

DEQ DIVISION 33 APPLICATION REVIEW SHEET

Recommendations for Water Right Applications that may affect the
Habitat of Sensitive, Threatened or Endangered Fish Species, OAR 690-33-310 through 340.

Application #: S 87631 Applicant's Name: CHEESEMAN, DEBBY

1) Is there a connection to a 303(d) listed water quality limited water body? NO YES

Explain: Rogue River is water quality limited by temperature and bacteria.

2) What is the potential for this use to impact a water quality limited water body: HIGH MEDIUM LOW

Explain: Provided no polluted return flows, use will have little impact to water quality due to the mitigation provided by the Lost Creek Reservoir and riparian area is not disturbed, as stated in the application.

3) If the answer to question (2) is HIGH or MEDIUM, will the proposed use still result in diminution of water quality for the habitat of sensitive, threatened, or endangered fish species? NO YES

If YES, how? _____

4) Can conditions be applied to mitigate the impact of the use? NO YES

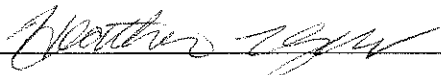

Which conditions are recommended? (select from Menu of Conditions)

5) If conditions cannot be identified to offset impacts, would the proposed use affect the Habitat of Sensitive, Threatened, or Endangered Fish Species? NO YES

If YES, please explain: _____

6) If a permit is issued, are there any conditions you would like to see included in the permit?

7) Your recommendation under OAR 690-033-0330 (2): Approval with conditions
 Approval without conditions
 Denial

Hi Heather!

Go to the link near the bottom of the original email that says "to view the pending reviews in your district or region, click the following link"

Once you click that link, you will see a table of pending applications in your district. At the bottom of that page there are three hyperlinks

-- click on the first one that says "Link to Application Division 33 Review Form".

Let me know if you have any questions.

Thanks for your help!

Kerry

Hi Heather,

We have a new policy which requires us to get comments from Division 33 reviewer's before we can proceed with a Proposed Final Order - (the next step after the Initial Review) for an application.

The Initial Review was issued July 9, 2010. The Initial Review summarized that the proposed use of 3.0 AF of stored water from Lost Creek Reservoir, constructed under permits R-8141 and R-8142, a tributary of Rogue River, for irrigation of 0.67 acre is allowable from April 1 through October 31, contingent upon the submission of a contract to appropriate stored water.

WRD Water Right Application S 87631 (Surface Water) has been submitted for your District or Region. DEQ

Please complete/return the form. If I do not receive a response from you by April 5, 2011, I will make a note in the file that DEQ has no comments or concerns with this application.

Here is a link to all scanned documents pertaining to this application, including the Watermaster review by Larry Menteer:

Please complete your review within 30 days from the date of this email.
You may email your completed review form directly to the caseworker.

To view the application form, application map and applicable review form, please click the "View all scanned documents" option on the OWRD Web page for this application. If you would like to look at the water availability, please choose 50% exceedance for R applications and 80% exceedance for S and G applications. After the water availability report is generated, look at the last watershed ID# (WID) in the first table entitled "Water Availability Table" - water is available during the month's with a YES indicated.

Watermaster - Please look at the water availability - if there is no WID, please complete a water availability report.

ODFW and DEQ - if there is no WID, please assume that water is available

year round for the purposes of completion of your review. WRD will take into account when water is actually available when processing the application.
