Dear Mr. Sweet:

Our records show that your special use permit for a domestic water transmission system across National Forest land expires on December 31, 2007. Because occupancy of National Forest System lands without an authorization is a violation of the Code of Federal Regulations (CFR), continued use of your system will require a new permit, beginning January 1, 2008.

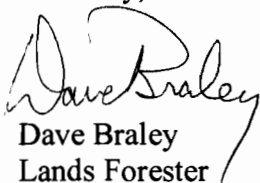

The special use permits we issue require the holder to be in compliance with all applicable State and Federal laws and regulations. Under Oregon law, all water is publicly-owned and the State of Oregon requires all users of surface water in the state to obtain a water right from the Oregon Water Resources Department. Our file on your permit does not contain a copy of such a water right from the State of Oregon. If you have such a certificate or an acknowledged application for such a right, please mail a copy of that to me at this letterhead address at the earliest time.

In recent years we have been issuing special use permits for water transmission systems with terms up to ten years. This is an efficiency, reducing time and paperwork for both the holder and the Forest Service. However, without a copy of a water right certificate or acknowledged application, we will be unable to issue you a new special use permit for more than one (1) year. During that year you will be required to obtain those documents or remove all water system materials from National Forest land.

You should immediately contact the Oregon Water Resources Department for additional information on obtaining a state water right. Their website ([www.oregon.gov/OWRD](http://www.oregon.gov/OWRD)) contains a great deal of information including water law, procedures, application forms, contacts, etc. They can also be reached via phone at 503-986-0900.

Please contact me at 541-902-6942 should you have any questions about the special use permit for use of National Forest lands.

Sincerely,

  
Dave Braley

"Termination" refers to the cessation of the permit under its own terms without the necessity for any decision or action by the authorized officer. Termination occurs automatically when, by the terms of the permit, a fixed or agreed upon condition, event, or time occurs. For example, the permit terminates at expiration. Terminations are not appealable.

"Revocation" refers to an action by the authorized officer to end the permit because of noncompliance with any of the prescribed terms, or for reasons of public interest. Revocations are appealable.

"Suspension" refers to a revocation which is temporary and the privileges may be restored upon the occurrence of prescribed actions or conditions. Suspensions are appealable.

B. Revocation or Suspension. The Forest Service may suspend or revoke this permit in whole or part for:

1. Noncompliance with Federal, State, or local laws and regulations.
2. Noncompliance with the terms and conditions of this permit.
3. Reasons in the public interest.
4. Abandonment or other failure of the holder to otherwise exercise the privileges granted.

C. Opportunity to Take Corrective Action. D. Removal of Improvements. Prior to abandonment of the improvements or within a reasonable time following revocation or termination of this authorization, the holder shall prepare, for approval by the authorized officer, an abandonment plan for the permit area. The abandonment plan shall address removal of improvements and restoration of the permit area and prescribed time frames for these actions. If the holder fails to remove the improvements or restore the site within the prescribed time period, they become the property of the United States and may be sold, destroyed or otherwise disposed of without any liability to the United States. However, the holder shall remain liable for all cost associated with their removal, including costs of sale and impoundment, cleanup, and restoration of the site.

## VI. FEES

A. Termination for Nonpayment. This permit shall automatically terminate without the necessity of prior notice when land use rental fees are 90 calendar days from the due date in arrears.

B. The holder shall pay in advance a sum determined by the Forest Service to be the fair market value of the use granted by this authorization for a 5-year period. The payment is set at \$400 (\$80 per year) for the initial 5-year period. Payments for each subsequent 5-year period shall be the amount of the payment for the initial period, adjusted using an appropriate indexing factor to reflect more nearly the current fair market value of the use at the beginning of the new period. At certain intervals the Forest Service shall review the fee and adjust the fee as necessary to assure that it is commensurate with the fair market value of the authorized rights and privileges, as determined by appraisal or other sound business management principles.

Payments shall be credited on the date received by the designated Forest Service collection officer or deposit location. If the due date for the fee or fee calculation statement falls on a non-workday, the charges shall not apply until the close of business on the next workday.

D. Late Payment Interest, Administrative Costs and Penalties Pursuant to 31 U.S.C. 3717, et seq., interest shall be charged on any fee amount not paid within 30 days from the date the fee or fee calculation financial statement specified in this authorization becomes due. Interest on the principal shall accrue from the date the fee or fee calculation financial statement is due.

In the event the account becomes delinquent, administrative costs to cover processing and handling of the delinquency will be assessed.

A penalty of 6 percent per annum shall be assessed on the total amount delinquent in excess of 90 days and shall accrue from the same date on which interest charges begin to accrue.
