Subject: Alternate Reservoir Review - App R-86760 Eagle Crest Reservoir

Mike,

We have a policy which requires us to get comments from Alternate Reservoir reviewers' before we can proceed with a Final Order for an application.

I sent you a review sheet on 5/11/07 for RE: App R-86760 Meriwether Farms LLC; Chris Millich. The application proposed to enlarge Eagle Crest Reservoir, constructed under Permit R-5695 (2.3 AF), an additional 2.7 AF, from Gibson Gulch, tributary to Willamette River, for multipurpose use.

Water is available year round based on water availability report for wid 2-182 at 50% exceedance.

I've attached a copy of the application form and the map. Please complete/return the form, or if you have no concerns you can simply reply to this email.

Thanks for your help.

Kerry
