

# WATERMASTER DIVISION 33 APPLICATION WORK SHEET

Recommendations for Water Right Applications that may affect the  
Habitat of Sensitive, Threatened or Endangered Fish Species, OAR 690-33-310 through 340.

Application #: S-85738 Applicant's Name: White Water Ranch and McKenzie River Ranch, LLCs

---

1) Does the affected surface water source flow above ground in a defined channel into another water body?

YES

2) Does the affected surface water source ever go dry in the area of the proposed diversion?  NO

3) To your knowledge, has the affected surface water source of water been regulated because of insufficient flow to satisfy existing water rights including instream water rights?  NO

4) Do you agree with the specified water availability, and the recommended period of use?  YES

With conditions shown below in 7. \_\_\_\_\_  
\_\_\_\_\_

5) Did you discuss this application with staff from another agency?  YES

Who: \_\_\_\_\_ Agency: \_\_\_\_\_ Date: \_\_\_\_\_

6) If the Initial Review is unfavorable, is mitigation an option?  NA

7) What conditions do you recommend? Jeff Z at ODFW recommends the use be conditioned on maintenance of 1000 cfs in the diversion reach. I concur and suggest "this be determined by observation of more than 1040 cfs at USGS gage 14-163150 or another method approved by the Department (WRD)". This additional 40 is due to the expected addition to the river of 40 cfs from the Leaburg Fish Hatchery which is below the diversion and above the gage. \_\_\_\_\_

8) Your recommendation under OAR 690-033-0330 (2):  Approval with conditions  
 Approval without conditions  
 Denial
