SUBJECT: FIELD SURVEY AND INSPECTION

On May 4, 1992 Dwight French and I met Gene Hiatt on the property covered by this SWR. We made a plane table survey on the meadow pasture that is presently being irrigated. This area is considerably less than shown on the map prepared by Guile, CWRE #166. We put the field notes on a copy of the Guile map. We started our survey at a 1" galvanized pipe which is on the south side of the road at the NE corner of the Hiatt property. The survey we made fits quite well with Guiles map.

re: SWR-31

Dear Mr. Hiatt,

In regards to our telephone conversation, I would like to confirm my planned visit to your property. We intend to arrive in the afternoon of May 5, 1992. We have two inspections to make in the morning and then will travel to your property. I expect it will take monday afternoon and part of tuesday to complete the survey of beneficial use on your property. If there are any changes in plans we will let you know.

Sincerely,

Don Knauer

SUBJECT: field inspection

Dwight French and I met with Gene Hiatt who is father of Richard Hiatt. He showed us around the property and the water use. There is a 1" plastic pipe at the diversion point he is using at this time. There is a 3" steel pipe in the channel which is not being used at this time. The map prepared by Charles Guile is an application map and includes proposed areas to be irrigated. There is need of a map showing the actual areas of beneficial use.

The survey would be about a one day job with a plane table and alidade for a two man crew.

He gave me a copy of a land patent which I added to the file.

Surveyed July 15 1954.

No one at place. Harl works for SP & plans on developing
place after retirement. Mrs Harl lives on place part of the time.
Information fr neighbor across road - Mr. Dyes. Only apparent
water source in use is from stream designated stream B on
applicant's map. This stream flows from swampy area S of
house to ditch along road. Domestic water & lawn & garden irrig
apparently from this stream. There is a shallow well pressure
system w/ 15 gal tank & 3/4 hp Berkeley motor. I found parts
of an old flume from cleared area to old logging road between
Cr. "A" & fields. Flume couldn't have been used for several years
No evidence of ditches in or into cleared area. Approx 200 clear
- balance fern & brush. Some old steel pipe piled in field -
neighbor says Harl got it for future use.

No evidence of use under appl 18710 if applicant's
maps are reasonably accurate.

REPORT OF PERSON MAKING INSPECTION

(For use by Representative of State Engineer)

I,, do hereby certify that I have made an inspection of the works described herein and in Permit No., on the day of, 19....., and found the foregoing statements and descriptions of works to be accurate. In my opinion the appropriation has been completed to the extent of
(Quantity of water in second-feet or acre-feet)
and I recommend the issuance of water right certificate for this amount.

NOTICE TO INSPECTORS

If conditions do not justify the above report by you, please return the proof without your signature, with a full report by letter.

(Name)

(Title)

No one home at time of inspection. Info from inspection of Mr Dyas from across Road. Stream B flows from swampy area south of house to road then in ditch along road then thru culvert. Down water & for garden yard from this stream by shallow well pressure system 15 gal tank 3/4 hp Berkeley. Hoses & garden type sprinklers apparently used. Evidence that some construction may have been done to divert water from stream A (Appl 18718). Parts of old flume up to old logging road on west side of prop. & nothing across road. If flume & ditches were ever in place to use water it would have to have been quite a number of years ago.

CERTIFICATE OF WATER RIGHT

RECEIVED

APR 09 1991

WATER RESOURCES DEPT.
SALEM, OREGON

This Is to Certify, That JOSEPH AND ROSE HARL

of McKenzie Bridge, State of Oregon, has made proof to the satisfaction of the STATE ENGINEER of Oregon, of a right to the use of the waters of an unnamed stream "B" a tributary of Horse Creek (McKenzie River) for the purpose of domestic use for one house and irrigation under Permit No. 14490 of the State Engineer, and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from July 12, 1940,

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.01 cubic foot per second,

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 22, Township 16 South, Range 5 East, W. M.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 $\frac{1}{2}$ acre feet per acre for each acre irrigated during the irrigation season of each year.

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

0.5 acres and 1 house domestic in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ SE $\frac{1}{4}$
Section 22
Township 16 South, Range 5 East, W. M.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described.

WITNESS the signature of the State Engineer, affixed

this 18th day of May, 19 56.

Levin A. Stanley
State Engineer
