Dear Sir

In regard to my application

2068 Permit 129 as I sent you the last blank the last of May stating that I had put the water to beneficial use by the last of May 1914 as I would like to prove up on my Desert claim know if my statement on the blanks I sent you look all right to the Board could you not send me some acknowledgment so that I could take it to the Land office to help make final proof on I do not know how long it will be before I get a certificate of water right I will have to prove up before the first of March 1915

If you can do this let me know

Mr. John Zimmerman,

Westfall, Oregon.

Dear Sir:-

In reply to your inquiry of the 16th inst.. you are advised that it will not be necessary for you to pay the 15 cents per acre again, on the land covered by your permit, at the time you file your claim in the adjudication proceedings before Mr. Geo. T. Cochran.

I would suggest that you list your other land, omitting the desert land entry, but referring to your permit for description of that land. I believe that all your ditches can be described on one blank, but if you find it more convenient to use three, and you attach them together and file them as one claim. Three blanks are enclosed.

Very respectfully,

John H. Lewis,

State Engineer.

Dear Sir

I would like to get a information
on my application No 2068 Enlargement Permit No 129
as I have the Extension ditch finished and put the water to
Beneficial use on my Desert Claim as I have paid 15 cents per acre
will I have to pay on the same land a gain as I am interested in three
ditches I suppose I will have to have three Blank form and
each party will have to give what is on his own land
will I have to put my Permit No 129 on my Desert claim in the
same blank as the old ditch The way we have been a doing with
the water in our garden ship ditch one of uses all the water
and the other party take it and if we do not use it we turn
it back in the creek

Know if it is not to much bother
Please let me know about my Desert Claim

Mr. John Zimmerman,

Westfall, Oregon.

Dear Sir,-

I am in receipt of your inquiry of the 1st inst., relative to a right of way of your ditch across the land of another. I am of the opinion that all patents from the United States are made subject to rights of way for ditches, canals, reservoirs, etc., and it is probable that you can continue to divert the water across this land. However, there is a ruling of the Interior Department requiring anyone constructing a ditch on government land to secure a right of way. I assume that you have not, as yet, secured this right of way and I am uncertain what the department would hold in your case.

I would suggest therefore that you write the local Land Office at Vale for advice.

Very respectfully,

John H. Lewis.

State Engineer.

STATE OF OREGON

OFFICE OF THE
STATE ENGINEER

JOHN H. LEWIS, STATE ENGINEER
PRESIDENT OF THE BOARD OF CONTROL
SECRETARY OF THE DESERT LAND BOARD
PERCY A. CUPPER
ASSISTANT STATE ENGINEER

SALEM, OREGON March 19, 1912.

Mr. John Zimmerman,
Westfall, Oregon.

Dear Sir:

I enclose herewith Application No 2068 , ~~xxx~~ ,
being Enlargement Permit No.129 , which has been approved and recorded
in this office. I am also enclosing one tracing map . It is not necessary
to record this in your county, or to publish notice of its issuance. This
permit is not a water right, but is, in a way, a contract between you and the
State. It should be held by the owner of the right, and not disposed of in
making final proof on desert land, or for any other purpose.

You should make annual proof under this permit upon the forms attached
hereto. Within the time as limited by the State Engineer for the beginning of
construction, for completion, and for the application of water to beneficial
use, you should fill out the proper blank, detach, and mail to the Secretary,
Board of Control, Salem, Oregon. If more than one year is allowed for comple-
tion of construction you should give on the proper blank a detailed description
of the work performed each year so that the Board may judge as to whether or not
the law is being complied with as to the prosecution of work with reasonable
diligence.

Final proof will be taken by the Board, through the proper division
superintendent, as soon as possible after the expiration of time for the com-
plete application of water to beneficial use, or any extension thereof. The
Board of Control will thereafter issue a "Certificate of Water Right" to be
recorded with the county clerk of the proper county, which to your water title
will correspond to a patent from the United States as foundation for your land
title.

Should it be impossible for you to complete the work or to put the
water to beneficial use before the expiration of the time fixed in the permit,
you should, if you have good reasons for so doing, apply to the State Engineer
for an extension of time. All such requests must be received before the date
of expiration, otherwise you will have to re-file and lose something in priority
by your neglect. No extension of time can be granted for the beginning of
work, nor in any case where request is made after the expiration of the time
limit as fixed in the permit.

Any assignment of this permit should be made in writing and recorded
in the State Engineer's office at Salem. The assignee should make all proofs
required after date of assignment.

Water belongs to the land it irrigates and not to the ditch, or ditch
owner. The transfer of land will carry with it the water appurtenant thereto.

Failure to fill out and mail the annual proofs required by the Board
may jeopardise your rights under this permit and result in its cancellation
after proper notice, as the law provides that proof must be made "to the satis-
faction of the Board of Control".

Respectfully yours,

John H. Lewis.

State Engineer.
