This is to acknowledge the superseding secondary Application 68054 and new map. The application now describes the proposed use of 0.45 cubic foot per second of water from Pedee Creek and the reservoir for the irrigation of 35.8 acres. The additional amount of water of 0.388 cfs added to the application has received the date of priority of June 7, 1984, being the date the superseding application was received.

Our Receipt 43002 covering the additional fees in the amount of \$62 was handed to Maurice L. Benson.

Your reservoir Application R-68053 and the secondary Application 68054 are in satisfactory form and will be placed with the group to be considered for approval.

Sincerely,

WAYNE J. OVERCASH

Dear Mr. Van Diest:

REFERENCE: Files R-68053, 68054, and 68055

Your Reservoir Application R-68053 describing the proposed construction of a reservoir and storage of 8.8 acre-feet of water therein from an unnamed stream as the primary source and Pedee Creek as the supplemental source for irrigation purposes and your secondary Application 68054 describing the proposed use of 0.062 cubic foot of water per second from Pedee Creek and the reservoir for the irrigation of 5.0 acres; together with the original and 5 prints of the supporting map, and copy of the land sales contract; have been reviewed.

Also, your Application 68055 describing the proposed use of 0.02 cfs from a spring for domestic use for 2 families has been reviewed.

Our Receipts numbered 42060, 42061, and 42062 covering the fees in the amount of \$925 credited to the 3 applications, were handed to Maurice L. Benson when the applications were filed.

There are proposed minimum stream flows and policy statements effecting use of the waters of Pedee Creek. These have a tentative effective date of November 3, 1983. The use of water under the terms of permits approving your applications will be subject to these minimum stream flows, if adopted. If these minimum stream flows are adopted, there will be several months each year when natural stream flow water will not be available for rights with a priority after November 3, 1983. Waters legally stored under the terms of a permit may be used at any time as allowed under the terms of the permit. We will be able to advise you further regarding the proposed minimum stream flows after adoption of a policy by the Water Policy Review Board.

Your 3 applications are in satisfactory form and will be placed with the group to be considered for approval.

Sincerely,

WAYNE J. OVERCASH  
Senior Water Rights Examiner
