Application History

Permit S-54164 was issued by the Department on February 9, 2005. The permit called for complete application of water to beneficial use by October 1, 2009. On October 7, 2009 U.S. Fish and Wildlife Service submitted to the Department an Application for Extension of Time for Permit S-54164. In accordance with OAR 690-315-0050(2), on July 20, 2010 the Department issued a Proposed Final Order proposing to extend time to apply water to full beneficial use to October 1, 2025. The protest period closed September 3, 2010, in accordance with OAR 690-315-0060(1). No protest was filed.

Let the record show that the Proposed Final Order for Permit S-54164 should have included a statement acknowledging that OWRD accepts the request of US Fish and Wildlife to have until October 1, 2011 to complete and submit its Water Quality Monitoring Plan.

At time of issuance of the Proposed Final Order the Department concluded that, based on the factors demonstrated by the applicant, the permit may be extended subject to the following conditions:

CONDITIONS

1. Checkpoint Condition

The permit holder must submit a completed Progress Report Form to the Department by **October 1, 2014, 2019 and 2024**. *Forms are enclosed with this Final Order.*

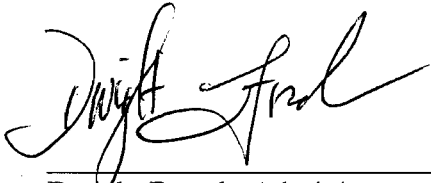

- (a) At each checkpoint, the permit holder shall submit and the Department shall review evidence of the permit holder's diligence towards completion of the project and compliance with terms and conditions of the permit and extension. If, after this review, the Department determines the permit holder has not been diligent in developing and perfecting the water use permit, or complied with all terms and conditions, the Department shall modify or further condition the permit or extension to ensure future compliance, or begin cancellation proceedings on the undeveloped portion of the permit pursuant to ORS 537.260 or 537.410, or require submission of a final proof survey pursuant to ORS 537.250;
- (b) The Department shall provide notice of receipt of progress reports in its weekly notice and shall allow a 30 day comment period for each report. The Department shall provide notice of its determination to anyone who submitted comments.

The applicant has demonstrated good cause for the permit extension pursuant to ORS 537.230, 539.010(5) and OAR 690-315-0040(2).

Order

The extension of time for Application S-84222, Permit S-54164, therefore, is approved subject to conditions contained herein. The deadline for applying water to full beneficial use is extended to October 1, 2025.
