RE: Clarification of use

---

---

On December 17, 2007, I spoke with the applicant, Mark Beam, on behalf of Odell Sanitary District, to clarify the use.

Per Mark Beam, the proposed use is pollution abatement, not industrial/commercial. This is verified by the email he sent December 17, 2007.

Brook:

Thank You for the update on our application. As I stated on the phone the intended use of the water is for dilution prior to discharge. Pollution Abatement is the correct catagory.

Thank You again

Per our conversation this morning, it is my understanding your requested use for this application is "Pollution Abatement ", (The use of water to dilute, transport or prevent pollution). If you could send us an email, fax or letter stating your clarified use is not commercial/industrial, but Pollution Abatement, you r application file can be updated and the application process will move forward.

Thanks,

Brook
