## STATE OF OREGON

OFFICE OF THE  
STATE ENGINEER

JOHN H. LEWIS, STATE ENGINEER  
PRESIDENT OF THE BOARD OF CONTROL  
SECRETARY OF THE DESERT LAND BOARD  
PERCY A. CUPPER  
ASSISTANT STATE ENGINEER

SALEM, OREGON April 11, 1912

Mr. J. W. Fidler,

Salem, Oregon.

Dear Sir:

I enclose herewith Application No 2151 , by  
being Permit No. 1094 , which has been approved and recorded  
in this office. I am also enclosing one sketch map . It is not necessary  
to record this in your county, or to publish notice of its issuance. This  
permit is not a water right, but is, in a way, a contract between you and the  
State. It should be held by the owner of the right, and not disposed of in  
making final proof on desert land, or for any other purpose.

You should make annual proof under this permit upon the forms attached  
hereto. Within the time as limited by the State Engineer for the beginning of  
construction, for completion, and for the application of water to beneficial  
use, you should fill out the proper blank, detach, and mail to the Secretary,  
Board of Control, Salem, Oregon. If more than one year is allowed for comple-  
tion of construction you should give on the proper blank a detailed description  
of the work performed each year so that the Board may judge as to whether or not  
the law is being complied with as to the prosecution of work with reasonable  
diligence.

Final proof will be taken by the Board, through the proper division  
superintendent, as soon as possible after the expiration of time for the com-  
plete application of water to beneficial use, or any extension thereof. The  
Board of Control will thereafter issue a "Certificate of Water Right" to be  
recorded with the county clerk of the proper county, which to your water title  
will correspond to a patent from the United States as foundation for your land  
title.

Should it be impossible for you to complete the work or to put the  
water to beneficial use before the expiration of the time fixed in the permit,  
you should, if you have good reasons for so doing, apply to the State Engineer  
for an extension of time. All such requests must be received before the date  
of expiration, otherwise you will have to re-file and lose something in priority  
by your neglect. No extension of time can be granted for the beginning of  
work, nor in any case where request is made after the expiration of the time  
limit as fixed in the permit.

Any assignment of this permit should be made in writing and recorded  
in the State Engineer's office at Salem. The assignee should make all proofs  
from date of assignment.

required after date of  
Water belongs to the land it irrigates and not to the ditch, or ditch  
owner. The transfer of land will carry with it the water appurtenant thereto.

Failure to fill out and mail the annual proofs required by the Board  
may jeopardise your rights under this permit and result in its cancellation  
after proper notice, as the law provides that proof must be made "to the satis-  
faction of the Board of Control".

Respectfully yours,

State Engineer.

December 26, 1916.

Mr. J. W. Fidler

Salem, Oregon.

Dear Sir:-

Proof of appropriation of water under permit No. 1094, together with \$1.00 recording fee, has been received and filed in this office.

This proof appears to be in proper form and will be presented to the State Water Board at its next meeting for approval and issuance of certificate.

Very respectfully,
