INTEROFFICE MEMO

FORWARD TO: Lisa Jaramillo DATE: 11-21-06
FIELD PROCESSOR WORKING ON THIS TRANSFER

FROM: X WATERMASTER, DISTRICT # 16
GROUNDWATER SECTION

(SIGNATURE) Michael L. McCord date signed 11-24-06
signed by injury reviewer

SUBJECT: WATER RIGHT TRANSFER # 10264 - GR mid. 493

A change in: POU POD POA USE of water.

In the name(s) of Pictsweet Company

In my opinion (assuming the right is valid), the proposed change

MAY BE MADE WITHOUT INJURY * WOULD RESULT IN INJURY * to an existing water right.

*The approval of this transfer application would result in injury to other water rights because _____

* Just to be clear, the GR is limited to 25,000 GPD. Pumping at the max. rate will only allow +/- 83 minutes of use per day.

The existing right may not be valid because ✓ - I have no reason to suspect that the claim is not valid.

Headgate notices HAVE HAVE NOT Been issued for diversion from the source(s) which serve(s) this right.

If for change in point of diversion, is there any intervening point(s) for diversion between the authorized and proposed points of diversion? (Yes or No) Yes, numerous, Both GR & permitted rights

In my opinion, the order approving the subject transfer application should include the following in regard to the appropriator installing suitable measuring devices in the diversion works:

✓ (1) PRIOR to the diverting of water at the new point of diversion . . .

_____ (2) WHEN IN the judgement of the watermaster it becomes necessary . . .

The enclosed copy of the transfer application and map(s) is for your records.
