Application History

Permit G-10223 was issued by the Department on January 3, 1984. The permit called for completion of construction by October 1, 1985, and complete application of water to beneficial use by October 1, 1986. On May 29, 2008 the City of Aumsville submitted an application to the Department for an extension of time for Permit G-10223. In accordance with OAR 690-315-0050(2), on August 4, 2009, the Department issued a Proposed Final Order proposing to extend the time to complete construction to October 1, 2012 and to extend the time to fully apply water to beneficial use to October 1, 2012. The protest period closed September 18, 2009 in accordance with OAR 690-315-0060(1). No protest was filed.

At time of issuance of the Proposed Final Order the Department concluded that, based on the factors demonstrated by the applicant, the permit may be extended subject to the following conditions:

CONDITIONS

1. Development Limitations

Diversion of any water beyond 0.0 cfs from Lucas Well (Well 1) and 0.45 cfs from New Park Well (Well 2) under Permit G-10223 shall only be authorized upon issuance of a final order approving a Water Management and Conservation Plan (WMCP) under OAR

Chapter 690, Division 86. The required WMCP shall be submitted to the Department within 3 years of an approved extension application. Use of water under Permit G-10223 must be consistent with this and subsequent WMCP's approved under OAR Chapter 690, Division 86 on file with the Department.

The deadline established in this PFO for submittal of a WMCP shall not relieve a permit holder of any existing or future requirement for submittal of a WMCP at an earlier date as established through other orders of the Department. A WMCP submitted to meet the requirements of this order may also meet the WMCP submittal requirements of other Department orders

The applicant has demonstrated good cause for the permit extension pursuant to ORS 537.630, 539.010(5) and OAR 690-315-0080(3).

Order

The extension of time for Application G-10926, Permit G-10223, therefore, is approved subject to conditions contained herein. The deadline for completing construction is extended to October 1, 2012. The deadline for applying water to full beneficial use is extended to October 1, 2012.
