PROOF OF APPROPRIATION OF WATER

RECEIVED

This is to show evidence that

JAN 2 21985

UNITED STATES BUREAU OF LAND MANAGEMENT acting by and through its District Office **WATER RESOURCES DEPT.**office of 74 S. Alford Bureau Ore 9 SALEM, OREGON has

Address

City

State

Zip

perfected a right to the use of waters within the terms of Application R-41167, Permit R-7626,

1. Sources of water supply Unnamed Springage to Catlow Valley
2. Use livestock & Wildlife 3. Priority date 7-30-65
4. Amount stored 10.0 Acres Feet
5. Location SW $\frac{1}{4}$, SW $\frac{1}{4}$, Section 13, T. 32S, R. 31E W.M.
6. Does application map show correct location of reservoir? NO
If not, please redraft location.

AFFIDAVIT OF APPROPRIATOR

STATE OF OREGON

County of Harney ss.

I, THOMAS R. THOMPSON JR., being first duly sworn, depose and say that I have read the above and foregoing proof of appropriation of water; that I know the contents thereof, and that facts therein stated are true.

IN WITNESS WHEREOF, I have hereunto set my hand this 11th day of January, 1985.

Thomas R. Thompson Jr.

Subscribed and sworn to before me this 11th day of January, 1985.

Jeffrey S. Haskell
Notary Public for Oregon

My commission expires 7/9/88

STRUCTURAL DETAILS

7. If not in channel of a stream, state how it is filled In channel

03413318

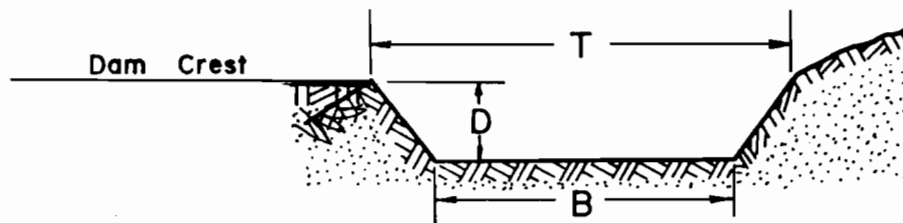

8. The maximum height is 14 feet above stream bed or ground surface at the center-line. The top width is 12 feet, slope of upstream face 3:1, slope of downstream face 2:1, and height of dam above water line when full 4 feet.

9. The dam is (check one) ☒ earthfill, ☐ concrete, ☐ flashboard, ☐ other. If "other," give description: _____

10. Give the location, description, and dimensions of the outlet conduit: None

(All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the normal flow of the stream at any time.)

11. Give the location and dimensions of the spillway Around End
(State whether over or around dam)

The bottom width of the spillway, B, is 12 feet.

The top width of the spillway, T, is 16 feet.

The distance between the crest of the dam and the crest of the spillway, D, is 4 feet.
(Must be at least 2½ feet)

If any other type of spillway, describe and give dimensions:

Application for a Permit to Construct a Reservoir and to
Store for Beneficial Use the Unappropriated
Waters of the State of Oregon

I, Bureau of Land Management
(Name of Applicant)
of Oregon
(Mailing Address)

State of _____, do hereby make application for a permit to construct the
following described reservoir and to store the unappropriated waters of the State of Oregon, subject to
existing rights.

If the applicant is a corporation, give date and place of incorporation _____

1. The name of the proposed reservoir is K. C. Reservoir 02-R-431

2. The name of the stream from which the reservoir is to be filled and the appropriation made is
Unnamed
tributary of unnamed

3. The amount of water to be stored is 2.0 acre feet.

4. The use to be made of the impounded water is livestock and wildlife
(Irrigation, power, domestic supply, etc.)

The location of the proposed reservoir will be in Sec. 13
(Give sections or townships to be submerged)
Tp. 32 S., R. 31 E., W.M., in the county of Harney

(a) State whether situated in channel of running stream and give character of material at outlet
Intermittent streams

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give
name and dimensions surface runoff

5. The dam will be located in SW 1/4 Sec. 13
(Smallest legal subdivisions)
Tp. 32 S., R. 31 E., W.M. The maximum height will be 10 feet above stream bed or ground
surface on center line of dam. The length on top will be 258 feet; length on
bottom 160 feet; width on top 12 feet; slope on front
or water side 3:1; slope on back 2:1; height of dam above water line
(Feet horizontal to 1 vertical) (Feet horizontal to 1 vertical)
when full 11.0 feet.

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured
without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to the following limitations and conditions: The right herein granted is limited to the construction of K.C. Reservoir and storage of water from an unnamed stream for livestock and wildlife, and is subject to the installation and maintenance of an outlet pipe, or to provide other means to evacuate the stored water when determined by the Water Resources Director to be necessary to satisfy prior downstream rights.

The right hereunder shall be limited to the storage of 2.0 acre feet.

The priority date of this permit is July 30, 1965.

Actual construction work shall begin on or before August 17, 1979 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1980.

WITNESS my hand this 17th day of August, 1978.

Gentlemen:

As discussed at the meeting in your office October 25, 1978, we now have the approved form for the Proof of Appropriation regarding the reservoir filings made by your office and the others around the state. We have entered the BLM number for all of those for which we had one in the upper right corner for your convenience.

If you would please fill out the affidavits in ink either by physical inspection on the site or from documents of physical inspections you have made, this will complete the entries necessary on the forms. Once that has been accomplished, you should sign before a notary public each of the affidavits prior to submitting them back to this office. We will then, on a random basis, check several of the proofs received to verify that they are in fact the same physical characteristics that are found on the ground. This will enable us to defend our position of utilizing the Proof of Appropriator system for your stock ponds. We will then begin issuing the water right certificates on the many filings.

We were successful in changing the law regarding the filing of the certificates with the county clerks so there is no longer the \$2.00 filing fee for each certificate required. For your convenience, there is a list attached showing the application and permit numbers associated with each file as used by this office. If you have any further questions regarding this operation, please feel free to contact me.

I am very pleased that all of the BLM offices were receptive to this operation wherein both agencies are able to save time and money regarding the issuance of the water right certificates. It is not often that agencies such as ours are able to accomplish this type of cooperation in saving the public's money. Thank you for your efforts.

Sincerely,

Bruce A. Estes, Supervisor
Survey Certificate Section

September 7, 1965

Bureau of Land Management
74 S. Alvord Avenue
Burns, Oregon

Gentlemen:

This will acknowledge two applications, one for a permit to construct Upper Reservoir for the storage of 2.4 acre feet of water from Waterhole Canyon Creek for livestock and wildlife use and one for a permit to construct K. C. Reservoir for the storage of two acre feet of water from an unnamed stream for livestock and wildlife use.

The applications have been filed in the order of their acknowledgment under files numbered R-41167 and R-41168.

Your application for permit to construct K. C. Reservoir does not specify the height of the dam to be constructed. This is required in Item 6. Application numbered R-41168 is in satisfactory form and may be considered for approval by issuance of a permit.

Application numbered R-41167 is returned for completion with our statement for fees necessary to both applications, reference your Purchase Order No. 36-020-30. The application has been endorsed so that in order to retain its date of priority it must be returned to this office on or before November 8, 1965.

Very truly yours,

CHRIS L. WHEELER
State Engineer
