Subject: RE: R-87376, Dave Obrist - ODFW site visit, in-/off-channel

Jeana,

Thanks for bringing this to my attention. I had Terry conduct a site visit last Wednesday (8/19). She met Dave Obrist on site, and he showed her the property. Terry's findings: The proposed pond location is definitely in-channel.

Subject: R-87376, Dave Obrist - ODFW site visit, in-/off-channel

Hi Sabrina -

I just spoke with Danette Faucera, ODFW, who did a site visit yesterday at Mr. Obrist's place. She said the pond was in-channel and there was water in the channel. I mention this to you because your review of the application noted the Quad map showed the pond off-channel (which is also what the application form indicates).

The in- /off-channel determination will change the conditions we put on any permit (if one is issued), so I wanted to touch base with you about this. I wasn't sure if you're familiar with the area, want to talk with Danette, or possibly do a site visit? Anyway, I would feel better sharing this with you and getting your response.

Thanks,

Jeana Eastman

WATERMASTER ALTERNATE RESERVOIR APPLICATION REVIEW SHEET

Recommendations for Water Right Applications under the Alternate Reservoir review process (ORS 537.409)

In lieu of the water right application process set forth in ORS 537.140 to 537.211, an owner of a reservoir may submit an alternate reservoir application for a reservoir that has a storage capacity less than 9.2 acre-feet or a dam or impoundment structure less than 10 feet in height. ORS 537.409 describes the criteria used to evaluate alternate reservoir applications.

The review shall be limited to issues pertaining to: a) water availability, b) potential detrimental impact to existing fishery resources; and c) potential injury to existing water rights. (ORS 537.409 (6))

Within 60 days after the department provides public notice...any person may submit detailed, legally obtained information in writing, requesting the department to deny the application for a permit on the basis that the reservoir: (a) Would result in injury to an existing water right; or (b) Would pose a significant detrimental impact to existing fishery resources. (ORS 537.409 (5))

The review of alternate reservoirs is limited to these criteria only.

Date: May 15, 2009
Please return to WRAD before: June 19, 2009
Water is available: Jan - Dec

DAVE OBRIST
PO BOX 2560
CLACKAMAS OR 97015

1) Does the proposed reservoir have the potential to injure existing water rights? NO / YES

Explain: Senior rights exist on Parrott Creek

2) Can conditions be applied to mitigate the potential injury to existing water rights? NO / YES

If YES, which conditions are recommended:

According to the USGS Canby Quadrangle Map (7.5 Minute series), the requested reservoir is off-channel. The main source (run-off) is likely not available year round. However, the applicant has also requested POD 2 (Parrott Creek). Storage should be limited to November - June, and POD 2 should not be exercised outside the same time frame.

3) Did you meet with staff from another agency to discuss this application? NO / YES
