INTEROFFICE MEMO

FORWARD TO: Kelly Starnes
FIELD PROCESSOR WORKING ON THIS TRANSFER

DATE: 7-25-06

FROM: X WATERMASTER, DISTRICT # 2
GROUNDWATER SECTION

(SIGNATURE) Wishard J. Prattick *date signed 11-8-06*
signed by injury reviewer

SUBJECT: WATER RIGHT TRANSFER # 10216

A change in: POU APOD POA USE of water.

In the name(s) of Emily + Richard Gynnann

In my opinion (assuming the right is valid), the proposed change

MAY BE MADE WITHOUT INJURY WOULD RESULT IN INJURY* to an existing water right.

*The approval of this transfer application would result in injury to other water rights because _____

NOTE: The Map Missidentifies the PLC corners as Y&Z corners
PLCs don't have Y&Z
And this map seems to relocate the POD which I think
we can all agree it can NOT w/out a POD transfer too.

The existing right may not be valid because _____

Headgate notices HAVE HAVE NOT Been issued for diversion from the source(s) which serve(s) this right.

If for change in point of diversion, is there any intervening point(s) for diversion between the authorized and proposed points of diversion? (Yes or No) see POD 1 for 43470
PODs are very close

In my opinion, the order approving the subject transfer application should include the following in regard to the appropriator installing suitable measuring devices in the diversion works:

- _____ (1) PRIOR to the diverting of water at the new point of diversion . . .
- X (2) WHEN IN the judgement of the watermaster it becomes necessary . . .

The enclosed copy of the transfer application and map(s) is for your records.
