Dear Mr. Cupper: - IN RE WATER PERMIT NO. 4445 -

I beg to hand you herewith assignment of water rights from Mr. Swank in the above Permit number and in this connection beg to say that the construction work incident to the appropriation of this water has been done for a good many years and the water actually used and that I filed on same for the purpose of perfecting the legal title to the water in connection with the land which we were selling which is supplied. I take it, therefore, that unless I hear from you to the contrary that we will make a final showing to conform with the law and get the final adjudication of your Department on the same. I would like to attend to this in the near future if the record is now in order for such action. I would appreciate any suggestions from you.

Yours very truly,

Mrs. Sarah Barringer,  
Meham,  
Oregon.

Dear Madam:

Permit No. 4445.

Mr. Sherman Swank has just called at this office and informed us that you are now the owner of the property at Mehama, Oregon, for which he secured water right under permit No. 4445, in March, 1920. This permit covers the appropriation of 0.25 second foot from an unnamed spring for domestic use for hotel purposes, and according to the terms of the permit, construction work was required to begin on or before March 15, 1921, be completed on or before June 1, 1922, and the water applied to the proposed use on or before October 1, 1923.

If you are now the holder of this permit, you should secure an assignment of the right from Mr. Swank, a blank for which is enclosed. The fee provided by law for recording this form of assignment is \$1.00. You should also fill out and file the Notice of Beginning Construction, a blank for which is attached to the permit, in order to place the permit in good standing.

Trusting we may hear from you in regard to this matter, I remain,

Very respectfully,

Parcy A. Cupper,  
State Engineer.
