 OF WALTER R. BOWDEN FOR THE APPROVAL)
 OF A CHANGE IN POINT OF DIVERSION OF)
 WATER FROM TEN MILE CREEK.)

ORDERAPPROVING APPLICATION

On June 21, 1956 Walter R. Bowden of McDermitt, Nevada, filed an application for the approval of a change in point of diversion of water from Ten Mile Creek pursuant to the provisions of ORS 540.510 to 540.530.

Judgment on Mandate of the Circuit Court for Malheur County, Oregon, entered June 30, 1933, in the suit of Lulu M. Simpson, Plaintiff, v. Joe Bankofier, et al., defendants, adjudicated a water right in the name of Lulu M. Simpson for the use of 550 miners inches of the water of Ten Mile Creek with a date of priority of 1880 for irrigation purposes within the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 22, NE $\frac{1}{4}$ SW $\frac{1}{4}$ and S $\frac{1}{2}$ SW $\frac{1}{4}$, Section 23, W $\frac{1}{2}$ W $\frac{1}{2}$, Section 26, NE $\frac{1}{4}$ NE $\frac{1}{4}$ and SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 27, SW $\frac{1}{4}$ SE $\frac{1}{4}$ and E $\frac{1}{2}$ SE $\frac{1}{4}$, Section 33, S $\frac{1}{2}$ NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, NE $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 34 and W $\frac{1}{2}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$ and NW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 35, Township 40 South, Range 42 East, W. M., all of Section 3 and NW $\frac{1}{4}$, Section 2, Township 41 South, Range 42 East, W. M. These lands are irrigated through the Bowden ditch, the point of diversion of said ditch being located 720 feet south and 1220 feet west from the northeast corner of Section 2, and being within the NE $\frac{1}{4}$ NE $\frac{1}{4}$, said Section 2, Township 41 South, Range 42 East, W. M.

The applicant herein, successor in interest to Lulu M. Simpson, proposes to change the point of diversion for the irrigation of said lands, upstream to a point to be located 90 feet north and 1000 feet west from the south quarter corner of Section 16, and being within the SE $\frac{1}{4}$ SW $\frac{1}{4}$, said Section 16, Township 40 South, Range 43 East, W. M.

Notice by publication as provided by ORS 540.520 was given in The Ontario Argus-Observer, a newspaper printed and having general circulation

in Malheur County, Oregon, for a period of three weeks and being the issues of July 12, 19 and 26, 1956. The time for hearing as published in the notice, namely: September 6, 1956, was not less than thirty days after the last publication of the notice.

No objection having been filed and it appearing that the proposed change in point of diversion of water from Ten Mile Creek may be made without injury to existing rights, the application should be approved.

NOW, THEREFORE, it hereby is ORDERED that the proposed change in point of diversion of water from Ten Mile Creek, to-wit:

From a point located 720 feet south and 1220 feet west from the northeast corner of Section 2, and being within the NE $\frac{1}{4}$ NE $\frac{1}{4}$, said Section 2, Township 41 South, Range 42 East, W. M.,

To a point to be located 90 feet north and 1000 feet west from the south quarter corner of Section 16, and being within the SE $\frac{1}{4}$ SW $\frac{1}{4}$, said Section 16, Township 40 South, Range 43 East, W. M.,

for irrigation purposes within the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 22, NE $\frac{1}{4}$ SW $\frac{1}{4}$ and S $\frac{1}{2}$ SW $\frac{1}{4}$, Section 23, W $\frac{1}{2}$ W $\frac{1}{2}$, Section 26, NE $\frac{1}{4}$ NE $\frac{1}{4}$ and SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 27, SW $\frac{1}{4}$ SE $\frac{1}{4}$ and E $\frac{1}{2}$ SE $\frac{1}{4}$, Section 33, S $\frac{1}{2}$ NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, NE $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 34, W $\frac{1}{2}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$ and NW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 35, Township 40 South, Range 42 East, W. M., and NW $\frac{1}{4}$, Section 2 and all of Section 3, Township 41 South, Range 42 East, W. M., with a date of priority of 1880, be and the same hereby is approved.

It is FURTHER ORDERED that the construction work shall be completed and the change in point of diversion of water made on or before October 1, 1957 or within such extension of time as may be granted by the State Engineer for good cause shown.

It is ~~FURTHER ORDERED~~ that the quantity of water diverted at the new point of diversion shall not exceed the quantity of water that is available at the old point of diversion.

From: Don Knauer
Subject: Field Inspection

Dwight French and I met with Joe Maher, the man running this ranch for Naftzger.

He told us they use the irrigation system for stock water during the irrigation season. This use is incidental to the irrigation use. During the non-irrigation season water is run in the irrigation ditches for the stock. This is a cattle ranch so there are cows and horses to water.

He told about the present problems with the water users on Ten Mile Creek. He said there have been court cases in the past and he is trying to use the water in the manner directed by court. (This is the Ten Mile Creek Miscellaneous Decree.) We need to study the decree very carefully and compare it to the maps.

He showed us the three diversion points used by the ranch. There is a spring within the NE 1/4 SW 1/4 section 23, T 40 S R 42 E. A ditch flows south and irrigates the property as shown on the map. There is a concrete dam in Ten Mile Creek within the NE 1/4 NW 1/4 section 21, T 40 S R 43 E. There is a splitter at this dam. The water is divided between the "Vance Ranch" or now Naftzger's Ranch and a neighbor, Daniel Wegner. This was built with regard to the court decree. The ditch flows southwest to the fields as shown. There is a concrete dam within the SE 1/4 NW 1/4 section 1, T 41 S R 42 E. There is a splitter at this dam. The water is divided between the "Vance Ranch" and a neighbor, George Wilkinson. This was also built with regard to the court decree. The ditch flows to the west to the fields as shown.

We will need to be careful when issuing the endorsement on this and the other users of Ten Mile Creek.

RE: Surface Water Registration SWR 20 & 21

Dear Mr. Tucker:

We received your two checks for \$200 each for the stock water use for Surface Water Registrations 20 and 21. Enclosed are our receipts numbered 67524 and 67525.

These fees are required because stock water is considered separate from irrigation. For your information, I am enclosing a copy of ORS 539.081.

Thank you for confirming the correct range for the property irrigated from the springs which are a tributary to Oregon Canyon Creek.

RE: Surface Water Registration SWR-20 and 21

Dear Mr. Tucker:

We have received the surface water registrations from R. E. Naftzger and have numbered them SWR-20 and SWR-21. Receipt #67004 is enclosed for \$277.20 for 177.20 acres of land irrigated from springs from SWR-20. Receipt #67002 is also enclosed for \$648.22 for 548.20 acres of land irrigated from Ten Mile Creek under SWR-21.

In order to include the stock use for these registrations we will need \$200 for each file or a total of \$400.

The application and map have been briefly reviewed. I note on SWR-20 the points of diversion for the springs are listed as being in Township 40 South Range 32 East. The map shows the locations as 40 South Range 42 East. Please confirm the correct range.

Documentation should be included, if possible, of when the water was first put to use and a notarized statement that it has been used continuously without five consecutive years of non-use for the past fifteen years (or as far back as possible).

We will inform you if we need anything more to complete our work. Thank you for your patience.

RE: TROUT CREEK, HARNEY COUNTY *JW*

I am not sure whether the Trout Creek Basin, Harney County, falls under the AG opinion concerning Miscellaneous Decrees.

The suit was started prior to Feb. 24, 1909.

The Harney County Circuit Court brought all the waterusers in, either as plaintiffs or defendants.

The State Water Board was not involved.

The Court forwarded a copy of the decree to the Water Board.

We have issued transfers and cancellations on the rights decreed.

In Calderwood et al v. Young (212 Or. 199) the State Supreme Court upheld the Harney County Watermaster when he enforced the decreed rights.

This has the appearance of a Miscellaneous Decree, but appears to be a comprehensive adjudication of the stream's water rights initiated prior to the Water Code and without the involvement of the Water Board or State Engineer.

How do you want to treat this???
