

Oregon Water Resources Department  
Water Rights Division

Water Rights Application  
Number S-87052

**Superseding Final Order**

*Appeal Rights*

This is a Final Order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

This statement of judicial review rights does not create a right to judicial review of this order, if judicial review is otherwise precluded by law. Where no changes have been made to a Proposed Final Order on a water right application and no protests have been filed during the protest period, the Final Order is not subject to judicial review.

*Application History*

On February 12, 2009, a Final Order was issued approving Application S-87052. Permit S-54528 was issued.

Subsequently, the Department discovered that the permit erroneously included the following condition:

The permittee shall not construct, operate or maintain any dam or artificial obstruction to fish passage in the channel of the subject stream without providing a fishway to ensure adequate upstream and downstream passage for fish, unless the permittee has requested and been granted a fish passage waiver by the Oregon Fish and Wildlife Commission. The permittee is hereby directed to contact an Oregon Department of Fish and Wildlife Fish Passage Coordinator, before beginning construction of any in-channel obstruction.

The Department finds that Permit S-54528 requires modification to correct the error.

Order

Permit S-54536 is issued to supersede Permit S-54528. Permit S-54528 is of no further force or effect.

DATED March 3, 2009

*E. Timothy Wall.*

for Phillip C. Ward, Director  
Water Resources Department
