Certificate of Water Right Ownership Update

NOTICE TO SELLERS & BUYERS:

By law, all water belongs to the public (ORS 537.110). In almost every instance, a permit or water right certificate from the Water Resources Department is needed before using, diverting or storing water (ORS 537.130). However, most domestic wells do not require water rights. A certificate of water right stays with the land. In order to keep track of water right ownership, the Department requests that this form be submitted to the Department. *If for multiple rights, a separate form for each right will be required.*

Water that has been used for a long time in one place or that involves a water structure (like a dam) that already exists is no guarantee that there is a water right which would allow the water use to continue.

If you have any questions about this form or water right requirements, please contact your local watermaster or call the Water Resources Department at 503-986-0900.

Certificate 29109 authorizes storage of water for stock use in three reservoirs. The reservoirs are located on public land administered by the United States Department of Interior Bureau of Land Management ("BLM"). McCormack Ranch is the base property for a BLM Grazing Preference for the Haughton Allotment on which the reservoirs are located. Based on the Grazing Preference the BLM has issued and continues to renew the issuance of Grazing Permits for grazing on the Allotments.

McCormack Ranch LLC is the holder of the current Grazing Permit #3605541, authorizing grazing use on the Haughton, North Pothook and McCormack Home Ranch Allotments. The associated BLM grazing permit and maps are attached hereto as part of the Certificate of Water Right Ownership Update request.

Based on McCormack Ranch LLC's ownership of the base property and status as holder of Grazing Permit #3605541, McCormack Ranch LLC requests that OWRD update ownership Certificate 29109 to McCormack Ranch LLC.
