Harold F. Vroocman & Delores Vroocman
9426 SE Revenue Rd.
Boring, OR 97009

Dear Mr. and Mrs. Vroocman:

We have received your two applications; the first requests a permit to construct Vroocman Farm Reservoir and store 0.6 acre foot of water from an unnamed stream for irrigation and stock watering. This application has been filed and numbered R-58186. Your second application requests a permit to use 0.6 acre foot of water from Vroocman Farm Reservoir and 0.2 acre foot from Reservoir #2 for irrigation of 19.0 acres and livestock watering. This application has also been filed and is numbered 58187. We have also received your map, legal description, and fees of \$75.00.

Permits can be issued for your proposed projects; however, a correction to application No. 58187 is first required.

Permits R-7673 and 43306 were issued to Joseph Leber and allow for the construction of two reservoirs and storage of 0.8 acre foot of water in each reservoir for irrigation and livestock watering, and also for the use of the water stored in the reservoirs for irrigation and livestock watering. According to our records the capacity of reservoir #2 to be constructed under Permit No. R-7673 is 0.8 acre foot. Since a permit has been issued to Mr. Leber to use the entire capacity of reservoir #2 for irrigation and livestock watering, we could not issue a permit to you which includes the 0.2 acre foot from reservoir #2.

If a portion of reservoir #2 is located on your property, and livestock have natural access to the reservoir, they could not be prohibited from drinking water to which they have natural access.

If a permit were to be issued to you which included the use of water stored in reservoir #2, it would be necessary that Mr. Leber authorize cancellation of that portion of his Permit No. 43306 for stock watering.

applications R-58186 & 58187
R-57486 & 57487

Since your application can not be approved in its present form, I am returning it to you together with the map. Please amend Item #4 of the application to request the use of the water from Vrooman Farm Reservoir. Item #1 must also be amended to delete Reservoir #2 as a source of water.

Your application numbered 58187 is endorsed so that in order to retain its priority date, it must be received in this office on or before April 13, 1979.

Sincerely,

VESTAL GARNER
Water Rights Engineer
