification

Source of water: Reservoir/Pond Ground Water Surface Water (name) _____

Estimated quantity of water needed: 0.46 cubic feet per second gallons per minute acre-feet

Intended use of water: Irrigation Commercial Industrial Domestic for _____ household(s)
 Municipal Quasi-municipal Instream Other Multipurpose Reservoir

Briefly describe: The proposed water right filing is to irrigate 27.6 acres that currently does not have a water right and to supplement 9.5 acres with a water right. There is approximately 29 acres north of the roadway into the permitted aggregate pit that has been farmed for many years. There is about 8 acres south of the roadway which would be classed newly farmed ground. (See attached page)

Also water will be used to fill and maintain an reservoir (exists already)
Note to applicant: *If the Land Use Information Form cannot be completed while you wait, please have a local government representative sign the receipt below and include it with the application filed with the Water Resources Department.*

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form.

This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

- Land uses to be served by proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): _____.
- Land uses to be served by proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.)
If approvals have been obtained but all appeal periods have not ended, check "Being pursued".

**Supplemental sheet to
Land Use Information Form for Oregon Water Resources Department**

This filing for water right will be on approximately 29 acres of land north of the roadway in to a permitted aggregate pit and approximately 8 acres of land south of the roadway. The land north of the roadway has been farmed for years.

The land south of the roadway could be classed as newly farmed land. This land south of the roadway will not be plowed up or excavated initially. In fact, this land may not be irrigated, but since the application is being made it was decided to include it at this time. After talking to Karen Mirande, who does our planning work, the decision was to go forward with the water rights application. To begin with the land will be irrigated for pasture with all irrigation pipes laying on the land surface. In the future should this land be put into a use that would require working up the soil, like an orchard, the proper planning actions will be obtained at that time.

Also, the existing pond north of the roadway will be altered. This pond has been there since at least 1969 when it shows up on a water right map, see attached copy of water right map. The pond currently covers about 0.25 acre of ground. Under this proposed water rights filing, the pond will be enlarged to store up to 1 acre-foot of water. This is all contained within the area of ground that has been previously disturbed for agricultural use.

The pond is used to capture the water from an unnamed spring and to irrigate 9.5 acres (see copy of Water Right Certificate 36589 which dates back to 1924). The pond could have been constructed long before 1969. The pond will be for multipurpose structure under the proposed water right filing. This would limit water stored in the reservoir to in reservoir uses. The reservoir will also be used to a bulge in the line, whereas the spring and well will put water into the reservoir and water will be pumped out to irrigate the land.

This report printed for request c2n13e

The map extent is for Township 2 N 13 E
Section(s) 20

The following layers are shown on the map -

- Roads
- Streams and Lakes
- Township/Range and Sections
- Taxlot lines and parcel ids (where available, not necessarily current)
- City boundaries and names
- Surface water rights
- Groundwater rights
- Places of Use
- Points of Diversion
- Instream water rights

The following Instream Water Rights are within the map extent:

PERMIT	NAME	PRIORITY
--------	------	----------

OWRD Groundwater Management Areas

The following OWRD Groundwater Management Areas are within the map extent:

\$RECNO	NAME1	NAME2	SUB-AREA	STATUS
1	THE DALLE			CRIT

The water rights reported here have been interpreted by Department staff from Department files and are intended to represent that interpretation graphically. Locations shown on the map are only approximate and should not be used for legal, financial or real estate decisions. For more accurate legal location information, please contact the Department.

WARRANTY DEED

KNOW ALL MEN BY THESE PRESENTS, That STANLEY STINSON

hereinafter called the grantor, for the consideration hereinafter stated, to grantor paid by WAYNE L. WEBB and JANA L. WEBB, husband and wife, hereinafter called the grantee, does hereby grant, bargain, sell and convey unto the said grantee and grantee's heirs, successors and assigns, that certain real property, with the tenements, hereditaments and appurtenances thereunto belonging or appertaining, situated in the County of Wasco and State of Oregon, described as follows, to-wit:

Commencing at the Northwest corner of the Justin Chenoweth Donation Land Claim (DLC) Number 37, said corner being located in Section 19, Township 2 North, Range 13 East of the Willamette Meridian, Wasco County, Oregon; thence N 89°51'18" East along the North line of said DLC No. 37 a distance of 1895.27 feet to the Northeast corner of said DLC No. 37; thence N 89°52'23" East along the South line of the Edward Crate DLC No. 38 a distance of 1419.08 feet to the true point of beginning of the herein described tract; thence N 17°37'00" West 1235.10 feet; thence N 81°09'16" East 117.08 feet; thence S 74°39'00" East 115.86 feet; thence N 56°34'50" East 116.22 feet; thence S 85°04'24" East 122.32 feet; thence S 76°18'21" East 197.70 feet; thence S 72°06'04" East 177.57 feet; thence S 88°38'05" East 189.69 feet; thence S 65°43'52" East 262.18 feet; thence South 78°50'42" East 135.15 feet; thence N 33°05'44" East 286.24 feet; thence N 84°58'59" East 1070.65 feet; thence S 61°48'18" East 38.31 feet; thence N 87°07'27" East 335 feet, more or less, to the westerly right of way line of the Old Columbia River Highway; thence Southeasterly along said Westerly right of way line to its intersection with the South line of said Edward Crate DLC; thence West along said South line to the true point of

(CONTINUED ON REVERSE)

To Have and to Hold the same unto the said grantee and grantee's heirs, successors and assigns forever. And said grantor hereby covenants to and with said grantee and grantee's heirs, successors and assigns, that grantor is lawfully seized in fee simple of the above granted premises, free from all encumbrances except as stated above

and that grantor will warrant and forever defend the said premises and every part and parcel thereof against the lawful claims and demands of all persons whomsoever, except those claiming under the above described encumbrances.

The true and actual consideration paid for this transfer, stated in terms of dollars, is \$30,000.00. However, the actual consideration consists of or includes other property or value given or promised which is part of the consideration (indicate which). (The sentence between the symbols @, if not applicable, should be deleted. See ORS 93.030.)

In construing this deed and where the context so requires, the singular includes the plural and all grammatical changes shall be implied to make the provisions hereof apply equally to corporations and to individuals.

In Witness Whereof, the grantor has executed this instrument this 3/5 day of July, 19 86, if a corporate grantor, it has caused its name to be signed and seal affixed by its officers, duly authorized thereto by order of its board of directors.

THIS INSTRUMENT WILL NOT ALLOW USE OF THE PROPERTY DESCRIBED IN THIS INSTRUMENT IN VIOLATION OF APPLICABLE LAND USE LAWS AND REGULATIONS. BEFORE SIGNING OR ACCEPTING THIS INSTRUMENT, THE PERSON ACQUIRING FEE TITLE TO THE PROPERTY SHOULD CHECK WITH THE APPROPRIATE CITY OR COUNTY PLANNING DEPARTMENT TO VERIFY APPROVED USES.

STATE OF OREGON, County of Wasco July 31, 19 86

STATE OF OREGON, County of _____, 19 _____

Personally appeared the above named Stanley Stinson

Personally appeared _____ and _____ who, being duly sworn, each for himself and not one for the other, did say that the former is the president and that the latter is the secretary of _____ a corporation, and that the seal affixed to the foregoing instrument is the corporate seal of said corporation and that said instrument was signed and sealed in behalf of said corporation by authority of its board of directors; and each of them acknowledged said instrument to be its voluntary act and deed.

and acknowledged the foregoing instrument to be his voluntary act and deed.

CERTIFICATE OF WATER RIGHT

This Is to Certify, That **RUDY R. and MARJORIE E. WALTERS**
 of Route 4, Box 129, The Dalles, State of Oregon, has made proof
 to the satisfaction of the STATE ENGINEER of Oregon, of a right to store the waters of
 unnamed stream, tributary of Columbia River in Foley Lakes Reservoir appropriated
 under Application No. 37177, Permit No. 27852

for the purposes of
 irrigation and fish culture
 under Reservoir Permit No. R-2786 of the State Engineer, and that said right to store said
 waters has been perfected in accordance with the laws of Oregon; that the priority of the right
 hereby confirmed dates from November 8, 1961

that the amount of water entitled to be stored each year under such right, for the purposes afore-
 said, shall not exceed 10.0 acre feet

The reservoir is located in
