# Application for a Permit to Use Ground Water

Please type or print in dark ink. If your application is found to be incomplete or inaccurate, we will return it to you. If any requested information does not apply to your application, insert "n/a." Please read and refer to the instructions when completing your application. A summary of review criteria and procedures that are generally applicable to these applications is available at [www.wrd.state.or.us/OWRD/PUBS/forms.shtml](http://www.wrd.state.or.us/OWRD/PUBS/forms.shtml).

2. PROPERTY OWNERSHIP

Yes (Please check appropriate box below then skip to section 3 'Ground Water Development')

- There are no encumbrances
This land is encumbered by easements, rights of way, roads or other encumbrances (please provide a copy of the recorded deed(s))

No (Please check the appropriate box below)

- I have a recorded easement or written authorization permitting access.
I do not currently have written authorization or easement permitting access.
Written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigated and/or domestic use only (ORS 274.040).

You must provide the legal description of: (1) the property from which the water is to be diverted, (2) any property crossed by the proposed ditch, canal or other work, and (3) any property on which the water is to be used as depicted on the map.

List the names and mailing addresses of all affected landowners.

See Attached Landowner list

3. GROUND WATER DEVELOPMENT

A. Well Information

Number of well(s): 2

Name of nearest surface water body: Lost River Div. Chl.

Distance from well(s) to nearest stream or lake:

1) Well #1 - 0.5 miles 2) Well #2 - 0.5 mile 3) 4)

If distance from surface water is less than one mile, indicate elevation difference between nearest surface water and well head:

1) 135 ft 2) 135 ft 3) 4)

B. Well Characteristics

Wells must be constructed according to standards set by the Department for the construction and maintenance of water wells. If the well is already constructed, please enclose a copy of the well constructor's log and the well ID number, if available, for each well with this application. Identify each well with a number corresponding to the wells designated on the map and proceed to section 4 of the form. If the well has not been constructed, or if you do not have a well log, please complete the following:

Well(s) will be constructed by:

See attached Well Logs -
Well #1 Klamath 12813
Well #1 Klamath 12811

RECEIVED

OCT 21 2009

WATER RESOURCES DEPT
SALEM, OREGON

Mailing Address:

City State Zip

Completion Date: 1959 (tank)

Please provide a description of your well development. *(Attach additional sheets if needed.)*

Well No.	Diameter	Type and size of casing	No. of feet of casing	Intervals casing is perforated (in feet)	Seal depth	Est. depth to water	Est. depth to water bearing stratum	Type of access port or measuring device	Total well depth
1	see log								
2	see log								

Note: Well numbers in this listing must correspond to well locations(s) shown on accompanying map.

If well log is not available, or well is not yet constructed, you must provide: proposed total depth, depth of casing and seal, and the anticipated perforation and open intervals.

C. Artesian Flows

If your water well is flowing artesian, describe your water control and conservation works:

N/A

4. WATER USE

Please read the instruction booklet for more details on "type of use" definitions, how to express how much water you need and how to identify the water source you propose to use. You must fill out a supplemental form for some uses as they require specific information for that type of use.

A. Type(s) of Use(s)

See list of beneficial uses provided in the instructions.

- If your proposed use is **domestic**, indicate the number of households to be supplied with water: N/A
- If your proposed use is **irrigation**, please attach **Form I**
- If your proposed use is **mining**, attach **Form R**
- If your proposed use is **municipal or quasi-municipal**, attach **Form M**
- If your proposed use is **commercial/industrial**, attach **Form Q**

License No. 145 Dated Apr. 15, 1958

B. Amount of Water

Provide the production rate in gallons per minute (gpm) and the total annual amount of water you need from each well, from each source or aquifer, for each use. You do not need to provide source information if you are submitting a well log with your application.

Well No.	Source or aquifer	Type of use	Total rate of water requested (in gpm)	Total annual quantity (in gallons)	Production rate of well (in gpm)
1	ground water	municipal	317	72619591	317
2	ground water	municipal	230	52689293	230

C. Maximum Rate of Use Requested

What is the maximum, instantaneous rate of water that will be used? 547 gpm

(The fees for your application will be based on this amount.)

D. Period of Use

Indicate the time of year you propose to use the water: year round

(For seasonal uses like irrigation give dates when water use would begin and end, e.g. March 1-October 31.)

E. Acreage

If you will be applying water to land, indicate the total number of acres where water will be applied or used: N/A

(This number should be consistent with your application map.)

5. WATER MANAGEMENT

A. Diversion

What method will you use to divert water from the source?

Pump (give horsepower and pump type): 40 hp submersible pumps

other means (describe): \_\_\_\_\_

B. Transport

How will you transport water to your place of use?

Ditch or canal (give average width and depth):

Width \_\_\_\_\_ Depth \_\_\_\_\_

Is the ditch or canal to be lined?  Yes  No

Pipe (give diameter and total length):

Diameter 6" & 8" Length 16000'

other, describe: \_\_\_\_\_

RECEIVED

OCT 21 2009

WATER RESOURCES DEPT  
SALEM, OREGON

**C. Application/Distribution Method**

What equipment will you use to apply water to your place of use?

Water is not applied to land

Irrigation or land application method (check all that apply):

- Flood
- High pressure sprinkler
- Low pressure sprinkler
- Drip
- Water Cannons
- Center pivot system
- Hand Lines
- Wheel Lines
- Siphon tubes or gated pipe with furrows
- other, describe: \_\_\_\_\_

Distribution method

- Direct pipe from source
- In-line storage (tank or pond)
- Open Canal

**E. Conservation**

What methods will you use to conserve water? Why did you choose this distribution or application method? Have you considered other methods to transport, apply, distribute or use water? For example, if you are using sprinkler irrigation rather than drip irrigation, explain. If you need additional space, attach a separate sheet.

System is a municipal water distribution system for domestic use. Conservation will be maintained by metering individual services and by maintaining a leak free system.

**6. PROJECT SCHEDULE**

Indicate the anticipated dates that the following construction tasks should begin. If construction has already begun, or is completed, please indicate that date.

Proposed date construction will begin: 1956

Proposed date construction will be completed: 1959

Proposed date beneficial water use will begin: 1959

**7. REMARKS**

*If you would like to clarify any information you have provided in the application, please do so here and reference the specific application question you are addressing.*

Water use was developed when the Air Force built the housing development in the 1950's. No water rights were filed at the time of construction.

**RECEIVED**

OCT 21 2009

WATER RESOURCES DEPT  
SALEM, OREGON

## 8. MAP REQUIREMENTS

The Department cannot process your application without accurate information showing the source of water and location of water use. You must include a map with this application form that clearly indicates the township, range, section, and quarter/quarter section of the proposed well location and place of use. The map must provide tax lot numbers. See the map guidelines sheet for detailed map specifications.

## 9. SIGNATURE

By my signature below I confirm that I understand:

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application packet.
- I cannot legally use water until the Water Resources Department issues a permit to me.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be canceled.
- The water use must be compatible with local comprehensive land use plans.
- Even if the Department issues a permit, I may have to stop using water to allow senior water right holders to get water to which they are entitled.

I swear that all information provided in this application is true and correct to the best of my knowledge:

Cecil C. Melcalf  
Signature of Applicant (If more than one applicant, all must sign.)

10-19-2009  
Date

Before you submit your application be sure you have:

- Answered each question completely.
- Attached a legible map which includes township, range, section, quarter/quarter and tax lot number.
- Included a Land Use Information Form or receipt stub signed by a local official.
- Included the legal description of all the property involved with this application. You may supply a copy of the deed, land sales contract, or title insurance policy, to meet this requirement.
- Included a check payable to the Oregon Water Resources Department for the appropriate amount. The Department's fee schedule can be found at [www.wrd.state.or.us](http://www.wrd.state.or.us) or call (503) 986-0900.

## Oregon Water Resources Department

### FORM M

#### FOR MUNICIPAL AND QUASI MUNICIPAL WATER SUPPLIES

*Unless otherwise noted, water use information should be in acre-feet per year (AFY).  
1 acre-foot is equal to 325,851 gallons.*

#### Background Information

Name of water supplier: Falcon Heights Water and Sewer District

Name and size of area to be served: Falcon Heights Water and Sewer District, approximately 1/2 square mile  
*(in square miles)*

Present population of service area: 725  
*(Contact county planning staff, if needed.)*

Projected population in 20 years: 725, 2009 Falcon Heights Water and Sewer District Water Master Plan  
*(Cite source and year. For example: "20,595 Based upon 1995 Portland State University projections.")*

List present water rights and permits held:

Date of Issuance:	Natural Source of Water:	Amount Permitted:	Utilization:
<u>None</u>			
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____

#### Water Use

Average **yearly** demand: 192.28 AFY                      Year: 2008

Per-capita daily consumption (in gallons): 237  
*(Divide average annual water sales by population to arrive at consumption, then divide by 365 to get daily values.)*

**Peak season** (by month/day): June 1 to Sept. 30      **Total peak season** demand: 126.19 Acre-feet

**Peak season** per-capita daily consumption: 468.73  
*(Divide total peak season demand by population and the number of days during the peak.)*

Annual amount of water:

Produced: 192.28  
*(diverted or pumped)*

Delivered: 192.28

Is your system fully metered?       Yes       No

Describe your rate structure: flat rate, \$10.64 per month residential service  
*(e.g. flat rate, increasing or decreasing block rate or combination of different systems)*

**RECEIVED**  
**OCT 21 2009**  
WATER RESOURCES DEPT  
SALEM, OREGON

Request for Water

A. Discuss the reason(s) for your request for additional water

(e.g. loss of current supply, peak demand, growth, or other):

The Falcon Heights Housing Development was originally constructed in the late 1950's by the US Air Force for use as military housing for Kingsley Field military personnel. The development was abandoned by the military and lay dormant for a number of years until the 1990's when it was acquired by SOCO Development, Inc. (a tax exempt IRS 501(c) (3) organization) for use as low income housing. The development was rehabilitated with new service lines installed to many of the units and the housing development was re-opened in 1998 and is currently being managed and run by the Falcon Heights Condominium Association. No water right was filed when the development was originally constructed by the Air Force. The recently development of the Master Water Plan showed the water right deficiency and the need for this filing.

B. How long is the amount of water requested in this application expected to meet future needs?

(e.g. until the year 2040) until 2030

C. Briefly discuss operation of water system and the most constraining component of the system:

See attached Water Master Plan

D. Percentage of water use by type:

Residential: 95.70%	Commercial: 0%
Public Authority: 3.30%	Agricultural: 1.00%
Unaccounted for use: 0%	Industrial: 0%
Other (specify use): 0%	

E. List cost to implement proposed request.

Compare cost and benefits with other water supply, or combination of supply options. This should include water efficiency measures such as replacing current showerheads with low-flow types. (Attach documentation, as available.)

System has been built and has been in operation since the late 1950's/ Costs involved will involve fees with filing the water right application. Recommendations for system improvements have be set forth in the 2009 Water Master Plan (attached)

F. How and by how much will your proposed water use efficiency programs increase efficiency?

(Express as a percentage of per-capita consumption.)

See attached 2009 Water Master Plan

## NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdictions where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you.

## NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

# Oregon Water Resources Department Land Use Information Form

THIS FORM IS NOT REQUIRED IF: 1) water is to be diverted, conveyed, and/or used only on federal lands; or 2) the application is for a water-right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and all of the following apply: a) only the place of use is proposed for change, b) there are no structural changes, c) the use of water is for irrigation, and d) the use is located in an irrigation district or exclusive farm-use zone.

Applicant Name: Falcon Heights Water and Sewer District

Mailing Address: 10301 Preddy Avenue

Klamath Falls OR 97630 Daytime Phone: 541-882-1869

### A. Land and Location

Please include the following information for all tax lots where water will be diverted (taken from its source), conveyed (transported), or used. Applicants for municipal use, or irrigation uses within irrigation districts may substitute existing and proposed service-area boundaries for the tax-lot information requested below.

Township	Range	Section	¼ ¼	Tax Lot #	Plan Designation (e.g. Rural Residential/RR-5)	Water to be:			Proposed Land Use:
39S	9E	34	SW NW	See Attached	R2	<input checked="" type="checkbox"/> Diverted	<input checked="" type="checkbox"/> Conveyed	<input checked="" type="checkbox"/> Used	municipal
39S	9E	34	NE SW	See Attached	R2	<input type="checkbox"/> Diverted	<input checked="" type="checkbox"/> Conveyed	<input checked="" type="checkbox"/> Used	municipal
39S	9E	34	NW SW	See Attached	R2	<input type="checkbox"/> Diverted	<input checked="" type="checkbox"/> Conveyed	<input checked="" type="checkbox"/> Used	municipal
39S	9E	34	SWSW, SE, SW	See Attached	R2	<input type="checkbox"/> Diverted	<input checked="" type="checkbox"/> Conveyed	<input checked="" type="checkbox"/> Used	municipal

List all counties and cities where water is proposed to be diverted, conveyed, or used:

Klamath Falls, Klamath County

RECEIVED

### B. Description of Proposed Use

OCT 26 2009

Type of application to be filed with the Water Resources Department:

- Permit to Use or Store Water
- Water-Right Transfer
- Exchange of Water
- Allocation of Conserved Water
- Limited Water Use License
- Permit Amendment of Ground Water Registration Modification

WATER RESOURCES DEPT  
SALEM, OREGON

Source of water:  Reservoir/Pond  Ground Water  Surface Water (name) \_\_\_\_\_

Estimated quantity of water needed: 547  cubic feet per second  gallons per minute  acre-feet

Intended use of water:  Irrigation  Commercial  Industrial  Domestic for \_\_\_\_\_ household(s)  
 Municipal  Quasi-municipal  Instream  Other \_\_\_\_\_

Briefly describe:

The Falcon Heights Housing Development was originally constructed in the late 1950's by the US Air Force for use as military housing for Kingsley Field military personnel. The development was abandoned by the military and lay dormant for a number of years until the 1990's when it was acquired by SOCO Development, Inc. (a tax exempt IRS 501(c) (3) organization) for use as low income housing. The development was rehabilitated with new service lines installed to many of the units and the housing development was re-opened in 1998 and is currently being managed and run by the Falcon Heights Condominium Association. No water right was filed when the development was originally constructed by the Air Force. The recently development of the Master Water Plan showed the water right deficiency and the need for this filing

Note to applicant: If the Land Use Information Form cannot be completed while you wait, please have a local government representative sign the receipt below and include it with the application filed with the Water Resources Department.

### Receipt for Request for Land Use Information

State of Oregon Water  
Resources Department  
725 Summer Street NE, Suite A  
Salem, OR 97301-1266

## For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

**Please check the appropriate box below and provide the requested information**

- Land uses to be served by proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): KCLDC AVA 5.1.3 - ZONE: R2
- Land uses to be served by proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.)  
**If approvals have been obtained but all appeal periods have not ended, check "Being pursued".**

Type of Land-Use Approval Needed (e.g. plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:	
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being pursued <input type="checkbox"/> Not being pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being pursued <input type="checkbox"/> Not being pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being pursued <input type="checkbox"/> Not being pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being pursued <input type="checkbox"/> Not being pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being pursued <input type="checkbox"/> Not being pursued

Local governments are invited to express special land-use concerns or make recommendations to the Water Resources Department regarding this proposed use of water below, or on a separate sheet.
