

MEMO

To: Juno Pandian, Well Construction and Compliance Section Manager
From: Kristopher Byrd, Well Construction Program Coordinator
Subject: Review of Water Right Application G-17411
Date: March 4, 2011

The attached application was forwarded to the Well Construction and Compliance Section by Water Rights. Josh Hackett reviewed the application. Please see Josh's review and the Well Log.

Based on a review of the Well Report and of the Groundwater Review , Well #1 (Wash 7628) does not appear to comply with current minimum well construction standards (See OAR 690 Division 210).

My recommendation is that the Department **not issue** a permit for this well unless it is brought into compliance with current minimum well construction standards or information is provided showing that it is in compliance with current minimum well construction standards.

Bringing well #1 into compliance with minimum well construction standards may not satisfy hydraulic connection issues.
