Application for a Permit to Use Ground Water

Please type or print in dark ink. If your application is found to be incomplete or inaccurate, we will return it to you. If any requested information does not apply to your application, insert "n/a." Please read and refer to the instructions when completing your application. A summary of review criteria and procedures that are generally applicable to these applications is available at www.wrd.state.or.us/OWRD/PUBS/forms.shtml.

For Department Use		
App. No. <u>G-17180</u>	Permit No. _____	Date _____

2. PROPERTY OWNERSHIP

Do you own all the land where you propose to divert, transport, and use water?

- Yes (Skip to section 3 "Ground water Development.")
- No (Please check the appropriate box below.)
 - I have a recorded easement or written authorization permitting access.
 - I do not currently have written authorization or easement permitting access.
 - Written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigated and/or domestic use only (ORS 274.040).

You must provide the legal description of: (1) the property from which the water is to be diverted, (2) any property crossed by the proposed ditch, canal or other work, and (3) any property on which the water is to be used as depicted on the map.

List the names and mailing addresses of all affected landowners.

NA

3. GROUND WATER DEVELOPMENT

A. Well Information

Number of well(s): 5

Name of nearest surface water body: Unnamed drainages to west and Peninsula Drainage Canal to east

Distance from well(s) to nearest stream or lake: 1) 800 ft to NW

2) 700 ft to Drainage Canal 3) 770 ft to NW 4) 400 ft to SW 5) 800 ft to SW

If distance from surface water is less than one mile, indicate elevation difference between nearest surface water and well head. 1) 10 ft

2) 10 ft 3) 10 ft 4) 10 ft 5) 10 ft

B. Well Characteristics

Wells must be constructed according to standards set by the Department for the construction and maintenance of water wells. If the well is already constructed, please enclose a copy of the well constructor's log and the well ID number, if available, for each well with this application. Identify each well with a number corresponding to the wells designated on the map and proceed to section 4 of the form. If the well has not been constructed, or if you do not have a well log, please complete the following:

Well(s) will be constructed by: Wells 1, 2, and 3 exist. Contractor for drilling Wells 4 and 5 to be selected later.

Address: _____

RECEIVED

Completion date: By October 1, 2014

FEB 23 2014

Please provide a description of your well development. (Attach additional sheets if needed.)

Well No.	Diameter	Type and size of casing	No. of feet of casing	Intervals casing is perforated (in feet)	Seal depth	Est. depth to water	Est. depth to water bearing stratum	Type of access port or measuring device	Total well depth
1	Inferred	to be MULT	916	(log attached)					
2	Inferred	to be MULT	921	(log attached)					
3	Inferred	to be MULT	918	(log attached)					
4	16 inch	steel; 12 inch	180 ft	100 - 170	20 ft	5 ft	100 ft	3/4-inch port	180 ft
5	16 inch	steel; 12 inch	180 ft	100 - 170	20 ft	5 ft	100 ft	3/4-inch port	180 ft

Note: Well numbers in this listing must correspond to well location(s) shown on accompanying map.

If well log is not available, or well is not yet constructed, you must provide: proposed total depth, depth of casing and seal, and the anticipated perforation and open intervals.

C. Artesian Flows

If your water well is flowing artesian, describe your water control and conservation works:

NA

4. WATER USE

Please read the instruction booklet for more details on "type of use" definitions, how to express how much water you need and how to identify the water source you propose to use. You must fill out a supplemental form for some uses as they require specific information for that type of use.

A. Type(s) of Use(s)

See list of beneficial uses provided in the instructions.

- If your proposed use is **domestic**, indicate the number of households to be supplied with water: _____
- If your proposed use is **irrigation**, please attach **Form I**
- If your proposed use is **mining**, attach **Form R**
- If your proposed use is **municipal or quasi-municipal**, attach **Form M**
- If your proposed use is **commercial/industrial**, attach **Form Q**

WATER RESOURCES DEPT
SALEM, OREGON

B. Amount of Water

Provide the production rate in gallons per minute (gpm) and the total annual amount of water you need from each well, from each source or aquifer, for each use. You do not need to provide source information if you are submitting a well log with your application.

Well No.	Source or aquifer	Type of use	Total rate of water requested (in gpm)	Total annual quantity (in gallons)	Production rate of well (in gpm)
1	alluvial	Irrigation	224 gpm	32,340,720	230
2	alluvial	Irrigation	from any	from any	1,080
3	alluvial	Irrigation	combination	combination	2,000
4 & 5	alluvial	Irrigation	of five wells	of five wells	500 each (est.)

C. Maximum Rate of Use Requested

What is the maximum, instantaneous rate of water that will be used? 224 gpm (0.50 cfs)
(The fees for your application will be based on this amount.)

D. Period of Use

Indicate the time of year you propose to use the water: March 1 - October 31
(For seasonal uses like irrigation give dates when water use would begin and end, e.g. March 1–October 31.)

E. Acreage

If you will be applying water to land, please give the total number of acres where water will be applied or used: 39.7
(This number should be consistent with your application map.)

5. WATER MANAGEMENT

A. Diversion

What equipment will you use to pump water from your well(s)?

- Pump (give horsepower and pump type): 50 hp turbine
- Other means (describe): _____

B. Transport

How will you transport water to your place of use?

- Ditch or canal (give average width and depth):
 Width _____ Depth _____
- Is the ditch or canal to be lined? Yes No
- Pipe (give diameter and total length):
 Diameter 2 and 4 inch mainline Length >2,000 feet
- Other (describe) _____

RECEIVED

FEB 23 2009

C. Application/Distribution Method

What equipment will you use to apply water to your place of use? 1/2 to 2-inch distribution piping

Irrigation or land application method (check all that apply):

- Flood
- High-pressure sprinkler
- Low pressure sprinkler
- Drip
- Water cannons
- Center pivot system
- Hand lines
- Wheel lines
- Siphon tubes or gated pipe with furrows
- Other, describe _____

Distribution method

- Direct pipe from source
- In-line storage (tank or pond)
- Open canal

D. Conservation

What methods will you use to conserve water? Why did you choose this distribution or application method? For example, if you are using sprinkler irrigation rather than drip irrigation, explain. If you need additional space, attach a separate sheet.

Water for the golf course is efficiently managed to keep the turf in good condition. An on-site weather station is used to track irrigation demand. The parking lot area will be drip irrigated. The low-grade wetland occasionally will be watered by local flood irrigation.

6. PROJECT SCHEDULE

Indicate the anticipated dates that the following construction tasks should begin. If construction has already begun, or is completed, please indicate that date.

Proposed date construction will begin: As soon as permit is issued.

Proposed date construction will be completed: October 1, 2014

Proposed date beneficial water use will begin: October 1, 2015

7. REMARKS

If you would like to clarify any information you have provided in the application, please do so here and reference the specific application question you are addressing.

Pump motors are oversized because they will also serve the 140 acres of irrigation authorized under Certificate 41881 after a water-right transfer is made to allow use of all five wells. Some of the diverted water may be temporarily stored in golf course water features (bulges in the system) before use.

RECEIVED

FEB 23 2009

8. MAP REQUIREMENTS

The Department cannot process your application without accurate information showing the source of water and location of water use. You must include a map with this application form that clearly indicates the township, range, section, and quarter/quarter section of the proposed well location and place of use. The map must provide tax lot numbers. See the map guidelines sheet for detailed map specifications.

9. SIGNATURE

By my signature below I confirm that I understand:

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application packet.
- I cannot legally use water until the Water Resources Department issues a permit to me.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be canceled.
- The water use must be compatible with local comprehensive land use plans.
- Even if the Department issues a permit to me, I may have to stop using water to allow senior water right holders to get water they are entitled to, and

I swear that all information provided in this application is true and correct to the best of my knowledge:

Signature of Applicant (If more than one applicant, all must sign.)

1-30-09

Date

Before you submit your application be sure you have:

- Answered each question completely.
- Attached a legible map which includes township, range, section, quarter/quarter and tax lot number.
- Included a Land Use Information Form or receipt stub signed by a local official.
- Included the legal description of all the property involved with this application. You may supply a copy of the deed, land sales contract, or title insurance policy, to meet this requirement.
- Included a check payable to the Oregon Water Resources Department for the appropriate amount. The Department's fee schedule can be found at www.wrd.state.or.us or call (503) 986-0900.

FORM I FOR IRRIGATION WATER USE

1. Please indicate whether you are requesting a primary or supplemental irrigation water right.

Primary Supplemental

If supplemental, please indicate the number of acres that will be irrigated for each type of use.

Primary: _____ Acres

Secondary: _____ Acres

List the permit or certificate number of the primary water right: No. _____

2. Please list the anticipated crops you will grow and whether you will be irrigating them for a full or partial season:

- 1. Golf Course Turf Full season Partial season (from: _____ to _____)
- 2. _____ Full season Partial season (from: _____ to _____)
- 3. _____ Full season Partial season (from: _____ to _____)
- 4. _____ Full season Partial season (from: _____ to _____)

3. Indicate the maximum total number of acre-feet you expect to use in an irrigation season:

99.25 _____ acre-feet

(1 acre-foot equals 12 inches of water spread over 1 acre, or 43,560 cubic feet, or 325,851 gallons.)

4. How will you schedule your applications of water? Will you be applying water in the evenings, twice a week, daily?

- Daily during daytime hours Daily during nighttime hours
- Two or three times weekly during daytime Two or three times weekly during nighttime
- Weekly, during daytime hours Weekly, during nighttime hours
- Other, explain: _____

Oregon Water Resources Department Land Use Information Form

G-17180

THIS FORM IS NOT REQUIRED IF: 1) water is to be diverted, conveyed, and/or used only on federal lands; or 2) the application is for a water-right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and all of the following apply: a) only the place of use is proposed for change, b) there are no structural changes, c) the use of water is for irrigation, and d) the use is located in an irrigation district or exclusive farm-use zone.

Applicant Name: Columbia Edgewater Country Club Attention: Gordon Kiyokawa
Mailing Address: 2220 N.E. Marine Drive
City: Portland State: OR Zip: 97211 Day Phone: (503) 285-8111

This application is related to a Measure 37 claim. Yes No

A. Land and Location

Please include the following information for all tax lots where water will be diverted (taken from its source), conveyed (transported), or used. Applicants for municipal use, or irrigation uses within irrigation districts may substitute existing and proposed service-area boundaries for the tax-lot information requested below.

Re: Columbia Edgewater Country Club

Dear Herb:

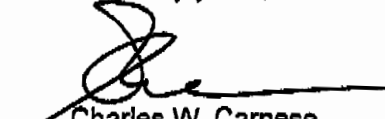

The legal description of the land owned by Columbia Edgewater Country Club is rather convoluted, but consists of the metes and bounds description attached, together with the following lots in GOLF ACRES, Multnomah County, Oregon:

All of Lot 1, GOLF ACRES
All of Lot 12, GOLF ACRES
The northern one-half of Lots 16 and 17, GOLF ACRES

I am attaching a map of GOLF ACRES with the Club's property cross-hatched. The property described by the metes and bounds description is also cross-hatched and is in the northwest corner of the map.

Please advise if you require additional information.

Very truly yours,

Charles W. Carnese
Attorney at Law
