

**Oregon Water Resources Department  
Water Rights/Adjudications Division**

Water Rights Application  
Number G-17395

**Final Order**

*Hearing and Appeal Rights*

Under the provisions of ORS 537.170 and ORS 537.622, the applicant may request a contested case hearing by submitting the information required for a protest under ORS 537.153(6) or ORS 537.621(7) to the Department within 14 days after the date of mailing of this order as shown below. If a contested case hearing is requested, the Department must schedule one. In the contested case hearing, however, only those issues based on the modifications to the Proposed Final Order may be addressed.

ORS 536.075 allows for additional appeal rights for other than contested case. This is a Final Order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

This statement of judicial review rights does not create a right to judicial review of this order, if judicial review is otherwise precluded by law. Where no changes have been made to a Proposed Final Order on a water right application and no protests have been filed during the protest period, the Final Order is not subject to judicial review.

*Application History*

On June 3, 2010, Seven Hills Properties LLC submitted an application to the Department for a water use permit. The Department issued a Proposed Final Order on October 26, 2010. The protest period closed December 10, 2010, and no protest was filed.

The proposed use would not impair or be detrimental to the public interest, but the Department's continuing evaluation reveals that the Proposed Final Order (PFO) requires modification to correctly describe the classification of proposed use under Oregon Administrative Rule (OAR) 690-507-0060(3)(a)(B) and to correctly identify the bulge in the NESE of Section 8, Township 5 North, Range 35 East, W.M.

The wells requested under this application are located within a five-mile radius of the City of Milton-Freewater (City) municipal wells. Under OAR 690-507-0060(3)(a)(B), groundwater use from the basalt reservoir within a five-mile radius around any municipal well of the City of Milton-Freewater could be limited to only municipal uses, group domestic uses, or statutorily exempt groundwater uses if the City has an approved water management and conservation plan in effect. The City's water management and conservation plan expired on October 1, 2010; therefore OAR 690-507-0060(3)(a)(B) will not affect this application.

The Proposed Final Order described the "Middle Bulge" in Section 8, Township 5 North, Range 35 East, W.M. but is correctly identified as "South Bulge" in the attached permit.

#### Order

Application G-17395 therefore is approved with the above modifications to the Proposed Final Order, and Permit G-16827 is issued as limited by the conditions set forth therein.

**DATED January 13, 2011**

for Phillip C. Ward, Director  
Water Resources Department
