9426 Southeast Revenue Road
Boring, OR 97009

Dear Mrs. Vrooman:

REFERENCE: Files R-58186 and 58187

Thank you for your letter of July 27, 1982, regarding your Permits R-7797 and 43927. The reservoir was filed as having been completed so there is no problem with that except the use which was to have been made under the secondary Permit 43927. The secondary permit was for the use of the waters stored in the reservoir for irrigation and livestock.

I suspect since the reservoir was completed, livestock use has been made and possibly the irrigation use has been made also. If this is so, all we need is notification to that extent that it was accomplished prior to October 1, 1981, and further that any equipment necessary for the irrigation or stock use was in place prior to October 1, 1980. If it was not completed within the terms of the permit, extensions are possible and given your husband's present condition, we will withhold action on the permits for a considerable length of time to allow you opportunity to respond.

If you have personal knowledge that the project was completed on time, please utilize the Forms B and C which were attached to the Permit 43927 to indicate the dates that construction was completed and the water applied to beneficial use. If it was not completed within those times, please let me know and we will send an extension form to you.

Sincerely,

BRUCE A. ESTES, Supervisor
Survey/Certificate Section
