Subject: Initial Review comments

Ms. Kavanagh,

The Department of State Lands (DSL) regulates fill and removal within wetlands and waters of the State. WRD Application R-87708, for Al Jubitz, appears to have potentially jurisdictional activity with lands regulated by DSL. The existing reservoir is indicated as a known wetland, and the areas surrounding the reservoir expansion have features that indicate wetlands are likely in the area.

I encourage the applicant to contact DSL to determine if a permit is necessary for the proposed work and if so, to determine a satisfactory mitigation strategy for proposed impacts to the wetlands. If there is impact to wetlands that exceeds 50 cubic yards of fill or removal, or both cumulatively, and no permit is obtained, this could lead to enforcement action by DSL.

Thank you for the opportunity to comment. Please feel free to contact me if you have any questions.
