Application Supplement for Human Consumption & Livestock Uses

For water use permit applications within or above scenic waterways or from streams water rights for which water is not available due to required instream flows, the Department may issue limited permits for human consumption and livestock uses. Human consumption use is limited to use of water for drinking, cooking, and sanitation, and does not include other uses such as lawn or garden watering or other related water uses.

In order to issue a permit to you for human consumption or livestock use, the Department must find that you cannot reasonably obtain water from any other source. For human consumption, an additional finding must be made that denial of the water right would result in loss of reasonable expectations for use of your property. For livestock use, additional findings must be made that issuance of a permit is necessary to prevent the livestock from watering in or along the stream bed and that you have excluded livestock from the stream and the adjacent riparian zone.

Please answer the following questions, and sign and return this form to Oregon Water Resources Department, 725 Summer St NE Ste A, Salem OR 97301-1271.

1. Can you reasonably obtain water from any other source? YES / NO
(circle one)

If not, please describe why each of the following options are not reasonable:

- a. Groundwater, such as a well on yours or a neighbor's property. (If expense is the reason groundwater is not reasonable, please provide two estimates of the cost.)

*Water is sulfur water under ground
If you drill and then in this area its
not sure you'll hit water there is no water table*

- b. Securing stored water from upstream reservoirs.

- c. Trucking water. (If expense is the reason this option is not reasonable, please provide a copy of an estimate of the cost of trucking water.)

You don't truck water for house water.

d. Community or municipal water suppliers.

e. Tying in to a neighboring property's spring.

g. Transferring existing water rights to your proposed use(s).

Please identify any other alternate water sources you have considered, and why they are not feasible:

2. If you are seeking a permit for **human consumption use**, would denial of your application result in loss of reasonable expectations for use of your property?

☒ YES / NO / NOT APPLICABLE
(circle one)

If so, please describe how:

there would be no water available for house

3. If you are seeking a permit for **livestock use**, is the proposed use necessary to prevent the livestock from watering in or along the stream bed?

YES / NO / NOT APPLICABLE
(circle one)

3. If you are seeking a permit for **livestock use**, have you excluded livestock from the stream and the adjacent riparian zone?
