

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE STATE OF OREGON**

In the Matter of Water Rights Application)
R-87261, Douglas County)

SUPERSEDING FINAL ORDER
APPROVING THE STORAGE OF
SURFACE WATER

Authority

Oregon Revised Statutes (ORS) 537.409 establishes the process by which an application to store waters of the public may be submitted.

Findings of Fact

1. This Final Order supersedes the Final Order dated December 11, 2008, and is being issued pursuant to OAR 137-004-0080 (5), because the Department determined that the permit erroneously described the measurement, recording, and reporting requirement. The mailing date of this Superseding Final Order begins the 60-day appeal/reconsideration period.
2. On August 19, 2008, William Hemphill submitted an application for a permit to store water pursuant to ORS 537.409. The Department provided public notice of the application in the Department's weekly public notice on August 26, 2008. A 60-day comment period followed.
3. The Department has not received comments related to the possible issuance of the attached permit.
4. The Department has evaluated the application and any comments received, and finds that as conditioned, the proposed use will not impair or be detrimental to the public interest described in ORS 537.409(6).
5. The Department received a review from Oregon Department of Fish and Wildlife related to the possible issuance of a permit. The attached permit is conditioned to address concerns raised in that review.

APPEAL RIGHTS

Appeal to a circuit court: This is a final order in other than a contested case. Any party affected by a final order in other than a contested case issued by the Water Resources Commission or Water Resources Department may appeal the order to the appropriate circuit court (ORS 536.075). A petition for judicial review must be filed within the 60-day time period specified by ORS 183.484 (2).

Petition to the Department for Reconsideration of the Final Order: A person entitled to judicial review of this order may also file a petition for the Department's reconsideration of the order. The petition for reconsideration must be filed with the Department within 60 calendar days after the date of the order. A copy of the petition must also be delivered or mailed to all other persons and agencies requiring notification under statute or rule (OAR 137-004-0080). The petition must set forth the specific grounds for reconsideration, and may be supported by a written argument. The petition may include a request for a stay of the order if the petition complies with the requirements of OAR 137-003-0090 (2). The Department may grant or deny the petition by summary order. If the Department takes no action, the petition is deemed denied as provided by ORS 183.484 (2). A final order remains in effect during reconsideration until stayed or changed. Following reconsideration, the agency must enter a new order, which may be an order affirming the existing order (OAR 137-004-0080). Reconsideration cannot be granted after the filing of a petition for judicial review, unless permitted by the court (OAR 137-004-0080 (6)).

ORS 537.409 does not provide an opportunity to request a contested-case hearing. Appeal rights on this final order approving the application are limited to the above procedures.

6. Water is available for the proposed use as described in the attached permit.
7. The use, as described in the attached permit, will not injure existing water rights and does not pose potential detrimental impacts to fishery resources.
8. The use, as described in the attached permit, will not injure existing water rights and does not pose potential detrimental impacts to fishery resources.

Conclusions of Law

Application R-87261 is consistent with the requirements of ORS 537.409. Therefore, the proposed use will not impair or be detrimental to the public interest.

Now Therefore, it is Ordered:

Application R-87261 is approved pursuant to ORS 537.409, and Permit R-14713 is issued to supersede Permit R-14655. Permit R-14655 is of no further force or effect.
