

Oregon Water Resources Department  
Water Rights Division

Water Rights Application  
Number G-16997

**Final Order**

*Hearing and Appeal Rights*

Under the provisions of ORS 537.170 and ORS 537.622, the applicant may request a contested case hearing by submitting the information required for a protest under ORS 537.153(6) or ORS 537.621(7) to the Department within 14 days after the date of mailing of this order as shown below. If a contested case hearing is requested, the Department must schedule one. In the contested case hearing, however, only those issues based on the modifications to the Proposed Final Order may be addressed.

ORS 536.075 allows for additional appeal rights for other than contested case. This is a Final Order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

This statement of judicial review rights does not create a right to judicial review of this order, if judicial review is otherwise precluded by law. Where no changes have been made to a Proposed Final Order on a water right application and no protests have been filed during the protest period, the Final Order is not subject to judicial review.

*Application History*

On January 28, 2008, Steve Rickman submitted an application to the Department for a water use permit. The Department issued a Proposed Final Order on April 14, 2009. The protest period closed May 29, 2009, and no protest was filed.

On July 29, 2009, the applicant submitted an affidavit requesting that a portion of the underlying water rights, as evidenced by Decree Number 914015 and Decree Number 914739 (as modified by Transfer T-9737), be diminished from primary irrigation to supplemental irrigation.

On July 29, 2009, the applicant also submitted a request to amend the application to reduce the rate of water use to 2.62 CFS and to reduce the acreage irrigated to 209.4 acres. A revised map was submitted with the request.

The proposed use would not impair or be detrimental to the public interest, but the Department's continuing evaluation reveals that the Proposed Final Order requires modification to correctly describe the use as primary irrigation.

## Order

Application G-16997 therefore is approved with the above modifications to the Proposed Final Order, and Permit G-16654 is issued as limited by the conditions set forth therein.

DATED March 11, 2010

*E. Timothy Ward.*

for Phillip C. Ward, Director  
Water Resources Department

*This document was prepared by Michele McAleer. If you have any questions about any of the statements contained in this document I am most likely the best person to answer your questions. You can reach me at 503-986-0853.*

*If you have questions about how to file a protest or a request for standing, please refer to the section in this Final Order entitled "Hearing and Appeal Rights". If you have previously filed a protest and want to know its status, please contact Patricia McCarty at 503-986-0820.*
