Application for a Permit to Use Surface Water

Please type or print in dark ink. If your application is found to be incomplete or inaccurate, we will return it to you. If any requested information does not apply to your application, insert "n/a." Please read and refer to the instructions when completing your application. A summary of review criteria and procedures that are generally applicable to these applications is available at www.wrd.state.or.us/OWRD/PUBS/forms.shtml.

1. APPLICANT INFORMATION

RECEIVED

FEB 02 2010

**Optional*

For Department Use		
App. No. _____	Permit No. _____	Date _____

2. SOURCE AND PROPERTY OWNERSHIP

A. The Proposed Source of Water

Provide the commonly used name of the water body from which water will be diverted, and the name of the stream or lake it flows into. If unnamed, say so:

Source 1: Galesville Reservoir Tributary to: Cow Creek
Source 2: _____ Tributary to: _____
Source 3: _____ Tributary to: _____
Source 4: _____ Tributary to: _____

If any source listed above is stored water that is authorized under a water right permit, certificate, or decree, attach a copy of the document or list the document number (for decrees, list the volume, page and/or decree name).

R9964

B. Applications to Use Stored Water

Complete this section if any source listed in item 2A above is stored water.

Do you, or will you, own the reservoir(s) described in item 2A above?

- Yes
- No. (Please enclose a copy of your written notification to the operator of the reservoir of your intent to file this application, which you should have already mailed or delivered to the operator.)

RECEIVED

FEB 02 2010

WATER RESOURCES DEPT
SALEM, OREGON

If all sources listed in item 2A are stored water, the Department will review your application using the expedited process provided in ORS 537.147, unless you check the box below. Please see the instruction booklet for more information.

By checking this box, you are requesting that the Department process your application under the standard process outlined in ORS 537.150 and 537.153, rather than the expedited process provided by ORS 537.147. To file an application under the standard process, you must enclose the following:

- A copy of a signed non-expired contract or other agreement with the owner of the reservoir (if not you) to impound the volume of water you propose to use in this application.
- A copy of your written agreement with the party (if any) delivering the water from the reservoir to you.

C. Property Ownership

Do you own all the land where you propose to divert, transport, and use water?

Yes (Please check appropriate box below then skip to section 3 'Water Use')

There are no encumbrances

This land is encumbered by easements, rights of way, roads or other encumbrances (please provide a copy of the recorded deed(s))

No (Please check the appropriate box below)

I have a recorded easement or written authorization permitting access.

I do not currently have written authorization or easement permitting access.

Written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigated and/or domestic use only (ORS 274.040).

You must provide the legal description of: (1) the property from which the water is to be diverted, (2) any property crossed by the proposed ditch, canal or other work, and (3) any property on which the water is to be used as depicted on the map.

List the names and mailing addresses of all affected landowners.

Roseburg Forest Products
PO Box 1088
Roseburg, OR 97470

3. WATER USE

Please read the instruction booklet for more details on "type of use" definitions, how to express how much water you need and how to identify the water source you propose to use. You must fill out a supplemental form for some uses as they require specific information for that type of use.

A. Type(s) of Use(s)

See list of beneficial uses provided in the instructions.

- If your proposed use is **domestic**, indicate the number of households to be supplied with water: _____
- If your proposed use is **irrigation**, please attach **Form I**
- If your proposed use is **mining**, attach **Form R**
- If your proposed use is **municipal or quasi-municipal**, attach **Form M**
- If your proposed use is **commercial/industrial**, attach **Form Q**

RECEIVED
FEB 02 2010
WATER RESOURCES DEPT
SALEM, OREGON

B. Amount of Water

Provide the amount of water you propose to use from each source, for each use, in cubic feet-per-second (cfs) or gallons-per-minute (gpm). If the proposed use is from storage, provide the amount in acre-feet (af):

(1 cfs equals 448.8 gpm. 1 acre-foot equals 325,851 gallons or 43,560 cubic feet)

Source	Type of use	Amount
Galesville Res.	Irrigation	35.68 <input type="radio"/> cfs <input type="radio"/> gpm <input checked="" type="radio"/> af
		<input type="text"/> <input type="radio"/> cfs <input type="radio"/> gpm <input type="radio"/> af
		<input type="text"/> <input type="radio"/> cfs <input type="radio"/> gpm <input type="radio"/> af
		<input type="text"/> <input type="radio"/> cfs <input type="radio"/> gpm <input type="radio"/> af

C. Period of Use

Indicate the time of year you propose to use the water: April 1 - October 1
(For seasonal uses like irrigation give dates when water use would begin and end, e.g. March 1-October 31.)

If you will be applying water to land, indicate the total number of acres where water will be applied or used: 16.0 Acres
(This number should be consistent with your application map.)

4. WATER MANAGEMENT

A. Diversion

What method will you use to divert water from the source?

- Pump (give horsepower and pump type): 30 HP
- Head-gate (give dimensions): _____
- other means (describe): _____

RECEIVED

FEB 02 2010

WATER RESOURCES DEPT
SALEM, OREGON

B. Monitoring

How will you monitor your diversion to be sure you are within the limits of your water right (allowed rate and duty) and you are not wasting water?

- Weir
- Meter
- Periodic Sampling
- other means (describe): _____

C. Transport

How will you transport water to your place of use?

Ditch or canal (give average width and depth):

Width _____ Depth _____

Is the ditch or canal to be lined? Yes No

Pipe (give diameter and total length):

Diameter 6" Length 4,000'

other, describe: _____

D. Application/Distribution Method

What equipment will you use to apply water to your place of use?

RECEIVED

FEB 02 2010

WATER RESOURCES DEPT
SALEM, OREGON

Irrigation or land application method (check all that apply):

- Flood
- High pressure sprinkler
- Low pressure sprinkler
- Drip
- Water Cannons
- Center pivot system
- Hand Lines
- Wheel Lines
- Siphon tubes or gated pipe with furrows
- other, describe: _____

Distribution method

- Direct pipe from source
- In-line storage (tank or pond)
- Open Canal

E. Conservation

What methods will you use to conserve water? Why did you choose this distribution or application method? Have you considered other methods to transport, apply, distribute or use water? For example, if you are using sprinkler irrigation rather than drip irrigation, explain. If you need additional space, attach a separate sheet.

Most efficient method of irrigation will be used as feasible.

5. RESOURCE PROTECTION

A. Protection Practices

In granting permission to use water from a stream or lake, the state encourages, and in some instances requires, careful control of activities that may affect the waterway or streamside area. See instruction guide for a list of possible permit requirements from other agencies. Please indicate any of the practices you plan to undertake to protect water resources.

- Diversion will be screened to prevent uptake of fish and other aquatic life. Describe planned actions:

ODFW approved screening on pump intake.

- Excavation or clearing of banks will be kept to a minimum to protect riparian or streamside areas. Describe planned actions:

None planned.

RECEIVED

FEB 02 2010

WATER RESOURCES DEPT
SALEM, OREGON

- Operating equipment in a water body will be managed and timed to prevent damage to aquatic life. Describe:

None planned.

- Water quality will be protected by preventing erosion and run-off of waste or chemical products. Describe:

Will employ best irrigation management practices.

- Other:

6. PROJECT SCHEDULE

Indicate the anticipated dates that the following construction tasks should begin. If construction has already begun, or is completed, please indicate that date.

Proposed date construction will begin: Existing System

Proposed date construction will be completed: Existing System

Proposed date beneficial water use will begin: June 1, 2010

Is this project fully or partially funded by the American Recovery and Reinvestment Act? (Federal stimulus dollars) Yes No

7. REMARKS

If you would like to clarify any information you have provided in the application, please do so here and reference the specific application question you are addressing.

8. MAP REQUIREMENTS

The Department cannot process your application without accurate information showing the source of water and location of water use. You must include a map with this application form that clearly indicates the township, range, section, and quarter/quarter section of the proposed points of diversion and place of use. The map must provide tax lot numbers. See the map guidelines sheet for detailed map specifications.

FEB 02 2010
WATER RESOURCES DEPT
SALEM, OREGON

9. SIGNATURE

By my signature below I confirm that I understand:

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application packet.
- I cannot legally use water until the Water Resources Department issues a permit to me.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be canceled.
- The water use must be compatible with local comprehensive land use plans.
- Even if the Department issues a permit, I may have to stop using water to allow senior water right holders to get water to which they are entitled.

I swear that all information provided in this application is true and correct to the best of my knowledge:

KA Parn

1/26/2010

Signature of Applicant (If more than one applicant, all must sign.)

Date

Before you submit your application be sure you have:

- Answered each question completely.
- Attached a legible map which includes township, range, section, quarter/quarter and tax lot number.
- Included a Land Use Information Form or receipt stub signed by a local official.
- Included the legal description of all the property involved with this application. You may supply a copy of the deed, land sales contract, or title insurance policy, to meet this requirement.
- Included a check payable to the Oregon Water Resources Department for the appropriate amount. The Department's fee schedule can be found at www.wrd.state.or.us or call (503) 986-0900.

FORM I
FOR IRRIGATION USE

1. Please indicate whether you are requesting a primary or supplemental water right, as well as the number of acres that will be irrigated for each type. The acreages must match those shown on the map submitted with your application.

Primary: 16 Acres

Supplemental: Acres (supplemental irrigation can be used only when the primary right is not available, and must match the season of the primary right)

List the permit or certificate number of the primary water right that underlies each supplemental right.

Table with 2 columns: Circle one, Season Allowed. Rows for Permit/Certificate #.

2. Indicate the maximum number of acre-feet of water you expect to use in an irrigation season:

35.68 acre-feet (typically 2.5 or 3.0 acre-feet per acre)
(1 acre-foot equals 12 inches of water spread over 1 acre, or 43,560 cubic feet, or 325,851 gallons)

3. For Limited License applications proposing to use water for irrigation. If for use of stored water, a limited license may be issued for up to one year with a valid contract for stored water per ORS 537.143(9). A limited license may also be issued for irrigation from live flow or groundwater, if the sole purpose is to establish a crop for which no further irrigation will be required after the crop is established per ORS 537.143(6)(a). Please describe the proposed project and indicate if stored water, live flow, or groundwater is to be used. When irrigation is needed to establish a crop, you must justify why more than one year is required.

AGRICULTURAL LEASE

RIDDLE AREA

This Agreement made this 1st day of January, 2006, between ROSEBURG FOREST PRODUCTS CO., hereinafter referred to as "Lessor", and CEDAR PARK GRAZING, P.O. Box T, Riddle, OR 97469, hereinafter referred to as "Lessee".

WITNESSETH:

Lessor hereby leases to Lessee certain lands for the purpose of farming and grazing domestic livestock as specifically described on Exhibits "A" as attached, encompassing 592 acres more or less.

The term of this lease shall commence January 1, 2006, and shall continue through December 31, 2010. The Lessee shall have the option to renew this lease for an additional 5 years upon termination of the initial period at rents as negotiated.

Lessee shall pay as an annual rent the sum of [REDACTED]. At least [REDACTED] shall be paid by January 10th of each lease year and the remaining [REDACTED] shall be paid by July 1st. Lessor agrees to allow an offset of up to [REDACTED] of the lease payment for capital improvements as agreed to in writing. Upon completion of the work, any portion of the [REDACTED] offset shall be deducted from payment due Lessor. Any improvement, other than agreed to as capital improvement, shall be done at lessee's own expense. All fences shall be maintained in good repair at all times so that livestock remains confined to leased premises.

Lessor reserves the right to enter upon the premises at any time for purposes of inspection, road maintenance or activities not specifically granted to Lessee.

Lessee shall indemnify and defend Lessors from any claim, loss or liability arising out of or related to any activity of the Lessee on the leased premises, or any condition of the leased premises in the possession or under the control of the Lessee. Upon commencement of the term of this lease, Lessee shall procure and thereafter during the term of this lease shall continue to carry the following insurance, listing Lessor as additional insured, at their cost.

Public liability and property damage insurance in a responsible company with limits of not less than \$1,000,000.

Such insurance shall cover all risks arising directly or indirectly out of Lessee's activities or any condition of the leased premises and shall protect both parties hereto against claims of third persons. Certificates evidencing such insurance and bearing endorsements requiring ten-day written notice to Lessors prior to any change or cancellation shall be furnished to Lessors prior to Lessee's occupancy of the premises under this lease.

RECEIVED
FEB 02 2010
WATER RESOURCES DEPT
SALEM, OREGON

This lease may not be assigned and the premises may not be subleased and occupied by any other or additional tenant without Lessor's prior written consent.

Time of payment of rental is of the essence of this lease and if any rent shall become due and unpaid, or if default shall be made by the Lessee in keeping and performing any of the covenants by it to be kept and performed, then the Lessors, at their option, may terminate this lease and reenter the said premises and remove all persons therefrom, the Lessee hereby waiving any notice to quit or of the intention of the Lessors to reenter. The foregoing, however, shall not be the exclusive remedy of the Lessors.

At the expiration of the term of this lease, or any other termination thereof, Lessee shall surrender the premises in as good condition as the same now are, reasonable use and wear thereof excepted. Any holding over beyond the term of this lease and any extension thereof shall be on a month-to-month basis and not otherwise. Lessor may terminate the lease of this property by giving 90 days notice in writing to the Lessee.

Lessor reserves the right to enter upon and use any portion of these lands at any time as he deems necessary and to cancel said lease to any portion of said property. Lessee will receive pro rata reimbursement based on the time remaining at the termination date (at a rate of \$20/acre/year) or for any portion of the leased area withdrawn by Lessor.

Waiver by either party of strict performance of any provision of this lease shall not be a waiver of any other provision or a waiver of the same provision in the future.

If suit or action is instituted in connection with any controversy arising out of this lease, the prevailing party shall be entitled to recover such sum as the court may adjudge reasonable as attorney's fees in such proceedings and any appeal thereof.

If part or all of the leased property is condemned or sold under threat of imminent condemnation, Lessors shall receive all proceeds of condemnation or sale, and Lessee shall have no claim against Lessors as a result thereof. However, if a significant portion of the leased premises is thus taken, rent shall be reduced in proportion thereto.

IN WITNESS WHEREOF, the parties hereto have executed this lease in duplicate the day and year first hereinabove written.

I-2010-3
DOUGLAS COUNTY OREGON
FILED

JAN 05 2010

**CONTRACT FOR PURCHASE OF AGRICULTURAL WATER
FROM GALESVILLE PROJECT**

BARBARA E. NIELSEN, COUNTY CLERK

This contract is made on JAN 5 2010, 20 ____ between Douglas County, a political subdivision of the State of Oregon (County), and _____
Cedar Park Grazing (Customer).

COUNTY AND CUSTOMER AGREE:**1. TERM AND RENEWAL:**

1.1. The initial term of this contract shall begin on April 1, 20 10 and end on December 31, 2019, unless it is sooner terminated as provided herein.

1.2. As used in this contract, unless the context clearly indicates otherwise, "term" or "term of this contract" shall mean both the initial term and any extension.

1.3. Customer shall have the right to extend the term of this contract for two successive periods of ten years each upon the following conditions:

1.3.1. Approximately ninety days prior to expiration of the then current contract term, County shall notify Customer in writing that Customer has the right to extend the term at the price set pursuant to section 11.

1.3.2. Customer may elect to extend the contract term by written notice to County within thirty days after County gives notice of the right to extend. Concurrently with written notice of extension Customer may request the Board of Commissioners to review and reduce the price of water in accordance with subsection 11.5.

1.3.3. No other act or agreement shall be required of the parties to effect the extension after Customer gives proper notice of election to extend the contract term. Each extension shall take effect on January 1 after Customer gives notice of extension.

1.3.4. Each extension shall commence on the day following the termination date of the initial term or the preceding extension.

1.4. The provisions of this contract shall apply to any extension except for changes in the purchase price pursuant to section 11; modifications required to comply with federal or state statutes, regulations, or administrative rules; or modifications required to comply with any contract between County and the United States concerning the Galesville Project.

1.5. Customer shall not be entitled to extend the term of this contract if Customer is in default under this contract at the time extension is requested by Customer.

2. AUTHORITY OF PUBLIC WORKS DIRECTOR:

2.1. The Director of the County Public Works Department (the Director) has authority to administer this contract on behalf of County.

2.2. The Director may delegate authority to administer this contract to the Manager of the County Public Works Department, Natural Resources Division, (the Division Manager), except for authority to establish the price of water under section 11 of this contract. The Director shall retain the right to supersede any decision of the Division Manager in the administration and interpretation of this contract.

2.3. References to the Director in this contract shall be deemed to include the Division Manager, to the extent the Director has delegated authority to the Division Manager.

3. WATER ALLOCATION: Each year during the term of this contract, County shall allocate sufficient acre feet of storage capacity in the Galesville Reservoir for Customer to irrigate 16.00 acres. This allocation shall not exceed 2.23 acre feet per acre per irrigation season as specified on the attached Exhibit A.

4. PERMITS AND CERTIFICATES OF WATER RIGHTS:

4.1. County shall file and maintain any reservoir water right permit (County's permit) and certificate to store water in the Galesville reservoir (County's certificate) allocated for the Customer's use, as required by the State of Oregon Water Resources Department or its successor (the State).

4.2. Customer, at Customer's expense, shall be responsible for obtaining any permit (Customer's permit) and certificate of water rights (Customer's certificate) for use of the stored water allocated under this contract as required by the State.

4.3. Within 6 months after the effective date of this contract, Customer shall provide County with a copy of the application map provided to the State.

5. RELEASE OF WATER:

5.1. Subject to the provisions of this contract, County will release into the natural channel of Cow Creek water comprising the allocation described in section 3. Water released for Customer's allocation shall be measured and delivered to Customer's point of diversion of record by County with equipment installed and maintained by County.

5.2. County shall report to the State of Oregon all allocated water stored and distributed to Customer's point of diversion of record, including reasonable losses. Customer shall report all water use as described on Customer's water right of record, or as otherwise may be required by the State.

5.3. The obligations of County to allocate capacity may be restricted by any lawful order, regulation, or ruling of any governmental agency or provisions of a contract between County and the United States. Such legal restrictions may impair the County's ability to perform its obligations under this contract. In that event, County shall be relieved of its obligations to the extent necessary to comply with the legal restrictions. Customer's payments under this contract shall be reduced proportionally to any reduction in Customer's allocation resulting from such legal restrictions.

5.4. Notwithstanding any other provision of this contract, County may suspend release and delivery of water to Customer upon written notice to Customer if Customer fails to make any payment for such water when due.

6. DIVERSION AND USE OF WATER:

6.1. Customer shall be wholly responsible for taking, diverting, conveying and utilizing its water and shall bear all losses from Customer's point of diversion.

6.2. Customer shall divert the water it is entitled to receive under this contract in accordance with schedules developed by the Customer and County.

6.3. The water diverted by Customer may be measured by County at the point of diversion. The point of diversion shall be accessible for inspection and measurement of water at all reasonable times by County. Any easement necessary for County to gain access to the point of diversion shall be provided by Customer when requested by County.

6.4. The water shall be utilized for agricultural uses. Customer shall utilize the water only for the uses and only on the real property described in Customer's permit and certificate.

6.5. Customer shall be responsible for purchase and installation of a meter or other suitable measuring device if required by the Oregon State Water Resources Department (OWRD). Once installed, it shall be the customer's responsibility to maintain such device in good working order. If requested by OWRD, Customer shall maintain a record of the amount of water use and report water use on such periodic schedule as may be established by OWRD.

6.6. If required, Customer shall purchase, install, maintain and operate fish screening equipment and by-pass devices to prevent fish from entering the diversion. Any required screens and/or by-pass devices shall be in place, functional and approved by the requirer, prior to diversion of any water under this contract.

7. QUALITY OF WATER: County shall operate and maintain the Galesville dam, reservoir, and related facilities in a reasonable and prudent manner, and shall endeavor in good faith to take adequate measures to maintain the quality of raw stored water at the facilities. County is under no obligation to construct or furnish water treatment facilities to maintain or improve the quality of water. **COUNTY MAKES NO WARRANTIES, EXPRESS OR IMPLIED REGARDING THE QUALITY OF WATER RELEASED AND DELIVERED FROM GALESVILLE DAM, RESERVOIR, AND RELATED FACILITIES.**

8. WATER SHORTAGES: In any year in which a water shortage in the Galesville reservoir occurs, County shall apportion the available water supply among Customer and other users who are entitled to receive water from the reservoir. The quantity of water to be furnished for irrigation shall first be reduced as necessary, but not greater than 15%. Any further reduction in the reservoir water supply shall be shared by Customer and all other users entitled to water from the reservoir in the same proportion that the entitlement of each user, including Customer's entitlement under this contract, bears to the total entitlements of all users.

9. WATER CONSERVATION: Customer acknowledges the critical need for water conservation in the Umpqua River basin. Customer shall implement reasonable and prudent water conservation measures for agricultural activities.

10. COMPLIANCE WITH LAW: This contract will be governed by and construed in accordance with laws of the State of Oregon. Each party shall perform its obligations in accordance with all applicable state, federal and local laws, rules and regulations now, or hereafter in effect.

11. PRICE OF WATER:

11.1. During the initial term, the price for the allocation stated in section 3 shall be \$ 609.50 per year.

11.2. For each discrete ten year extension of the contract term, Customer shall pay the then current rate as established by County in accordance with this section. Notice of the right to extend under subsection 1.3.1 shall state the price of water during the extension.

11.3. The Director shall periodically review and adjust the price for water taking into account the following factors:

11.3.1. The current cost of operating and maintaining the Galesville dam, reservoir, and related facilities;

11.3.2. The projected costs for operating, maintaining, and replacing Galesville water storage and delivery facilities; and

11.3.3. The price of water sold by similar facilities for similar uses.

11.4. The allocation price for each renewal term shall not be increased by more than 10% over the previous term.

11.5. Customer may request the Board of Commissioners to review and reduce the price of water established by the Director. Such request shall be in writing and shall be given with the notice of Customer's election to extend the contract term. After considering the factors listed in subsection 11.3, the Board of Commissioners may reduce or affirm the price established by the Director. If the Board of Commissioners fails to take any action on Customer's request to review and reduce the price of water within 30 days after Customer makes the request, the request shall be deemed denied. If Customer is not satisfied with the action of the Board of Commissioners, Customer may rescind Customer's election to extend the contract term and cancel the contract by written notice to County within sixty days after Customer requests the Board of Commissioners to review and reduce the price.

12. PAYMENT:

12.1. Customer shall pay County the annual price established by section 11 for the allocation stated in section 3 regardless of whether Customer uses any or all of the water allocated. Except as provided in subsection 12.2, payment shall be made no later than March 31 of each year.

12.2. If this contract is dated after March 2 in the year for which water is first to be released then the amount due for the first year only shall be payable within 30 days after the date the contract is signed by County.

12.3. Interest shall accrue on late payments at the rate of eighteen percent per annum commencing the day after the date payment is due. Customer shall pay all interest upon the request of County.

13. LIMITATIONS ON LIABILITY:

13.1. County shall not be liable for damages or other expenses sustained by Customer resulting from shortages in the quantity of water available for release, or interruptions in water deliveries to Customer, if such shortages or interruptions in deliveries are caused partially or entirely by hostile diversion, accidental damage to County facilities, operational failure of County facilities, or any cause beyond County's control.

13.2. Notwithstanding any other provision of this contract, County shall not be liable to Customer for damages caused by failure to comply with any obligation of County under this contract, if such failure results from lack of appropriation of funds necessary to perform such obligation pursuant to ORS 294.305 et seq. (Local Budget Law).

13.3. In no event shall County be liable to Customer for any indirect, special, or consequential damages even if Customer previously advised County of the possibility of such damages.

14. DEFAULT:

14.1. There shall be a default under this contract if either party materially fails to comply with any provision of this contract within thirty days after the other party gives written notice specifying the breach. If the breach specified in the notice cannot be completely cured within the thirty day period, no default shall occur if the party receiving the notice begins curative action within the thirty day period and thereafter proceeds with reasonable diligence and in good faith to cure the breach as soon as practicable.

14.2. If a default occurs, the party injured by the default may elect to terminate this contract and pursue any equitable or legal rights and remedies available under Oregon law, except that Customer's remedies shall be subject to the limitations on damages stated in section 13.

14.3. Any litigation arising out of this contract shall be conducted in Circuit Court of the State of Oregon for Douglas County.

15. SEVERABILITY: If any provision of this contract is held to be invalid, that provision shall not affect any other provision of this contract. This contract shall be construed as if such invalid provision had never been included.

16. NO WAIVER: No provision of this contract shall be waived unless the waiver is written and signed by the party that waives its rights. Any waiver of a breach, whether express or implied, shall not constitute waiver of any other breach.

17. SUCCESSORS: The successors, assigns, and legal representatives of Customer and County shall be subject to all provisions of this contract. Customer shall not assign Customer's rights or obligations under this contract without prior written consent of County.

18. NOTICES:

18.1. Any notice required to be given under this contract shall be in writing and shall be given by personal delivery or mail, except that any notice required by law shall be given in the manner specified in the applicable law.

18.2. Notices to County shall be directed to Thomas R. Manton, Division Manager, Douglas County Public Works Department, Natural Resources Division, Room 306, Douglas County Courthouse, 1036 SE Douglas Street, Roseburg, OR, 97470.

18.3. Notices to Customer shall be directed to:

Cedar Park Grazing

PO Box T, Riddle, OR 97469

19. ENTIRE AGREEMENT: This contract is the final and complete agreement of the parties and supersedes all prior and existing written or oral understandings. No modification of this contract shall be valid unless it is in writing and signed by the parties.

Total Acres:	<u>16.00</u>	acres
Total Allocation:	<u>35.68</u>	acre feet
Total Cost:	<u>\$ 609.50</u>	

Oregon Water Resources Department Land Use Information Form

WS10-0006
#5077
RCIT # P08284

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; OR
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and all of the following apply:
 - a) only the place of use is proposed for change;
 - b) there are no structural changes;
 - c) the use of water is for irrigation; and
 - d) the use is located in an irrigation district or exclusive farm-use zone.

City State Zip

A. Land and Location

Please include the following information for all tax lots where water will be diverted (taken from its source), conveyed (transported), and/or used or developed. Applicants for municipal use, or irrigation uses within irrigation districts may substitute existing and proposed service-area boundaries for the tax-lot information requested below.

Township	Range	Section	¼ ¼	Tax Lot #	Plan Designation (e.g., Rural Residential/RR-5)	Water to be:	Proposed Land Use:
30	6W	26	A	200		<input checked="" type="checkbox"/> Diverted <input checked="" type="checkbox"/> Conveyed <input checked="" type="checkbox"/> Used	
30	6W	26	B	100		<input type="checkbox"/> Diverted <input checked="" type="checkbox"/> Conveyed <input checked="" type="checkbox"/> Used	
30	6W	24 23		500		<input type="checkbox"/> Diverted <input checked="" type="checkbox"/> Conveyed <input checked="" type="checkbox"/> Used	
						<input type="checkbox"/> Diverted <input type="checkbox"/> Conveyed <input type="checkbox"/> Used	

List all counties and cities where water is proposed to be diverted, conveyed, and/or used or developed:

Douglas County

B. Description of Proposed Use

Type of application to be filed with the Water Resources Department:

- Permit to Use or Store Water
- Limited Water Use License
- Water Right Transfer
- Allocation of Conserved Water
- Permit Amendment or Ground Water Registration Modification
- Exchange of Water

Source of water: Reservoir/Pond Ground Water Surface Water (name) _____

Estimated quantity of water needed: 35.68 cubic feet per second gallons per minute acre-feet

Intended use of water: Irrigation Commercial Industrial Domestic for _____ household(s)
 Municipal Quasi-Municipal Instream Other _____

Briefly describe:

Irrigation of 16 acres from Galesville Reservoir.

Note to applicant: If the Land Use Information Form cannot be completed while you wait, please have a local government representative sign the receipt at the bottom of the next page and include it with the application filed with the Water Resources Department. See bottom of next page. →

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): 3.3.050 & 3.4.050 FG.F2

Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being pursued."**

Type of Land-Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:	
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued

Local governments are invited to express special land-use concerns or make recommendations to the Water Resources Department regarding this proposed use of water below, or on a separate sheet.
