June 13, 1912.

Mr. Julian P. Scott,
Dee, Oregon.

Dear Sir.-

Replying to your inquiry of the 11th inst., I have to advise you that one acre foot of water is the amount of water that would cover one acre one foot in depth.

All permits issued from this office are limited to $1/80$ of a cubic foot per second per acre and it is believed under ordinary conditions this will be found to be ample.

Any rights which Mr. Vanderlip may secure by virtue of his permit would be subject to your prior rights.

Trusting that you will find this information satisfactory, I remain,

Very respectfully,

John H. Lewis.

State Engineer.

SALEM, - OREGON

Dear Sir-

Referring to my Water Permits #176-1169, there are some points on which I am not entirely clear and I would, therefore, be glad to have you answer the following questions:

- 1- The capacity of reservoir, as stated in permit is to be 25.21 ace-feet. What does this mean? - one ace covered by one foot of water?
2. The permit limits the use of water to one-eighth of a cubic foot per second for each acre irrigated. Is this enough to irrigate an acre of ground under general conditions?
3. I find that my neighbor, Mr. Ed. Vandenberg has filled out a Spring on his property. This Spring is the head of my source of supply. Will his permit, in any way endanger my supply of water?

Mr. John H. Lewis, State Engineer,
Salem, Oregon.

Dear Sir:-

Back in March - through Latton
& King Attorneys of Portland - I filed "appli-
cation #2111. and Permit #960. Application
#1907. ^{#906} These papers refer to "a stream and
reservoir I propose to construct." As I
have not heard from either one of
these papers am writing you con-
cerning same. Please let me know
direct and as soon as possible if these
"Permits & applications" are alright
and when I can expect to have them
returned.

Sincerely yours -
Julian P. Scott.

STATE OF OREGON

OFFICE OF THE
STATE ENGINEER

JOHN H. LEWIS, STATE ENGINEER
PRESIDENT OF THE BOARD OF CONTROL
SECRETARY OF THE DESERT LAND BOARD
PERCY A. CUPPER
ASSISTANT STATE ENGINEER

SALEM, OREGON March 19, 1912.

Mr. F. M. Saxton,

Yeon Bldg., Portland, Ore.

Dear Sir:

I enclose herewith Application No 2111 , by Geo. M. Scott , being Reservoir Permit No. 176 , which has been approved and recorded in this office. I am also enclosing one blue print map . It is not necessary to record this in your county, or to publish notice of its issuance. This permit is not a water right, but is, in a way, a contract between you and the State. It should be held by the owner of the right, and not disposed of in making final proof on desert land, or for any other purpose.

You should make annual proof under this permit upon the forms attached hereto. Within the time as limited by the State Engineer for the beginning of construction, for completion, and for the application of water to beneficial use, you should fill out the proper blank, detach, and mail to the Secretary, Board of Control, Salem, Oregon. If more than one year is allowed for completion of construction you should give on the proper blank a detailed description of the work performed each year so that the Board may judge as to whether or not the law is being complied with as to the prosecution of work with reasonable diligence.

Final proof will be taken by the Board, through the proper division superintendent, as soon as possible after the expiration of time for the complete application of water to beneficial use, or any extension thereof. The Board of Control will thereafter issue a "Certificate of Water Right" to be recorded with the county clerk of the proper county, which to your water title will correspond to a patent from the United States as foundation for your land title.

Should it be impossible for you to complete the work or to put the water to beneficial use before the expiration of the time fixed in the permit, you should, if you have good reasons for so doing, apply to the State Engineer for an extension of time. All such requests must be received before the date of expiration, otherwise you will have to re-file and lose something in priority by your neglect. No extension of time can be granted for the beginning of work, nor in any case where request is made after the expiration of the time limit as fixed in the permit.

Any assignment of this permit should be made in writing and recorded in the State Engineer's office at Salem. The assignee should make all proofs required after date of assignment.

Water belongs to the land it irrigates and not to the ditch, or ditch owner. The transfer of land will carry with it the water appurtenant thereto.

Failure to fill out and mail the annual proofs required by the Board may jeopardise your rights under this permit and result in its cancellation after proper notice, as the law provides that proof must be made "to the satisfaction of the Board of Control".

Respectfully yours,

John H. Lewis.

State Engineer.

Application No. 2111

212a

March 1, 1912.

Mr. Julian P. Scott,

Castle Mary Fruit Orchard,

Des., Oregon.

Dear Sir,-

Enclosed please find my official receipt for \$0.00, which amount together with your application for permit to store water, was received today.

I am also in receipt of your permit No. 960, application No. 1907 and have amended this permit so that it now refers to both the stream and the reservoir you propose to construct.

Very respectfully,

John H. Lewis.

State Engineer.

PAC/MH
Encl.

Stat Water Board, July 27-1914.

Salem, Oregon.

Dear Sirs - Referring to enclosed
"Proofs". The dam reservoir
mentioned has never been
completed & will probably
never be built. You may
cancel this permit.

Sincerely -

Julian P. Scott.
Dec, Oregon.

9. State the character of the soil and kind of crops raised
10. Does the accompanying blue print of the map filed with your permit show correctly the location of diverting works and area of land where water is used?.....
11. If not, state wherein such map is in error.....
12. If the dimensions of your ditch or dam do not correspond to those described in your permit, state what changes have been made, giving dimensions of ditch (or other distributing works)
13. If water is used for power, mining, domestic, municipal, storage, manufacturing, or any other purpose than irrigation, give the extent and method of such use.....

STATE OF OREGON, }
 County of } ss.

I,, being first duly sworn, depose and say that I have read the above and foregoing proof of appropriation of water; that I know the contents thereof; and that the facts therein stated are true.

IN WITNESS WHEREOF, I have hereunto set my hand this.....day of....., 191.....
