I, Leonard Hill, a citizen of the United States of America, residing at Alloyd Pt. Box 599, Roseburg being first duly sworn, on oath, depose and say:

I am now of the age of 77 years and have been a continuous resident and inhabitant of Douglas County, Oregon, since the year 1885.

I was well acquainted with WILBUR HUGH BROWN during his lifetime. He owned property and resided thereon, embracing 135 acres, more or less, situated in Section 25, Township 27 South, Range 5 West, Willamette Meridian, Douglas County, Oregon. Through his said property extends South Deer Creek, a tributary of South Umpqua River.

Of my personal knowledge, I can and do state that in the year 1897 I first observed WILBUR HUGH BROWN diverting water from the South Deer Creek for his household and domestic uses and purposes, including irrigation of his garden and yard and the watering of livestock. To the best of my recollection, WILBUR HUGH BROWN generally pastured on his farm an average of 40 to 50 head of sheep, together with a few head of cattle. Water from said creek was diverted from a point in said creek approximately 300 feet southwest of the WILBUR HUGH BROWN dwelling house. I further state, that WILBUR HUGH BROWN use of water from said creek for the aforesaid purposes was continuous and uninterrupted from the date I first observed his use thereof to the date of his death.

After the death of WILBUR HUGH BROWN in or about the year 1967, his son, Quincy Brown, and granddaughter, Mildred Brown Herman, who inherited the WILBUR HUGH BROWN ranch, continued to divert and use water from said creek from the diversion point above mentioned in substantially the same manner and form as previously diverted and used by WILBUR HUGH BROWN.

I futher state, that to the best of my knowledge the diversion of said water from said creek was transported by a pump and through a water pipe of approximately 1 1/2" diameter.

FROM: DON KNAUER

CONTACT: CLIFFORD W. POWELL
BY: DON KNAUER & DWIGHT FRENCH

We met with Mr. Powell on his property. He explained his water use to us. He said his in-house use is water delivered by the City. His use from the unnamed spring, which is not identified on his map, was for stockwater and irrigation. He said his use from South Fork Deer Creek is supplemental irrigation and stockwater.

Mr. Powell took us up to the unnamed spring which is identified on his SWR-1 map as P.O.D. #1. I've put a copy of that map in this file. He said the pipe runs from the spring to the four metal storage tanks (8' long x 4' diameter) which are plumbed together. A pipe runs to a trough at the barn east of the road. A pipe runs across the road to his yard where he uses the water for irrigation. There is a pump in South Fork Deer Creek which pumps water to the four storage tanks as a supplemental supply. This supplemental use generally is in summer and fall when the spring flow is lowest.

Mr Powell made three changes to his form. It appears I should send it back to have him add the spring as a source. We can use Ms. Herman's, SWR-1, map for the location.

FROM: DON KNAUER

CONTACT: MILDRED A. HERMAN
BY: DON KNAUER & DWIGHT FRENCH

We met Ms. Herman at her home in Roseburg. We told her Mr. Powell, a relative of hers and neighbor who filed SWR-2, had explained the water use on all of the old ranch. She told us we need to be careful of what Mr. Powell said because he wanted all of the old ranch but only got part of it.

She said she has sold her property to Bill Carter of Roseburg. It's on a seven year contract so she still has an interest in the property. I told her we would contact Mr. Carter and she should let him know about the registration.

We told her Mr. Powell had shown us the spring at P.O.D. #1 and had explained all the P.O.D.'s and pipe systems.

She made a change on the form.

Mr. Powell said a spring at P.O.D. #2 goes to an open trough at the barn in NWNE section 25. He said springs at P.O.D.'s 3 & 4 are piped together then to barns in the NENE and storage tanks in NWNE then to trough at barn. The pipe system from P.O.D. #2 is not connected to the pipe system from P.O.D.'s 3 & 4. The two stock storage tanks are 1000 gallons each.

Mr. Powell said he didn't know anything about portable stock watering troughs being used on the property as shown on the map. He's lived here all his life and hasn't seen that.

Re: Registration Statement Claiming
a Right to Appropriate Surface
Water, Clifford W. Powell

Dear Sirs:

Enclosed is a Registration Statement claiming a Right to Appropriate Surface Water for the Clifford W. Powell property east of Roseburg. Mr. Powell bought his property from the ranch of Quincy A. Brown and Mildred A. Herman in 1988. The Brown family has owned the (now) Powell property since about 1900 and water has been diverted from South Fork Deer Creek for ranch use there since about 1865. (The Registration Statement Claiming a Right to Appropriate Surface Water for the Brown and Herman ranch is enclosed with this Powell Registration Statement, but in a separate envelope.

Affidavits as to the long term use of the water from the South Fork Deer Creek on the now Clifford W. Powell Property (Affidavits refer to what was then known as the Wilbur Hugh Brown property) are enclosed.

Yours truly,

B. Shaner
