# Application for a Permit to Store Water in a Reservoir

(Alternate Review)

Alternate Review Process (ORS 537.409): You may use this form for any reservoir storing less than 9.2 acre-feet or with a dam less than 10 feet high.

**Use a separate form for each reservoir**

Please type or print in dark ink. If your application is found to be incomplete or inaccurate, we will return it to you. If any requested information does not apply, insert "n/a". A summary of review criteria and procedures that are generally applicable to these applications is available at [www.wrd.state.or.us/OWRD/PUBS/forms.shtml](http://www.wrd.state.or.us/OWRD/PUBS/forms/forms.shtml).

**3. LOCATION AND SOURCE**

A. Reservoir Name: T4 & Tel's Pond

B. Source: Provide the name of the water body or other source from which water will be diverted, and the name of the stream or lake it flows into. Indicate if source is run-off, seepage, or an unnamed stream or spring.  
 Source: MORRISON creek Tributary to: East Evans Creek

C. County in which diversion occurs: Jackson

App. No. <u>R-07745</u>	For Department Use	Permit No. _____	Date _____
-------------------------	--------------------	------------------	------------

**D. Reservoir Location**

Township (N or S)	Range (E or W)	Section	quarter/quarter	tax lot number
34S	2W	9	SW	402

E. Dam: Maximum height of dam: 4 feet. If excavated, write "zero feet".

F. Quantity: Amount of water to be stored in the reservoir at maximum capacity. List volume in acre-feet: 2

Is this project fully or partially funded by the American Recovery and Reinvestment Act? (Federal stimulus dollars)  Yes  No

**4. WATER USE**

Indicate the proposed use(s) of the stored water. **NOTE: You may wish to consider filing for "Multipurpose use" for your reservoir. Multipurpose use does not limit the types of future uses for the stored water. Multipurpose covers all uses including: stockwater, fish and wildlife, aesthetics, domestic, irrigation, agriculture, fire protection and pollution abatement.** If any use will be out of reservoir use, regardless of the type of storage listed, a secondary application must be filed to appropriate the stored water.

MULTIPURPOSE USE

**5. PROPERTY OWNERSHIP**

Do you own all the land where you propose to divert, transport, and use water?

Yes (please check appropriate box below then skip to section 5)

There are no encumbrances

This land is encumbered by easements, right of way, roads of way, roads or other encumbrances (please provide a copy of the recorded deed(s))

No (Please check the appropriate box below)

I have a recorded easement or written authorization permitting access.

I do not currently have written authorization or easement permitting access.

Written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigated and/or domestic use only (ORS 274.040). (Do not check this box if you described your use as "Multipurpose" in #3 above.)

List the names and mailing addresses of all affected landowners:

N/A

**6. ENVIRONMENTAL IMPACT**

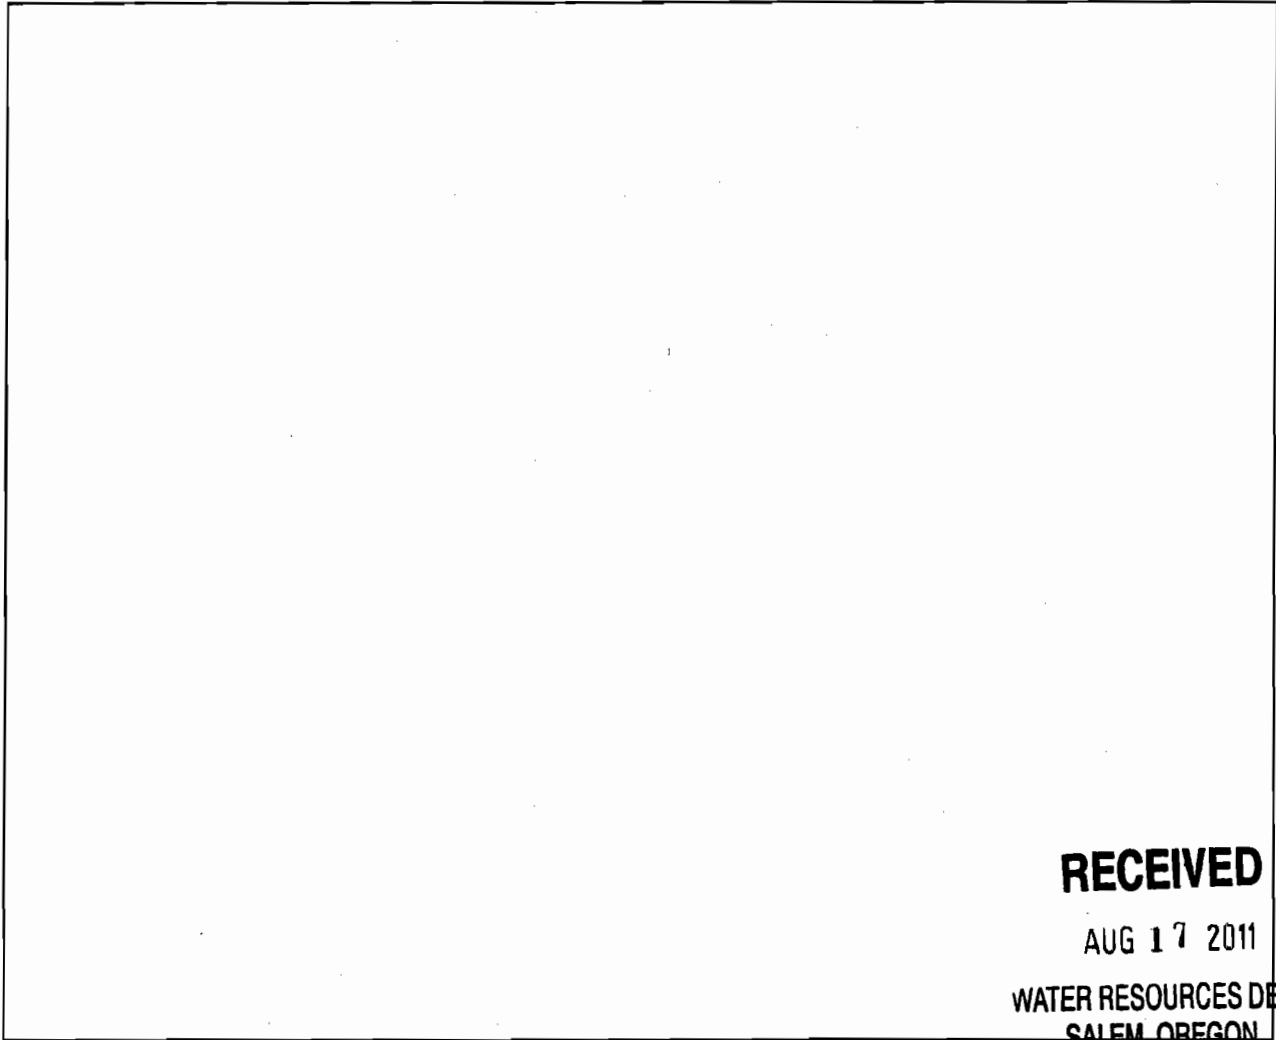

A. Channel: Is the reservoir in-stream or off channel?

B. Wetland: Is the project in a wetland?  Yes  No  Don't know

C. Existing: Is this an existing reservoir?  Yes  No

If yes, how long has it been in place? 90 years. Former owner told us

If the diversion involves a dam, use this space for sketches of the diversion (e.g. cross-section of the dam with its dimensions, dimension and placement of outlet pipe, means of passing live flow outside of the authorized storage season, and means for providing fish passage).

## For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

### Please check the appropriate box below and provide the requested information

- Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s):
- Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being pursued."**

# WATERMASTER ALTERNATE RESERVOIR APPLICATION REVIEW SHEET

Recommendations for Water Right Applications under the Alternate Reservoir review process (ORS 537.409)

In lieu of the water right application process set forth in ORS 537.140 to 537.211, an owner of a reservoir may submit an alternate reservoir application for a reservoir that has a storage capacity less than 9.2 acre-feet or a dam or impoundment structure less than 10 feet in height. ORS 537.409 describes the criteria used to evaluate alternate reservoir applications.

The review shall be limited to issues pertaining to: a) water availability, b) potential detrimental impact to existing fishery resources; and c) potential injury to existing water rights. (ORS 537.409 (6))

Within 60 days after the department provides public notice...any person may submit detailed, legally obtained information in writing, requesting the department to deny the application for a permit on the basis that the reservoir: (a) Would result in injury to an existing water right; or (b) Would pose a significant detrimental impact to existing fishery resources. (ORS 537.409 (5))

**The review of alternate reservoirs is limited to these criteria only.**

# ODFW Alternate Reservoir Application Review Sheet

*This portion to be completed by the applicant.*

 Name: Log Pond  
 Source: Morrison Creek Twp Rng Sec QQ: 34S 29W 59 Volume  
 (AF): 2 AF TL402  
 Stream Name: Morrison Ck Basin Name E.F. Evans Ck in channel  off channel

**This portion to be completed by Oregon Department of Fish and Wildlife (ODFW) District staff.**

- 1) Is the proposed project and AO<sup>1</sup> off channel? ..... Yes  No   
 (if yes then proceed to #4; if no then proceed to #2)
- 2) Is the proposed project or AO located where NMF<sup>2</sup> are or were historically present?... Yes  No   
 (if yes then proceed to #3; if no then proceed to #4)
- 3) If NMF are or were historically present:
- a. Is there an ODFW approved fish-passage plan?..... Yes  No
- b. Is there an ODFW approved fish-passage waiver or exemption?..... Yes  No

See page 2

If fish passage is required under (ORS 509.580 through .910) then either 3(a) or 3(b) must be "Yes" to move forward with the application. If responses to #3(a) and #3(b) are "No", then the proposed reservoir does not meet the requirements of Oregon Fish Passage Law and shall not be constructed as proposed.

- 4) Would the proposed reservoir pose any other significant detrimental impact to an existing fishery resource? ..... Yes  No   
 Explain below (for example, list STE species or other existing fishery resources that would be impacted negatively.)

Any diversion or appropriation of water for storage during the period \_\_\_\_\_ through \_\_\_\_\_ poses a significant detrimental impact to existing fishery resources. (For example, if diversion of water for storage during a certain time period would cause a significant detrimental impact to an existing fishery resource, then ODFW should recommend conditions or limitations.) If NMF fish are present at the project site or point of water diversion then the applicant should be advised that a fish screen consistent with screening criteria will be required.

See page 2

This proposed pond or reservoir contemplates impounding water in the Columbia Basin above Bonneville Dam. ODFW has determined that additional diversions of water in this area pose a significant detrimental impact to existing fishery resources during the period April 15 through September 30.  
Summer Steelhead, and resident rainbow and cutthroat trout  
use Morrison Creek for spawning, rearing, and migration.

<sup>1</sup> AO = Artificial Obstruction means any dam, diversion, culvert or other human-made device placed in waters of this state that precludes or prevents the migration of native migratory fish. ORS 509.580 (1)  
<sup>2</sup> NMF = Native Migratory Fish Species in Oregon as defined by OAR 635-412-0005 (32)

R-87745

The diversion that used to fill the pond has been breached. The applicant will use a pump to fill the pond in the future. Any in-stream structure other than a pump will need to meet ODFW's fish passage rules.

If YES, can conditions be applied to mitigate the significant detrimental impact to an existing fishery resource?  NO (explain)  YES (select from Menu of Conditions on next page)

Fishdiv 33 The pump intake must be screened according to ODFW requirements. Any in-channel structures must be built so that they will not block adult or juvenile fish passage.

OWRD has determined that water is available in January and February. If water is diverted only during this time period native fish should not be impacted. Please note: summer steelhead spawn in winter and early spring. No work should be done in the stream outside of the recommended work period (June 15 through Sept 15). This includes excavation of prop channels in areas where ~~spawn~~ fish may be spawning.

Use this menu to identify appropriate conditions to be included in the permit, and indicate the abbreviations on the review form:

**fishpass:** As required by ORS 509.585, a person owning or operating an artificial obstruction (AO) may not construct or maintain any AO across any waters of this state that are inhabited, or historically inhabited, by native migratory fish (NMF) without providing passage for NMF. A person owning or operating an AO shall, prior to construction, fundamental change in permit status or abandonment of the AO in any waters of this state, obtain a determination from ODFW as to whether NMF are or historically have been present in the waters. If ODFW determines that NMF are or historically have been present in the waters, the person owning or operating the AO shall either submit a proposal for fish passage to ODFW or apply for a waiver or exemption. Approval of the proposed fish-passage facility, waiver, or exemption must be obtained from the department prior to construction, permit modification or abandonment of the AO. Approved fish-passage plans, waivers, and exemptions shall maintain adequate passage of NMF at all times (ORS 509.601) as per the approved plan, waiver or exemption.

**fishself:** The permittee shall install, maintain, and operate fish screening and by-pass devices consistent with current Oregon Department of Fish and Wildlife (ODFW) standards. Fish screening is to prevent fish from entering the proposed diversion while by-pass devices provide adequate upstream and downstream passage for fish. The required screen and by-pass devices are to be in place and functional prior to diversion of any water. Permittee shall obtain written approval from ODFW that the installation of the required screen and by-pass devices meets the state's criteria or the permittee shall submit documentation that ODFW has determined screens and/or by-pass devices are not necessary.

**fishapprove:** The permittee shall install, maintain, and operate fish screening and by-pass devices consistent with current Oregon Department of Fish and Wildlife (ODFW) standards. Fish screening is to prevent fish from entering the proposed diversion while by-pass devices provide adequate upstream and downstream passage for fish. The required screen and by-pass devices are to be in place and functional, and approved in writing by ODFW prior to diversion of any water. The permittee may submit evidence in writing that ODFW has determined screens and/or by-pass devices are not necessary.

**fishdiv33:** If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area in accordance with ODFW's Fish and Wildlife Habitat Mitigation Policy OAR 635-415. For purposes of mitigation, the ODFW Fish and Wildlife Habitat Mitigation Goals and Standards, OAR 635-415, shall be followed.

The use may be restricted if the quality of the source stream or downstream waters decrease to the point that those waters no longer meet existing state or federal water quality standards due to reduced flows.

The permittee shall install, maintain, and operate fish screening and by-pass devices consistent with current Oregon Department of Fish and Wildlife (ODFW) standards. Fish screening is to prevent fish from entering the proposed diversion while by-pass devices provide adequate upstream and downstream passage for fish. The required screen and by-pass devices are to be in place and functional, and approved in writing by ODFW prior to diversion of any water. The permittee may submit evidence in writing that ODFW has determined screens and/or by-pass devices are not necessary.

**fishmay:** Notwithstanding that ODFW has made a determination that fish screens and/or by-pass devices are not necessary at the time of permit issuance, the permittee may be required in the future to install, maintain, and operate fish screening and by-pass devices to prevent fish from entering the proposed diversion and to provide adequate upstream and downstream passage for fish.

b52 Water may be diverted only when Department of Environmental Quality sediment standards are being met.

b5 The water user shall install and maintain adequate treatment facilities meeting current DEQ requirements to remove sediment before returning the water to the stream.

b51a The period of use has been limited to \_\_\_\_\_ through \_\_\_\_\_.

b57 Before water use may begin under this permit, a totalizing flow meter must be installed at each diversion point.

b58 Before water use may begin under this permit, a staff gage that measures the entire range and stage between full reservoir level and dead-pool storage must be installed in the reservoir. The staff gage shall be United States Geological Survey style porcelain enamel iron staff gage style A, C, E or I.

**futile call:** The use of water allowed herein may be made only at times when waters from the (NAME OF SURFACE WATER) would not otherwise flow into a tributary of the \_\_\_\_\_ River or sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows.

**riparian:** If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area in accordance with ODFW's Fish and Wildlife Habitat Mitigation Policy OAR 635-415. For purposes of mitigation, the ODFW Fish and Wildlife Habitat Mitigation Goals and Standards, OAR 635-415, shall be followed.

**wq:** The use may be restricted if the quality of the source stream or downstream waters decrease to the point that those waters no longer meet existing state or federal water quality standards due to reduced flows.

**fence:** The stream and its adjacent riparian area shall be fenced to exclude livestock.

**blv:** Water must be diverted to a trough or tank through an enclosed water delivery system. The delivery system must be equipped with an automatic shutoff or limiting flow control mechanism or include a means for returning water to the stream source through an enclosed delivery system. The use of water shall not exceed 0.10 cubic feet per second per 1000 head of livestock.

VENSON A. HUNT and WILMA D. HUNT, husband and wife,

do hereby grant, bargain, sell and convey to the UNITED STATES OF AMERICA, and its assigns, a perpetual easement and right-of-way, including but not limited to, the right and privilege to locate, construct, relocate, maintain, control, and repair a roadway over and across the following-described real property situated in the County of Jackson, State of Oregon, to wit:

A parcel of land lying in the Southwest Quarter of the Northwest Quarter (SW $\frac{1}{4}$ NW $\frac{1}{4}$ ) of Section 9, Township 34 South, Range 2 West of the Willamette Meridian, Jackson County, Oregon; the said parcel being all that portion of said property contained within a strip of land of varying width 40 feet to 80 feet on each side of the centerline shown and described on Exhibit A, attached hereto and made a part hereof.

The parcel of land to which the above description applies contains 2.0 acres, more or less.

See special provisions on Exhibit B, attached hereto and made a part hereof.

The rights and privileges herein granted are for the full use as a roadway by the grantee, its licensees and permittees, including but not limited to the right of access for the people of the United States generally to lands owned, administered or controlled by the UNITED STATES OF AMERICA for all lawful and proper purposes subject to reasonable rules and regulations of the Secretary of the Interior. Grantors reserve the right of ingress and egress over and across the roadway for all lawful purposes; PROVIDED, that such use shall not interfere with the rights and privileges granted herein; PROVIDED FURTHER, that the use of the roadway by grantors for the transportation of forest products shall be subject to the regulations contained in 43 CFR 2234.2-3.

TO HAVE AND TO HOLD said easement and right-of-way unto the UNITED STATES OF AMERICA and its assigns forever.

The grantors covenant and warrant that they are lawfully seized and possessed of the land aforesaid and have the full right, power and authority to execute this conveyance, and that they will defend the title to the easement and right-of-way conveyed herein and quiet enjoyment thereof against any claims and demands of all persons whomsoever and that said land is free and clear of liens, claims or encumbrances, including current or past due taxes.

EXHIBIT B

It is agreed that Grantee may clear the above-described right-of-way and keep the same clear of brush and timber and may fell danger trees adjacent to the right-of-way for construction, operation and maintenance of a road. Title to all timber, standing or down, within said right-of-way and marked danger trees adjacent to the right-of-way shall pass to Grantee. The consideration stated above represents full payment for the timber and the easement.

RESTRICTIVE COVENANT

500

The undersigned, being the record owners of all of the real property described on partition plat No. P-69-1991, located in Jackson County, State of Oregon, do hereby make the following restrictive covenant(s) for the above-described real property, specifying the covenant(s) shall constitute covenants to run with all of the land and shall be binding on all persons claiming under such land and that these restrictions shall be for the benefit of and limitation upon all future owners of said real property.

The following restrictive covenant(s) hereafter bind the subject property:

The record owners, their heirs, legal representatives, assigns, and lessees hereby acknowledge and agree to accept by the placement of this covenant or the acceptance and recording of this instrument, that the property herein described is situated near or upon land zoned Exclusive Farm Use, and as such may be subjected to common, customary, and accepted farming practices such as the operation of an orchard, feedlot, or dairy farm, any of which operations may include pesticide and herbicide spraying, weed cutting, irrigation, application of manure, fertilizer, orchard heating, and any other accepted and customary farm practices. Said practices listed above ordinarily and necessarily produce noise, dust, spray residue, smudge smoke, vapor, and other types of visual, odor, or noise pollution which declarant accepts as a normal and necessary farming practice and as part of the risk of purchasing a structure and living in a farm area. Jackson County shall be a party to this declaration, which cannot be removed or modified without written consent of the County for so long as the subject or adjoining property is zoned Exclusive Farm Use.

The record owners and their heirs, legal representatives, assigns, and lessees, also hereby acknowledge by the placement of this covenant, or the acceptance and recording of this instrument, that the property herein described is situated on land which has been identified by the Oregon Department of Fish and Wildlife as constituting critical winter deer range or is situated upon or near agricultural land used for livestock grazing and as such the grantee agrees to prohibit dogs, under the care or ownership of those residing on the property, from running at large on the subject property or adjacent properties. Any dog shall be considered running at large when it is off or outside of the premises belonging to the owner or keeper of such dog, or not in the company of and under the control of its owner or keeper. "Running at large" does not include the use of a dog under the supervision of a person in order to legally hunt, chase or tree wildlife; use to control or protect livestock; or use in other related agricultural activities. Jackson County shall be a party to this declaration, which cannot be removed or modified without written consent of the County for so long as the subject or adjoining property is situated on land identified by the Oregon Department of Fish and Wildlife as constituting critical deer range or is situated upon or near agricultural land used for livestock grazing.

The covenant(s) shall not be modified or terminated except by the express written consent of the owners of the land at the time, and the Jackson County Department of Planning and Development, as hereafter provided.

JACKSON COUNTY, a political subdivision of the State of Oregon, shall be considered a party to this covenant and shall have the right, if it so desires, to enforce any or all of the covenant(s) contained herein by judicial or administrative proceeding. This covenant is made pursuant to the provisions of the Jackson County Land Development Ordinance.

The undersigned, Wilma D. Hunt and \_\_\_\_\_  
being the record owners of all of the real property described on the attached  
Exhibit A, located in Jackson County, State of Oregon, do hereby make the  
following restrictive covenants for the above-described real property,  
specifying that these covenants shall constitute covenants to run with all of  
the land and shall be binding on all persons claiming under such land and that  
these restrictions shall be for the benefit of and limitation upon all future  
owners of said real property.

The following restrictive covenants hereafter bind the subject real property:

Parcel No. 1 and 2 as described on Exhibit A shall not be  
transferred, conveyed, leased, mortgaged or otherwise ~~liens~~ separately from  
each other but only to identical transferees, mortgagees or lien claimants.

where is  
Exhibit A

Parcel  
"Neither ~~XXXX~~ 1 nor 2 shall be considered a separate parcel for  
purposes of any residential development permits under the ordinances of  
Jackson County but shall be considered only as a single tract for such  
purposes. Not more than one additional farm or nonfarm residential  
development shall be permitted for the whole of the real property described  
on the attached Exhibit A", regardless of the number of tax lot numbers  
hereafter assigned.

If either tract is separately hereafter conveyed to someone who is not the  
owner of the other, then no dwelling or enlargements thereof can thereafter  
be constructed on either unless the property is thereafter zoned for such  
use and density.

"This restriction shall not be modified or terminated except by the express  
written consent of the owners of the land at the time, and the Jackson County  
Department of Planning and Development, as hereafter provided."

"JACKSON COUNTY, a political subdivision of the State of Oregon, shall be

**DISTRIBUTION RIGHT OF WAY EASEMENT**

For value received, the undersigned (Grantor) hereby grants to PacificCorp, an Oregon corporation, its successors and assigns (Grantee), an easement for a right of way 20 feet in width for the construction, reconstruction, operation, maintenance, repair, replacement, enlargement, and removal of electric power distribution lines and communication lines and all necessary or desirable accessories and appurtenances thereto, including without limitation: supporting towers, poles, props, guys and anchors, including guys and anchors outside of the right of way, wires, fibers, cables and other conductors and conduits therefor, and pads, transformers, switches, vaults and cabinets, along the general course now located by Grantor on, over or under the surface of the real property of Grantor in Jackson County, State of Oregon, more particularly described as follows or as more particularly described and/or shown on Exhibit(s) "A" attached hereto and by this reference made a part hereof:

Situated in a portion of the South Half (S 1/2) of the Northwest Quarter (NW 1/4) of Section 9, Township 34 South, Range 2 West, Willamette Meridian, OR S # 97-13779

Assessor's Map No. 342902 Tax Parcel No. 620 & 621

Together with the right of access to the right of way from adjacent lands of Grantor for all such lines in connection with the purposes for which this easement has been granted, and together with the present and (without payment thereof) the future right to keep the right of way and adjacent lands clear of all brush, trees, timber, structures and other hazards which might endanger Grantee's facilities or impede Grantee's activities.

At no time shall Grantor erect or permit the erection of any buildings or structures of any kind or nature, or place or use or permit any equipment or material of any kind that exceeds 12 feet in height, or light any fires, or place or store any flammable materials (other than agricultural crops), on or within the boundaries of the right of way. Subject to the foregoing limitations, the surface of the right of way may be used for roads, agricultural crops and other purposes not inconsistent with the purposes for which this easement has been granted.

The rights and obligations of the parties hereto shall be binding upon and shall benefit their respective heirs, successors and assigns, and this easement shall terminate if and when Grantee shall have abandoned all use of the right of way and no longer has any future need therefor.
