Application for a Permit to Store Water in a Reservoir (Standard Review)

Standard Review Process (ORS 537): You must use this form for any reservoir storing more than 9.2 acre-feet *and* with a dam more than 10 feet high.

Use a separate form for each reservoir

Please type or print in dark ink. If your application is found to be incomplete or inaccurate, we will return it to you. If any requested information does not apply, insert "n/a". A summary of review criteria and procedures that are generally applicable to these applications is available at www.wrd.state.or.us/OWRD/PUBS/forms.shtml.

**Optional Information*

WATER RESOURCES DEPT
SALEM, OREGON

(We) make application for a permit to construct a reservoir and store the following described waters of the State of Oregon. The name of the reservoir is 82 new small reservoirs and 4 existing small reservoirs in Snipion Canyon and it Tributaries.

2. SOURCE OF WATER for the proposed use: Snipion Canyon and it Tributaries,
a tributary of Thirty Mile Creek Tributary of the John Day River.

Is the proposed use an enlargement of an existing dam/reservoir? ☒ YES ☐ NO

82 are new small reservoirs and 4 are enlargement to existing small reservoirs permitted under Permits R-13956 and R-13957.

If the reservoir is not in channel of a stream, state how it is to be filled: _____

All 86 Reservoirs are in the channel-bottoms of the canyons to catch any late winter and/or early spring flows that may occur. Snipion Creek and it tributaries only flows water for very short periods of time during the year. This occurs for 3 to 6 day periods during very hard spring rain storms or during periods of snow melt. Water will be pumped from 10 wells to maintain water in 10 of the new proposed small 5 acre-ft reservoirs and 2 of the existing small reservoirs for fish and wildlife. The ground water application for this use is attached.

For Department Use

App. No. LC-87387

Permit No. _____

Date _____

3. DAM HEIGHT AND COMPOSTION

The maximum height of the structure will be All 86 Reservoirs will be 10 ft or Less feet above streambed or ground surface at the centerline of the crest of the dam.

Note: If your dam height is greater than or equal to 10.0' above land surface AND your reservoir will store equal to or greater than 9.2 acre-feet, engineered plans and specifications must be approved prior to storage of water.

The dam will be (check one): ☒ Earthfill* ☐ Concrete ☐ Flash board ☐ Other

If "other" give description: *All 86 Reservoirs.

RECEIVED

JAN-30 2009

WATER RESOURCES DEPT
SALEM, OREGON

4. PRIMARY OUTLET WORKS

Describe the location and the dimensions of the outlet conduit through the dam: _____

Because these Reservoirs are small we have available four-60 gpm gas powered portable pumps and a 4 cylinder 70 hp 4045 John Deere diesel engine coupled to a Berkley B3JQBL pump with a capacity of 600 gpm that can remove the stored water from the reservoirs if needed. The pumps are currently used to irrigate from existing reservoirs.

NOTE: Most dams across a natural stream channel will need an outlet conduit having a minimum diameter of 8 inches or greater.

5. EMERGENCY SPILLWAY

Describe the location and the dimensions of the spillway channel: The reservoirs proposed under this application fall into three categories. The first category, Category 1, includes small reservoirs storing up to 0.15 acre-ft. These reservoirs or small ponds will be located in the very top of small draws or canyons and will be used to store water for wildlife and stock. Because most of the storage area will be below natural ground level they will not have a spillway channel. The second size of reservoirs, Category 2, proposed will be located in small side canyons tributary to the main canyons below the Category 1 reservoirs. These reservoirs will store 0.15 to 0.80 acre-ft and will have a spillway channel around one end of the crest of the dam. The spillways for these reservoirs will be approximately 2 ft deep by 4 to 8 ft wide. The third category reservoirs, Category 3, proposed will be in the main canyons and have a capacity to store 0.80 to 5.00 acre-ft. These reservoirs will have an 8 ft to 10 ft wide by 3 ft deep spillway channel lined with rock.

6. THE USE(s) of the impounded water will be: All reservoirs will have wildlife use with some having irrigation and fish uses. The Attached Table will describe the uses for each reservoir.

7. THE AMOUNT OF WATER to be stored is:

Estimated Storage:

Category 1: 17 x 0.15 ac-ft = 2.55 ac-ft

Category 2: 35 x 0.80 ac-ft = 28.0 ac-ft

Category 3: 34 x 5.00 ac-ft = 170.0 ac-ft

Total 200.55 ac-ft

The area submerged by the reservoir, when filled, will be _____

Estimated area Submerged

Category 1: 17 x 0.07 ac = 1.19 acres

Category 2: 35 x 0.30 ac = 9.30 acres

Category 3: 34 x 0.80 ac = 27.2 acres

Total 37.69 acres

RECEIVED

JAN 30 2009

8. PROJECT SCHEDULE: (List Month and Year)

Proposed date construction work will begin: Started WATER RESOURCES DEPT

Proposed date construction work will be completed: 2020 SALEM, OREGON

Proposed date water use will be completed: 2020

9. PROPERTY OWNERSHIP

Do you own all the land where you propose to divert, transport, and use water?

☒ Yes (Please check appropriate box below then skip to section 10)

☐ There are no encumbrances

☐ This land is encumbered by easements, rights of way, roads or other encumbrances (please provide a copy of the recorded deed(s))

☐ No (Please check the appropriate box below)

☐ I have a recorded easement or written authorization permitting access.

☐ I do not currently have written authorization or an easement permitting access to lands not under my ownership.

☐ Written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigation and/or domestic use only (ORS 274.040).

You must provide the legal description of: (1) the property from which the water is to be diverted, (2) any property crossed by the proposed ditch, canal or other work, and (3) any property on which the water is to be used as depicted on the map.

List the names and mailing addresses of all affected landowners:

N/A

**Attach additional sheet(s) if necessary.*

10. MAP REQUIREMENTS

The Department cannot process your application without accurate information showing the source of water and location of water use. You must include a map with this application form that clearly indicates the township, range, section and quarter/quarter section of the proposed reservoir location and place of use. The map must provide tax lot numbers. See the map guidelines sheet for detailed map specifications.

11. SIGNATURE

By my signature below I confirm that I understand:

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application packet.
- I cannot legally use water until the Water Resources Department issues a permit to me.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be canceled.
- The water use must be compatible with local comprehensive land use plans.
- Even if the Department issues a permit to me, I may have to stop using water to allow senior water right holders to get water they are entitled to, and...

I certify that the information I have provided in this application is an accurate representation of the proposed water use and is true and correct to the best of my knowledge:

Applicant: _____

Signature (If more than one applicant, all must sign.)

1/28/09

Date

Before you submit your application be sure to:

- Answer each question completely.
- Attach a legible map that includes township, range, section, quarter/quarter and tax lot.
- Include a Land Use Information Form or receipt stub signed by a local official.
- Include the legal description of all the property involved with this application. You may include a copy of your deed land sales contract or title insurance policy to meet this requirement.
- Include a check payable to the Oregon Water Resources Department for the appropriate amount. The Department's fee schedule can be found at www.wrd.state.or.us or call (503) 986-0900.

Attached Table

Category 1 Reservoirs will be small reservoirs storing less than 0.15 acre-ft. These reservoirs or small ponds will be located in small draws or canyons. The purpose of use for these reservoirs will be storage for wildlife and stock. Because most of the storage area will be below natural ground level, they will not have a spillway channel.

Category 2 Reservoirs will be located in small side canyons tributary to the main canyons below the Category 1 reservoirs. These reservoirs will store 0.15 to 0.80 acre-ft and will have a spillway channel around one end of the crest of the dam. These spillways will be approximately 2 ft deep and 4 to 8 ft wide.

Category 3 Reservoirs will be located in the main canyons and store 0.80 to 5.00 acre-ft. These reservoirs will have spillways approximately 3 feet deep and be 8 ft to 10 ft wide around one end of the crest of the dam. These spillways will be lined with rip-rap.

	The four reservoirs listed below were authorized in Permits R-13956 and R-13957. Measurements of these reservoirs taken during the site visit for the Claim of Beneficial Use Reports indicates that each of these reservoirs has a storage capacity and/or height that exceeds the storage and or height values stipulated in the permits. This application is requesting the additional storage and or height for these reservoirs.

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In this case, only the city planning agency must complete this form.

Please request additional forms as needed or feel free to copy.

A. Allowed Use

Check the appropriate box below and provide requested information.

☒ Land uses to be served by proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): Section 4.020(B)(1) Go to section B "Approval" below.

☐ Land uses to be served by proposed water uses (including proposed construction) involve discretionary land use approvals as listed in the table below.

Please provide information as requested below for all tax lots on or through which water will be diverted, conveyed, or used. Check "diverted" if water is diverted (taken) from its source on tax lot, "conveyed" if water is conveyed (transported) on tax lot, and "used" if water will be put to beneficial use on tax lot. More than one box may be checked. (Attach extra sheets as necessary.) Applicants for municipal use, or irrigation uses within irrigation districts, may substitute existing and proposed service area boundaries for the tax lot information requested below.

Type of Land Use Approval Needed (3.g. plan amendments, rezones, conditional use permits, etc.)	City Most Significant, Applicable Plan Policies & Ordinance Section References	Check the item that applies: Land Use Approval

WATER RESOURCES DEPT		☐ Obtained ☐ Denied	☐ Being pursued ☐ Not being pursued
SALEM, OREGON		☐ Obtained ☐ Denied	☐ Being pursued ☐ Not being pursued

Note: Please attach documentation of applicable local land use approvals which have already been obtained.
(Record of Action/land use decision and accompanying findings are sufficient.)

B. Approval

Please provide printed name and written signature.

Name: Susie Anderson Date: 01/15/2009

Title: Gilliam County Planning Dir. Phone: 541 384 2381

Signature: Susie Anderson

C. Additional Comments

Local governments are invited to express special land use concerns or make recommendations to the Department regarding this proposed use of water below, or on a separate sheet.

This use is not regulated by the Gilliam Co Comp Plan

Note: If this form cannot be completed while the applicant waits, sign and detach the receipt stub as instructed below. You will have 30 days from the Water Resources Department's notice date to return the completed Land Use Information Form or WRD may presume the land use associated with the proposed use of water is compatible with local comprehensive plans.

R-97387

Oregon Water Resources Department Land Use Information Form

This information is needed to determine compatibility with local comprehensive plans as required by ORS 197.180. WRD will use this and other information to evaluate the water use application. THIS FORM IS NOT REQUIRED IF: 1) water is to be diverted, conveyed, and/or used only on federal lands; or 2) the application is for a water right transfer, allocation of conserved water, or exchange and all of the following apply: a) only the place of use is proposed for change, b) there are no structural changes, c) the use of water is for irrigation, and d) the use is located in an irrigation district or exclusive farm use zone.

To Be Completed By Applicant

This section must be completed by the individual or group that is filing an application with the Water Resources Department. Attach a copy of the map from the application to this form.

- A. Applicant

Name: R. J. ClausAddress: 22211 SW Pacific HiwayCity: Sherwood State: OR Zip: 97140 Day Phone: _____

- B. Land and Location

Please provide information as requested below for all tax lots on or through which water will be diverted, conveyed, or used. Check "diverted" if water is diverted (taken) from its source on tax lot, "conveyed" if water is conveyed (transported) on tax lot, and "used" if water will be put to beneficial use on tax lot. More than one box may be checked. (Attach extra sheets as necessary.) Applicants for municipal use, or irrigation uses within irrigation districts, may substitute existing and proposed service area boundaries for the tax lot information requested below.

Tax Lot I.D.	Plan Designated (e.g. Rural Residential/RR-5)	Water to be: (Check all that apply)	Proposed Land Use
TLS 3000, & 3200, T4S, R21E, WM	EFU	☒ Diverted ☒ Conveyed ☒ Used	Irrigation & Fish & Wildlife
TLS 4201, & 4300, T4S, R20E, WM	Exclusive Farm Use	☒ Diverted ☒ Conveyed ☒ Used	Irrigation & Fish & Wildlife
TL 100, T5S, R20E, WM	EFU	☒ Diverted ☒ Conveyed ☒ Used	Irrigation & Fish & Wildlife
		☐ Diverted ☐ Conveyed ☐ Used	

List counties and cities where water is proposed to be diverted, conveyed, or used. Gilliam County

- C. Description of Proposed Use

Indicate the type of application to be filed with the Water Resources Department.

☐ Water Use Permit ☐ Water Right Transfer ☐ Allocation of Conserved Water ☐ Exchange

Indicate the intended use of water and describe the key characteristics of the project.

☐ Commercial ☐ Industrial ☐ Instream ☒ Irrigation
☐ Municipal ☐ Quasi-municipal ☐ Domestic (indicate number of households)
☒ Other Fish & Wildlife 82

Briefly describe: Construct 82 small reservoirs, drill 10 wells; irrigate from reservoirs and wells to irrigate riparian zones and crops for fish and wildlife

Indicate the source of the water to be used.

☒ Reservoir/Pond ☒ Ground Water ☒ Surface Water Reservoirs on Snipion and its tributaries
(Source)

Indicate the estimated quantity of water the use will require: 137.7 ☐ CFS ☐ GPM ☒ Acre-Feet
