Water Rights Application
Number G-17449

Superseding Final Order

Hearing and Appeal Rights

Under the provisions of ORS 537.170 and ORS 537.622, the applicant may request a contested case hearing by submitting the information required for a protest under ORS 537.153(6) or ORS 537.621(7) to the Department within 14 days after the date of mailing of this order as shown below. If a contested case hearing is requested, the Department must schedule one. In the contested case hearing, however, only those issues based on the modifications to the Proposed Final Order may be addressed.

ORS 536.075 allows for additional appeal rights for other than contested case. This is a Final Order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

This statement of judicial review rights does not create a right to judicial review of this order, if judicial review is otherwise precluded by law. Where no changes have been made to a Proposed Final Order on a water right application and no protests have been filed during the protest period, the Final Order is not subject to judicial review.

Application History

On January 18, 2011, Oregon Department of State Lands submitted an application to the Department for a water use permit.

The Department issued a Proposed Final Order on August 30, 2011.

The protest period closed October 14, 2011, and no protest was filed.

On November 3, 2011, the Department issued a Final Order and draft permit approving the application upon payment of \$250 in outstanding recording fees.

On November 14, 2011, \$250 was received.

Subsequently the Department discovered the draft permit attached to the November 3, 2011 Final Order erroneously described Well 2 in

Section 34, rather than in Section 33. The Department finds that the November 3, 2011 Final Order requires modification to correct the error.

This order supersedes the November 3, 2011 Final Order for Application G-17449, which is of no further force or effect.

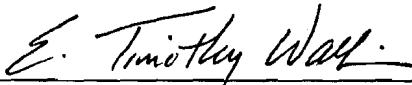

The proposed use would not impair or be detrimental to the public interest.

Order

This order supersedes the November 3, 2011 Final Order for Application G-17449, which is of no further force or effect.

Application G-17449 therefore is approved with the above modifications to the Proposed Final Order, and Permit G-16883 is issued as limited by the conditions set forth therein.

DATED November 30 , 2011

E. Timothy Wallin, Water Rights Program Manager
for Phillip C. Ward, Director
