Gentlemen,

After I applied for water to irrigate thirty acres of land, I found my ditch was not high enough to get the water over the acreage. I enlarged the old ditch so I could cover fourteen acres instead of the thirty originally applied for.

Permit No. 2652

Replying to your letter of July 20th, I note that you intended to submit the Notice of Complete Application of Water under your permit No. 2652, which covers the appropriation of 0.38 second foot from Williams Creek for the irrigation of thirty acres.

Our records show that you submitted the Notice of Completion of Construction, but the Notice of Complete Application of Water has not yet been received. Permit No. 2652

Dear Sir:

I am in receipt of your letter of the 29th ultimo transmitting notice of prosecution of work with diligence under application No. 3860, permit No. 2142, and note from your letter that you intended this as a statement of the work under your application No. 4529, permit No. 2652, which covers the appropriation of water from Williams Creek. I am accordingly returning the notice for correction and desire to call your attention to the fact that clearing land is not considered construction work, unless it is clearing the right of way for the ditch. Your attention is also called to the fact that construction work was required to be completed under this permit on or before June 1, 1917, and that you have not filed the notice of completion of construction work.

Unless there is something radically wrong you will find blanks attached to your permits upon which to submit the required notices. However, I am enclosing blanks upon which the notices may be submitted.

Very respectfully,

RS.
