Application History

Permit G-15855 was issued by the Department on February 17, 2005. The permit called for complete application of water to beneficial use by October 1, 2009. On December 8, 2010, Eagle Crest, Inc. submitted an application to the Department for an extension of time for Permit G-15855. In accordance with OAR 690-315-0050(2), on May 31, 2011, the Department issued a Proposed Final Order proposing to extend the time to apply water to full beneficial use to October 1, 2059. The protest period closed July 15, 2011, in accordance with OAR 690-315-0060(1). No protest was filed.

The Department adopts and incorporates by reference the Proposed Final Order dated May 31, 2011. At time of issuance of the Proposed Final Order the Department concluded that, based on the factors demonstrated by the applicant, the permit may be extended subject to the following conditions:

CONDITIONS

1. **Development Limitations**

Appropriation of any water beyond 1.68 cfs under Permit G-15855 shall only be authorized upon issuance of a final order approving a Water Management and Conservation Plan (WMCP) under OAR Chapter 690, Division 86. The required WMCP shall be submitted to the Department within 3 years of an approved extension application. Use of water under Permit G-15855 must be consistent with this and subsequent WMCP's approved under OAR Chapter 690, Division 86 on file with the Department.

The deadline established in this PFO for submittal of a WMCP shall not relieve a permit holder of any existing or future requirement for submittal of a WMCP at an earlier date as established through other orders of the Department. A WMCP submitted to meet the requirements of this order may also meet the WMCP submittal requirements of other Department orders.

The applicant has demonstrated good cause for the permit extension pursuant to ORS 537.630, 539.010(5) and OAR 690-315-0080(3).

Order

The extension of time for Application G-15789, Permit G-15855, therefore, is approved subject to conditions contained herein. The deadline for applying water to full beneficial use within the terms and conditions of the permit is extended from October 1, 2009 to October 1, 2059.
