Oregon Revised Statutes (ORS) 537.409 establishes the process by which an application to store waters of the public may be submitted.

Findings of Fact

1. On December 6, 2010, Mark Thorkelson submitted an application for a permit to store water pursuant to ORS 537.409.
Storage Volume: 4.0 ACRE FEET
Dam Height: LESS THAN 10 FEET
Source: UNNAMED STREAM, TRIBUTARY TO APPELEGATE RIVER
Location: JACKSON COUNTY IN SECTION 32, TOWNSHIP 38 SOUTH, RANGE 3 WEST, W.M.
2. The required examination fees were paid.
3. The Department provided public notice of the application in the Department's weekly public notice on December 14, 2010. A 60-day comment period followed.
4. The Department has received public comment related to the possible issuance of the attached permit. A comment evaluation form was completed, and the comments were considered by the Department.
5. The Department has determined that the proposed source has not been withdrawn from further appropriation.
6. Clackamas County Circuit Court Judge Susie L. Norby issued an order relating to the processing of reservoir applications filed under ORS 537.409. In this order, Judge Norby determined that an application for stored water filed under ORS 537.409 is not complete unless/until the Department received sufficient information to demonstrate that the reservoir:
 - a. does not pose a significant detrimental impact to existing fishery resources as determined on the basis of information submitted by the State Department of Fish and Wildlife; and
 - b. does not injure any existing water right.
7. The proposed reservoir is not prohibited under ORS 390.835.
8. Shortly after the Department determined the application was complete, the Department again provided public notice of the application. The Department did not receive any comments during the second comment period.
9. Water is available for the proposed use according to the Department's water-availability model and the watermaster's assessment.

10. The Department finds that existing water rights would not be injured by the proposed use.
11. The Department relies on the the Oregon Department of Fish and Wildlife's review and recommendations in determining whether a proposed use would pose a significant detrimental impact to existing fishery resources. The Department has determined that, as conditioned, the proposed use will not pose a significant detrimental impact to existing fishery resources.

Conclusions of Law

1. Water is available for the proposed use.
2. The proposed use will not injure existing water rights.
3. The proposed use will not pose a significant detrimental impact to existing fishery resources.
4. Application R-87671 is consistent with the requirements of ORS 537.409.

Now Therefore, it is Ordered:
